BILLING CODE 4910-13-M

DEPARTMENT OF THE INTERIOR

National Indian Gaming Commission

25 CFR Part 502

RIN 3141-AA10

Definitions: Electronic or Electromechanical Facsimile; Games Similar to Bingo; Electronic, Computer or Other Technologic Aid to Class II Games

AGENCY: National Indian Gaming Commission, Interior.

ACTION: Proposed Rule for Final Comment.

SUMMARY: The National Indian Gaming Commission (Commission) proposes to clarify the regulatory definitions of three key terms in the Indian Gaming Regulatory Act, "electronic and electromechanical facsimile", "games similar to bingo" and "electronic, computer or other technologic aid to Class II gaming". The Commission believes that these amendments may simplify the classification of games.

DATES: Comments may be submitted on or before April 22, 2002.

FOR FURTHER INFORMATION CONTACT: Penny Coleman, at 202/632-7003 or, by fax, at 202/632-7066 (these are not toll-free numbers).

SUPPLEMENTARY INFORMATION: The Indian Gaming Regulatory Act (IGRA) 25 U.S.C. 2701-2721, enacted on October 17, 1988, established the Commission. Under the Act, the Commission is charged with regulating gaming by Indian tribes. On April 9, 1992, the Commission issued a final rule defining several key terms that were not fully defined in the statute. In light of the experience that it has developed in the past ten years in working with these definitions, the Commission believes that it may be time to reevaluate some of these definitions. Accordingly, on June 22, 2001, the Commission published a Proposed Rule seeking public comment on the proposed removal of the existing definition of "electronic or electromechanical facsimile" from the Commission's regulations and using instead the plain language interpretation that seems to have been preferred by the courts.

The Commission received numerous comments to this proposed rule, a majority of which indicated support for the proposal. However, even many of the supportive comments expressed the view that removing the current definition was merely a first step in addressing the questions at issue. Several comments indicated that the Commission should remove the definition and replace it with another definition providing additional substantive guidance.

The Commission addresses these comments by proposing a new definition of "electronic or electromechanical facsimile." In light of the comments, the Commission also proposes changes to two related definitions for which it seeks additional comment.
