SUPPLEMENTARY INFORMATION:

Background and Purpose

NBSAC is an advisory committee created under 46 U.S.C. 13110(a). It advises the Coast Guard on substantive matters of boating safety. Its 21 members come from 3 segments of the boating community: the boating industry; State officials on boating safety; and representatives of national recreational boating organizations and the general public. NBSAC meets twice a year, in the spring and fall. The meetings are open to the public. Under 46 U.S.C. 4302 (c)(4), the Coast Guard must consult NBSAC in the formulation of boating safety regulations.

Past Comprehensive Reviews

In 1981, 1986, 1992, and 1997, we conducted comprehensive reviews of our boating safety regulations in conjunction with a single NBSAC meeting. We asked NBSAC to determine whether the regulations were still necessary, beneficial, cost-effective, and consistent with current technology. These periodic reviews led NBSAC to make numerous recommendations to improve and update specific provisions in the regulations.

Current Comprehensive Review

We are conducting this review in three stages at sequential NBSAC meetings. We published the first notice announcing in the **Federal Register** on August 30, 2001 [66 FR 45791], stating that NBSAC would review regulations of the first stage in April 2002. We will publish notices in the future, requesting comments for the remaining stage, announcing the specific date of the meeting. Each stage will evaluate current boating safety regulations, but

will not include any rules under development.

The first review stage includes administrative requirements for manufacturers and importers of recreational vessels (33 CFR part 179 and part 181, subparts B and C) and fire and explosion prevention requirements for manufacturers and importers of recreational vessels (33 CFR part 183, subparts I, J, and K). NBSAC will review these regulations and comments at its April 2002 meeting.

The second review stage includes requirements for manufacturers and importers of recreational vessels to prevent drownings (33 CFR part 183, subparts B, C, D, F, G, H, and L). NBSAC will review these regulations and comments at its October 2002 meeting.

The third review stage includes requirements for operators (33 CFR parts 95, 100, 173, 174, 175, 177 and 46 CFR part 25, subparts 25.30, 25.35 and 25.40, and part 58, subparts 58.03 and 58.10). NBSAC will review these regulations and comments at its April 2003 meeting.

You may find copies of the boating safety regulations at any public library that carries the United States Code of Federal Regulations. You may buy them from the Superintendent, Government Printing Office, telephone: 202-512-2250; facsimile: 202-512-1800. You may also access them on the Internet at URL address <http://www.gpo.gov/nara/cfr>.

Request for Comments

We encourage interested persons from all sectors of the boating community to participate in this second regulatory review stage by submitting comments and related material regarding any changes to the current boating safety regulations, including elimination or revocation of any requirements. If you submit comments, please include your name and address, identify the docket number for this notice (USCG-2002-11893) and give the reasons for each comment. You may submit your comments and material by mail, hand delivery, fax, or electronic means to the Docket Management Facility at the address under **ADDRESSES**; but please submit your comments and material by only one means. If you submit them by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit them by mail and would like to know they reached the Facility, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period.
