[Project No. 2145-042, Project No. 943-075]

Public Utility District No.1 of Chelan County, Washington; Notice of Availability of Environmental Assessment

March 21, 2002.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 F.R. 47910), the Office of Energy

Projects has reviewed Public Utility District No.1 of Chelan County's applications for license amendment to install small turbines in fishway attraction water conduits at the Rocky Reach and Rock Island Projects located on the Columbia River in Chelan and Douglas Counties, Washington, and has prepared an Environmental Assessment (EA). The project occupies lands managed by the Bureau of Land Management and the U.S. Forest Service.

The EA contains the staff's analysis of the potential environmental impacts of the proposed amendments and concludes that approval of the proposed amendments with staff's modifications would not constitute a major federal action that would significantly affect the quality of the human environment.

The EA is attached to a Commission order issued on March 14, 2002 for the above applications. Copies of the EA are available for review at the Commission's Public Reference Room, located at 888 First Street, NE., Washington, DC 20426, or by calling (202) 208-1371. The EA may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call (202) 208-2222 for assistance).

For further information, contact Vince Yearick at (202) 219-3073.

Please include the docket number (DI02-2-000) on any comments or motions filed.

k. *Description of Project*: The Indian River Project, a run-of-river development, owned and operated by Sheldon Jackson College, consists of: (1) a reservoir with a surface area of approximately 1 acre; (2) a 10-foot-high, 110-foot-long, low-head rock-filled dam; (3) a reinforced concrete intake structure; (4) a 1,000-foot-long, 42-inch-diameter steel diversion flume; (5) a screened diversion weir in an unlined canal which diverts water into a 900-foot-long, 42-inch-diameter buried wood-stave pipeline; (6) a powerhouse containing a 75-kilowatt generator; (7) a concrete tailrace discharging through two fish broodstock pens into Crescent Bay; and (8) appurtenant facilities.

When a Petition for Declaratory Order is filed with the Federal Energy Regulatory Commission, the Federal Power Act requires the Commission to investigate and determine if the interests of interstate or foreign commerce would be affected by the project. The Commission also determines whether or not the project: (1) would be located on a navigable waterway; (2) would occupy or affect public lands or reservations of the United States; (3) would utilize surplus water or water power from a government dam; or (4) if applicable, has involved or would involve any construction subsequent to 1935 that may have increased or would increase the project's head or generating capacity, or have otherwise significantly modified the project's pre-1935 design or operation.

l. *Locations of the Application*: A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room,
