

Stamp Nutrition Connection to improve access to Food Stamp Program nutrition resources. Educators nationwide can use this site to identify curricula, lesson plans, research, training tools and participant materials. Developed and maintained at the National Agricultural Library's FNIC, this resource system helps educators find the tools and information they need to provide quality nutrition education for low-income audiences.

The Sharing Form will be available for completion online at the Food Stamp Nutrition Connection web site.

Individuals may also print the form and return it via fax or mail. The form consists of four parts. These various sections include: Part 1 consisting of three questions about the responder; Part 2 with nine questions about the resource; Part 3 with five questions about resource development; and Part 4 with six questions about ordering/obtaining the resource. Responders are asked to complete only relevant sections of the form. Instructions about which sections to complete, based on one's relationship to the resource, are provided in Part 1. For instance, those that use resource but are neither its developer nor distributor would only complete Parts 1 and 2.

This form will enable FNIC to inform nutrition educators of existing nutrition education and training materials targeting low-income Americans. This identification of existing materials will help educators spend their monies wisely in the development of needed educational resources.
