DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP01-439-000]

Columbia Gas Transmission Corporation; Notice of Availability of the Environmental Assessment for the Proposed Delaware Valley Energy Expansion Project

March 14, 2002.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Columbia Gas Transmission Corporation (Columbia) in the above referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the environmental effects of the construction and operation of the proposed facilities in Chester and Delaware Counties, Pennsylvania and Gloucester, County, New Jersey. These facilities would consist of the abandonment of 8.84 miles of 10-inch-diameter pipeline and 0.30 mile of 14-inch-diameter pipeline and replacement with 24-inch-diameter pipeline in Chester County, Pennsylvania. Columbia would construct 5.10 miles of 20-inch-diameter loop in Delaware County, and 9.62 miles of 20-inch-diameter pipeline and a meter station in Gloucester County, New Jersey. Columbia would also install a 6,000 horsepower compressor at both its existing Eagle and Downingtown Compressor Stations in Chester County, Pennsylvania.

The facilities would supply 165,000 dekatherms per day of gas to the Mantua Creek Power Plant presently under construction in Gloucester County, New Jersey.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at:

Federal Energy Regulatory Commission, Public Reference and Files Maintenance Branch 888 First Street, NE., Room 2A, Washington, DC 20426, (202) 208-1371.

Copies of the EA have been mailed to Federal, state and local agencies, public interest groups, interested individuals, newspapers, and parties to this proceeding.

Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments before the date specified below. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

1. Send two copies of your comments to: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First St., N.E., Room 1A, Washington, DC 20426;

2. Label one copy of the comments for the attention of the Gas 1, PJ-11.1;

3. Reference Docket No. CP01-439-000; and

4. Mail your comments so that they will be received in Washington, DC on or before April 12, 2002.

You do not need intervenor status to have your comments considered.

Additional information about the proposed project is available from the Commission's Office of External Affairs
