The title and number of the Federal Assistance Program, as found in the Catalog of Federal Domestic Assistance, to which this rule applies are Dairy Indemnity Payments, Number 10.053.

Regulatory Flexibility Act

It has been determined that the Regulatory Flexibility Act is not applicable to this final rule because the Farm Service Agency is not required by 5 U.S.C. 533 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of these determinations.

Environmental Evaluation

It has been determined by an environmental evaluation that this action will have no significant impact on the quality of the human environment. Therefore, neither an environmental assessment nor an Environmental Impact Statement is needed.

Executive Order 12372

This program is not subject to the provisions of Executive Order 12372, which require intergovernmental consultation with State and local officials. See the Notice related to 7 CFR part 3015, subpart V, published at 48 FR 29115 (June 24, 1983).

Unfunded Mandates Reform Act of 1995

This rule contains no Federal mandates under the regulatory provision of Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) for State, local, and tribal governments or the private sector. Thus, this rule is not subject to the requirements of sections 202 and 205 of UMRA.

Existing information collections were approved by OMB and assigned OMB Control Number 0560-0116.

Background

The DIPP was originally authorized by section 331 of the Economic Opportunity Act of 1964. The statutory authority for the program was extended several times. Funds were appropriated for DIPP by the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2001 ("the 2001 Act"), Pub. L. 106-387, which authorized the program until the funds were expended. Most recently, funds were appropriated for this program by the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2002 ("the 2002 Act"), Pub. L. 107-76, which authorizes the program to be carried out until the funds appropriated under the 2002 Act are expended. The funds appropriated under the 2001 Act that have not been expended will be combined with the funds appropriated under the 2002 Act.

The objective of DIPP is to indemnify dairy farmers and manufacturers of dairy products who, through no fault of their own, suffer income losses with respect to milk or milk products removed from commercial markets because such milk or milk products contain certain harmful residues. In addition, dairy farmers can also be indemnified for income losses with respect to milk required to be removed from commercial markets due to residues of chemicals or toxic substances or contamination by nuclear radiation or fallout.

The regulations governing the program are set forth at 7 CFR part 760.1-760.34. This final rule makes no changes in the provisions of the regulations. Since the only purpose of this final rule is to revise the authority citation pursuant to the 2002 Act, it has been determined that no further public rulemaking is required. Therefore, this final rule shall become effective upon the date of publication in the **Federal Register**.

Airworthiness Directives; Bombardier Model CL–600–2C10 (Regional Jet Series 700 and 701) Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; request for comments.

SUMMARY: This document publishes in the *Federal Register* an amendment adopting airworthiness directive (AD) 2002–06–51 that was sent previously to all known U.S. owners and operators of certain Bombardier Model CL–600–2C10 (Regional Jet Series 700 and 701) series airplanes by individual notices. This AD requires revising the Airplane Flight Manual to provide procedures for addressing uncommanded transfer of fuel from wing fuel tanks to center fuel tank. This action also requires revising the Minimum Equipment List (MEL); limiting operation of the airplane to flight within 60 minutes of a suitable alternative airport; and ensuring that normal mission fuel requirements are increased by 3,000 pounds. This action was prompted by reports of uncommanded fuel transfer between the

wing fuel tanks and the center fuel tank. The actions specified by this AD are intended to ensure that the flight crew has the procedures necessary to address such uncommanded fuel transfer, which could cause the center tank to overfill, and fuel to leak from the center tank vent system or to become inaccessible, and result in engine fuel starvation.

DATES: Effective April 2, 2002, to all persons except those persons to whom it was made immediately effective by emergency AD 2002–06–51, issued on March 12, 2002, which contained the requirements of this amendment.

Comments for inclusion in the Rules Docket must be received on or before April 29, 2002.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM–114, Attention: Rules Docket No. 2002–NM–70–AD, 1601 Lind Avenue, SW., Renton, Washington 98055–4056. Information pertaining to this amendment may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the FAA, New York Aircraft Certification Office, 10 Fifth Street, Third Floor, Valley Stream, New York.

SUPPLEMENTARY INFORMATION: On March 12, 2002, the FAA issued emergency AD 2002–06–51, which is applicable to certain Bombardier Model CL–600–2C10 (Regional Jet Series 700 and 701) series airplanes.

That action was prompted by reports of uncommanded fuel transfer between the wing fuel tanks and the center fuel tank. Such uncommanded fuel transfer, if not corrected, could cause the center tank to overfill, and fuel to leak from the center tank vent system or to become
