All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

SUPPLEMENTARY INFORMATION:

Title: Grain Market News Reports and Molasses Market News Reports.

OMB Number: 0581-0005.

Expiration Date of Approval: 07-31-2002.

Type of Request: Extension and revision of a currently approved information collection.

Abstract: The Agricultural Marketing Act of 1946 (7 U.S.C. 1621), section 203(g) directs and authorizes the collection and dissemination of marketing information including adequate outlook information, on a market area basis, for the purpose of anticipating and meeting consumer requirements, aiding in the maintenance of farm income, and to bring about a balance between production and utilization.

The grain industry has requested that USDA continue to issue market news reports on grain and molasses. These reports are compiled by AMS in cooperation with the grain and feed industry. Market news reporting must be timely, accurate, and continuous if it is to be useful to producers, processors, and the trade in general. Industry traders can use market news information to make marketing decisions on when and where to buy and sell. For example, a producer could compare prices being paid at local, terminal, or export elevators to determine which location will provide the best return. Some traders might choose to chart prices over a period of time in order to determine the most advantageous day of the week to buy or sell, or to determine the most favorable season. In addition, the reports are used by other Government agencies to evaluate market conditions and calculate price levels, such as USDA's Farm Service Agency, that administers the Farmer-owned Reserve Program. Economists at most major agricultural colleges and universities use the grain and feed market news reports to make short and long-term market projections. Also, the Government is a large purchaser of grain and related products, a system to monitor the collection and reporting of data is needed.

The information must be collected, compiled, and disseminated by an impartial third-party, in a manner which protects the confidentiality of the reporting entity. AMS is in the best position to provide this service.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average .108 hours per response.

Respondents: Business or other for-profit entities, individuals or

households, farms, and the Federal Government.

Estimated Number of Respondents: 202.

Estimated Number of Responses per Respondent: 19.

Estimated Total Annual Burden on Respondents: 420 hours.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (2) the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: March 7, 2002.

SUPPLEMENTARY INFORMATION:

Title: Plan for Estimating Daily Livestock Slaughter Under Federal Inspection.

OMB Number: 0581-0050.

Expiration Date of Approval: 07-31-2002.

Type of Request: Extension and revision of a currently approved information collection.

Abstract: The Agricultural Marketing Act of 1946 (7 U.S.C. 1621, *et seq*) directs and authorizes the collection and dissemination of marketing information including adequate outlook information, on a market area basis, for the purpose of anticipating and meeting consumer requirements aiding in the maintenance of farm income and to bring about a balance between production and utilization.

Under this market news program, USDA issues a market news report estimating daily livestock slaughter under Federal inspection. This report is compiled on a voluntary basis in cooperation with the livestock and meat industry. The information provided by respondents facilitates market news reporting, which must be timely, accurate, unbiased, and continuous if it is to be useful to the industry. The daily livestock slaughter estimates are provided at the request of industry and are used to make production and marketing decisions.

The Daily Estimated Livestock Slaughter Under Federal Inspection Report is used by a wide range of industry contacts, including packers, processors, producers, brokers, and retailers of meat and meat products. The livestock and meat industry requested that USDA issue slaughter estimates (daily and weekly), by species, for cattle, calves, hogs, and sheep in order

to assist them in making immediate production and marketing decisions and as a guide to the volume of meat in the marketing channel. The information requested from respondents includes their estimation of the current day's slaughter at their plant(s) and the actual slaughter for the previous day. Also, the Government is a large purchaser of meat and related products and this report assists other Government agencies in providing timely information on the quantity of meat entering the processing channels.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average .02 hours per response.

Respondents: Business or other for-profit entities, individuals or households, farms, and the Federal Government.

Estimated Number of Respondents: 72.

Estimated Number of Responses per Respondent: 260.

Estimated Total Annual Burden on Respondents: 374 hours.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (2) the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

[Docket No. LS-02-03]

Beef Promotion and Research: Certification and Nomination for the Cattlemen's Beef Promotion and Research Board

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Department of Agriculture's (USDA) Agricultural Marketing Service (AMS) is accepting applications from State cattle producer organizations or associations and general farm organizations, as well as cattle or beef importer organizations, who desire to be certified to nominate producers or importers for appointment to vacant positions on the Cattlemen's Beef Promotion and Research Board (Board). Organizations which have not previously been certified that are interested in submitting nominations must complete and submit an official application form to AMS. Previously certified organizations do not need to reapply. Notice is also given that vacancies will occur on the Board and that during a period to be established, nominations will be accepted from eligible organizations and individual importers.

DATES: Applications for certification must be received by close of business April 12, 2002.

ADDRESSES: Certification forms as well as copies of the certification and nomination procedures may be requested from Marlene M. Betts, Acting Chief; Marketing Programs Branch, LS, AMS, USDA; STOP 0251; 1400 Independence Avenue, SW.; Washington, DC 20250-0251.

FOR FURTHER INFORMATION CONTACT: Marlene M. Betts, Acting Chief, Marketing Programs Branch on 202/720-1115.

SUPPLEMENTARY INFORMATION: The Beef Promotion and Research Act of 1985 (Act) (7 U.S.C. 2901 *et seq.*), enacted December 23, 1985, authorizes the implementation of a Beef Promotion and Research Order (Order). The Order, as published in the July 18, 1986, **Federal Register** (51 FR 26132), provides for the establishment of a Board. The current Board consists of 100 cattle producers and 8 importers appointed by USDA. The duties and responsibilities of the Board are specified in the Order.

The Act and the Order provide that USDA shall either certify or otherwise determine the eligibility of State cattle producer organizations or associations and general farm organizations, as well as any importer organizations or associations to nominate members to the Board to ensure that nominees represent the interests of cattle producers and importers. Nominations for importer representatives may also be made by individuals who import cattle, beef, or beef products. Persons who are individual importers do not need to be certified as eligible to submit nominations. When individual importers submit nominations, they
