

farming. Additionally, land may only be considered for enrollment in AMA if NRCS determines that the land is privately-owned or publicly-owned where the land is under private control for the length of the cost-share agreement and is included in the participant's operating unit. The conservation practices installed on public land must contribute to an improvement in the identified natural resource concern as well as benefit private land. The applicant must provide CCC with written authorization from the government landowner to apply the conservation practices. Land that is Federally recognized Tribal, BIA allotted, or Indian trust land may be considered for enrollment in AMA.

Applicants must submit an application (CCC-1200 form) to CCC to be considered for participation in AMA. Any producer who has eligible land may obtain and submit an application for participation in AMA at a USDA service center. Producers who are members of a joint operation shall file a single application for the joint operation. A NRCS conservationist will work with the applicant to collect the information necessary to evaluate the application using the State-developed ranking criteria.

Conservation Plan Requirement

A conservation plan is required for the area to be included in the AMA cost-share agreement and becomes the basis for developing the cost-share agreement. The conservation plan must be acceptable to NRCS; be approved by the local conservation district; be signed by the participant, designated conservationist, and the conservation district; and clearly identify the conservation practices that will be cost-shared with AMA funds and the non-cost shared practices needed in the conservation plan.

Cost-Share Agreement Requirements

Participants will enter into a cost-share agreement agreeing to implement eligible conservation practices. An AMA cost-share agreement will incorporate by reference all portions of a unit applicable to AMA and be for a duration of 5 to 10 years.

Cost-share agreements will incorporate all provisions as required by law or statute, including requirements to not conduct any practices on the farm or ranch unit of concern that would tend to defeat the purposes of the cost-share agreement; refund to CCC any AMA payments received with interest, and forfeit any future payments under AMA, on the violation of a term or condition of the cost-share agreement;

refund all AMA payments received on the transfer of the right and interest of the producer in land subject to the cost-share agreement, unless the transferee of the right and interest agrees to assume all obligations of the cost-share agreement; and supply information as required by CCC to determine compliance with the cost-share agreement and requirements of AMA. The participant and NRCS must certify that a conservation practice is completed in accordance with the cost-share agreement before CCC will approve any cost-share payments.

With respect to land under an AMA cost-share agreement which is inherited during the cost-share agreement period, the \$50,000 per fiscal year limitation to any person will not apply to the extent that the payments from any cost-share agreements on the inherited land cause an heir, who was party to an AMA cost-share agreement on other lands prior to the inheritance, to exceed the annual limit.

With regard to cost-share agreements on tribal land, Indian trust land, or BIA allotted land, payments exceeding \$50,000 per fiscal year limitation may be made to the tribal venture if an official of the BIA or tribal official certifies in writing that no one person directly or indirectly will receive more than the fiscal year limitation.

Conservation Practice Operation and Maintenance

The cost-share agreement will provide for the operation and maintenance of the conservation practices applied under the cost-share agreement. The participant will operate and maintain the conservation practices for their intended purposes as agreed-to as part of the cost-share agreement, and form CCC-1245, Practice Approval and Payment Application.

Additional Requirements and Information

Additional requirements and information pertaining to the AMA program relating to cost-share agreements, administrative requirements, and other matters can be found on CCC form CCC-1200, Conservation Program Contract, and the appendix to form CCC-1200, both of which are available at local USDA service centers.

Civil Rights

NRCS and CCC have collected civil rights data on farmers/ranchers participating in conservation programs. Based on past participation, it is estimated that the funding being made available with this notice will not

negatively or disproportionately affect minorities, women, or persons with disabilities who are program beneficiaries or applicants for program benefits in NRCS or CCC assisted programs.

Environmental Evaluation

This assistance, administered by NRCS, will be funded at a level for 2002 as determined by the Secretary. Depending on the level of funding, and based on the participation in existing soil and water conservation programs, it is estimated that this assistance could result in approximately 230 cost-share agreements in the 15 States. On each farm or ranch, during the conservation planning process, the environmental effects of any proposed actions are evaluated on a case by case basis. That evaluation is used to determine whether further environmental analysis is required. Accordingly, neither an Environmental Assessment nor an Environmental Impact Statement has been prepared for this notice.

Signed in Washington, DC, on August 23, 2001.

Thomas A. Weber,

Deputy Chief for Programs, Natural Resources Conservation Service.
