Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for emergency clearance the following proposal for

collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Survey to Measure Effectiveness of Community-Oriented Policing for ESA Enforcement.

Form Number(s): None.

OMB Approval Number: 0648-0435.

Type of Request: Emergency submission.

Burden Hours: 316.

Number of Respondents: 787.

Average Hours Per Response: 20

minutes for a citizen survey; 45 minutes for a survey of Washington Department of Fish and Wildlife personnel; and 60 minutes for interviews of public officials, key stakeholders, and Washington Department of Fish and Wildlife managers.

Needs and Uses: Community-oriented policing (COP) promotes the use of various resources and policing-community partnerships for developing strategies to identify, analyze, and address community problems at their source. Recognizing the significant role non-traditional enforcement efforts will play in Endangered Species Act enforcement in the Northwest, a measurement tool has been developed to ensure that the performance outcomes of these non-traditional enforcement (COP) efforts are effectively measured. Through this instrument, COP efforts can be evaluated for success and elements essential for achieving successful outcomes in future programs can be identified and quantified. Anadromous species enforcement will be the focus of the survey, and the surveys/interviews will take place in the Walla Walla and Cherry Creek river basins.

Affected Public: Individuals or households, and State, Local, or Tribal Government.

Frequency: One-time.

Respondent's Obligation: Voluntary.

OMB Desk Officer: David Rostker,
(202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Madeleine Clayton, Departmental Paperwork Clearance Officer, (202) 482-3129, Department of Commerce, Room 6608, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at MClayton@doc.gov).

Written comments and recommendations for the proposed information collection should be sent by April 19, 2002 to David Rostker, OMB Desk Officer, Room 10202, New Executive Office Building, Washington, DC 20503.

Dated: March 7, 2002.

[Docket Number 010209034-2035-03]

RIN 0607-XX63

Urban Area Criteria for Census 2000

AGENCY: Bureau of the Census,
Department of Commerce.

ACTION: Notice of final program criteria.

SUMMARY: This Notice announces the Bureau of the Census' (Census Bureau's) criteria for defining urban and rural territory based on the results of Census 2000. These criteria replace and supersede the 1990 census criteria for defining urban and rural territory. In establishing these criteria, the Census Bureau took into account the comments received regarding the information published in the **Federal Register** on March 28, 2001 (66 FR 17018) and July 27, 2001 (66 FR 39143), as well as research and investigation conducted by Census Bureau staff. The new criteria appear later in this Notice.

EFFECTIVE DATE: This Notice is effective immediately.

FOR FURTHER INFORMATION CONTACT:

Robert Marx, Chief, Geography Division, U.S. Census Bureau, 4700 Silver Hill Road-Stop 7400; Washington, DC 20233-7400, telephone (301) 457-2131, or e-mail at: ua@geo.census.gov.

SUPPLEMENTARY INFORMATION: The Census Bureau identifies and tabulates data for the urban and rural populations and their associated areas solely for the presentation and comparison of census statistical data. It does not take into account or attempt to anticipate any nonstatistical uses that may be made of these areas or their associated data, nor does it attempt to meet the requirements of such nonstatistical program uses. Nonetheless, the Census Bureau recognizes that some Federal and state agencies are required by law to use Census Bureau-defined urban and rural classifications for allocating program funds, setting program standards, and implementing aspects of their programs. The agencies that make such nonstatistical uses of the areas and data should be aware that the changes to the urban and rural criteria for Census 2000 might affect the implementation of their programs.
