[Docket No. RP02-172-000]

#### TransColorado Gas Transmission Company; Notice of Annual Fuel Gas Reimbursement Report

March 7, 2002.

Take notice that on March 1, 2002, TransColorado Gas Transmission Company (TransColorado) tendered for filing its annual Fuel Gas Reimbursement Percentage (FGRP) report and proposed a Phase I - 0.1% variance adjustment and a Phase II 0.1% variance adjustment to be effective April 1, 2002. The Phase I variance adjustment is applicable to contracts entered into after March 31, 2001.

TransColorado stated that a copy of this filing has been served upon its customers, the New Mexico Public Utilities Commission and the Colorado Public Utilities Commission.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before March 14, 2002. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" and follow the instructions (call 202-208-2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the

instructions on the Commission's web site under the "e-Filing" link.

### Federal Energy Regulatory Commission

[Docket No. RP02-171-000]

#### Transcontinental Gas Pipe Line Corporation; Notice of Proposed Changes in FERC Gas Tariff

March 7, 2002.

Take notice that on March 1, 2002 Transcontinental Gas Pipe Line Corporation (Transco) tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1, certain revised tariff sheets which sheets are enumerated in Appendix A to the filing, with an effective date of April 1, 2002.

Transco states that the instant filing is submitted pursuant to Section 38 of the General Terms and Conditions of Transco's FERC Gas Tariff which provides that Transco will file, to be effective each April 1, a redetermination of its fuel retention percentages applicable to transportation and storage rate schedules. The derivations of the revised fuel retention percentages included therein are based on Transco's estimate of gas required for operations (GRO) for the forthcoming annual period April 2002 through March 2003 plus the balance accumulated in the Deferred GRO Account at January 31, 2002. Appendix B attached to the filing contains workpapers supporting the derivation of the revised fuel retention percentages.

An alternate tariff sheet has also been tendered for filing which reflects a change in the method used to derive the fuel retention factor applicable to Rate Schedules ISS, WSS, WSS-Open Access and WSS-Open Access-R. This approach reduces the fuel retention percentage applicable to Rate Schedules WSS, WSS-Open Access and WSS-Open Access-R by .72% and results in a fuel retention percentage of .64% for the forthcoming annual period under Rate Schedules ISS, WSS, WSS-Open Access and WSS-Open Access-R. Appendix B-1 attached to the filing contains workpapers supporting the derivation of the revised fuel retention factor contained therein.

Transco states that copies of the filing are being mailed to its affected

customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" and follow the instructions (call 202-208-2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site under the "e-Filing" link.

### Federal Energy Regulatory Commission

[Docket No. RP02-183-000]

#### Transcontinental Gas Pipe Line Corporation; Notice of Proposed Changes in FERC Gas Tariff

March 7, 2002.

Take notice that on March 1, 2002 Transcontinental Gas Pipe Line Corporation (Transco) tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1 which tariff sheets are enumerated in Appendix A attached to the filing. The tariff sheets are proposed to be effective April 1, 2002.

Transco states that the instant filing is submitted pursuant to Section 41 of the General Terms and Conditions of Transco's FERC Gas Tariff which provides that Transco will file to reflect net changes in the Transmission Electric Power (TEP) rates at least 30 days prior to each TEP Annual Period beginning April 1. Attached in Appendix B are workpapers supporting the derivation of

the revised TEP rates reflected on the tariff sheets included therein.

The TEP rates are designed to recover Transco's transmission electric power costs for its electric compressor stations (Stations 35, 100, 115, 120, 125, 145 and 205). The costs underlying the revised TEP rates consist of two components—the Estimated TEP Costs for the period April 1, 2002 through March 31, 2003 plus the balance in the TEP Deferred Account including accumulated interest as of January 31, 2002. Appendix C contains schedules detailing the Estimated TEP Costs for the period April 1, 2002 through March 31, 2003 and Appendix D contains workpapers supporting the calculation of the TEP Deferred Account.

Transco states that it is serving copies of the instant filing to its affected customers, interested State Commissions and other interested parties.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's rules and regulations. All such motions or protests must be filed in accordance with section 154.210 of the Commission's regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" and follow the instructions (call 202-208-2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. #### Vector Pipeline L.P.; Notice of Proposed Changes in FERC Gas Tariff

March 7, 2002.

Take notice that on February 28, 2002, Vector Pipeline L.P. (Vector), tendered for filing as part of its FERC Gas Tariff, Original Volume No. 1, the tariff sheets listed on Appendix A to the filing, to become effective April 1, 2002.

Vector states that the purpose of this filing is to make editorial-type changes to its existing tariff, revise and amend various provisions of its tariff to reflect operating experience, amend certain provisions in the tariff to reflect new Commission policy, and to add a new Website Access Agreement Vector states that it is proposing revised tariff sheets which reflect changes to make editorial type corrections, to revise and update sections of its tariff based on operating experience, to accommodate changes in Commission policy, and in order to reflect Vector's current corporate headquarters. In addition, Vector asserts that it is adding a Website Access Agreement form.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's rules and regulations. All such motions or protests must be filed in accordance with section 154.210 of the Commission's regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" and follow the instructions (call 202-208-2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. ### Federal Energy Regulatory Commission

[Docket No. RP02-179-000]

#### Williams Gas Pipelines Central, Inc.; Notice of Proposed Changes in FERC Gas Tariff

March 7, 2002.

Take notice that on March 1, 2002, Williams Gas Pipelines Central, Inc. (Williams) tendered for filing as part of its FERC Gas Tariff, Original Volume No. 1, the tariff sheets listed in Appendix A to the filing, to become effective April 1, 2002.

Williams states that the revised tariff sheets are being filed to allow Williams to transition from a monthly allocation pipeline to a daily allocation pipeline. These changes coincide with the way the natural gas industry typically conducts its business as well as the capabilities Williams now has in measuring gas flow and providing accurate real time measurement to its point operators and shippers. Various meetings have been held with Williams' customers and state commissions to discuss the provisions of this change to a daily allocation system. Although the tariff sheets are proposed to go into effect April 1, 2002, as part of the discussions, Williams agreed to accept the maximum suspension period for the proposed tariff changes. This will allow Williams' customers and point operators more time to become accustomed to the new processes and allow for implementation, after the maximum suspension period, effective as of September 1, 2002.

Williams states that copies of the revised tariff sheets are being mailed to Williams' jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the web at <http://www.ferc.gov>
