

of U.S. imports of all live animals from all countries in 1999.²

Entities potentially affected by this proposed rule include U.S. import brokers, agents, and others involved in the sale of animals or animal products from Greece that would no longer be prohibited, or that could be imported under less restrictive conditions, if Greece is declared free of FMD. The number and size of entities that might be directly involved in the importation and sale of such animals or animal products from Greece is unknown, but it is likely that these entities would be small, based on the U.S. Small Business Administration's (SBA) size standards.³ Given the disease-based restrictions discussed previously that would remain in place and the minimal level of U.S. imports of animals and animal products that would be eligible for importation from Greece, we expect that declaring Greece free of FMD would have only a negligible effect on U.S. entities, large or small.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action would not have a significant economic impact on a substantial number of small entities.

Executive Order 12988

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. If this proposed rule is adopted: (1) All State and local laws and regulations that are inconsistent with this rule will be preempted; (2) no retroactive effect will be given to this rule; and (3) administrative proceedings will not be required before parties may file suit in court challenging this rule.

Paperwork Reduction Act

This proposed rule contains no information collection or recordkeeping requirements under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Small Business Size Regulations; 8(a) Business Development/Small Disadvantaged Business Status Determinations; Rules of Procedure Governing Cases Before the Office of Hearings and Appeals

AGENCY: Small Business Administration.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects the Regulatory Information Number (RIN) to the proposed rule published in the **Federal Register** on March 12, 2002. The rule proposes to amend its regulations governing proceedings before the Office of Hearings and Appeals and to make conforming changes to several sections of the regulations governing the Small Business Size Determination program and the 8(a) Business Development (8(a) BD) program. This document corrects the RIN.

Airworthiness Directives; Bombardier Model DHC-8-100, -200, and -300 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the adoption of a new airworthiness directive (AD) that is applicable to certain Bombardier Model DHC-8-100, -200, and "300 series airplanes. This proposal would require revision of the applicable maintenance program manual, repetitive inspections for corrosion or cracking of the hook roller shafts of the flap carriage, and eventual replacement of the hook roller shafts with new or serviceable hook roller shafts. This replacement would extend the interval for the repetitive inspections. This action is necessary to prevent cracking of the hook roller shafts of the flap carriage and consequent reduced structural integrity of the flap, which could result in jamming of the flap. This action is intended to address the identified unsafe condition.
