C. What Should I Consider as I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Provide specific examples to illustrate your concerns.
6. Offer alternative ways to improve the notice.
7. Make sure to submit your comments by the deadline in this notice.
8. To ensure proper receipt by EPA, be sure to identify the docket control number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

D. Issues for Comment

Following are several key issues that you may wish to comment on. While the Agency has identified these three issues, it does not intend to limit the issues upon which you may provide comments should you believe the Agency needs to consider other issues.

1. Does the draft PR Notice provide a reasonable approach to qualifying or disclaiming product names that might otherwise appear to conflict with EPA's regulations concerning false or misleading claims?
2. Could some claims in product names be so egregious that they could not be adequately qualified or disclaimed (e.g., "Safe As Water Insecticide")?
3. Does the Agency's proposed approach adequately balance commercial speech considerations and protection of the public against false or misleading claims in connection with the sale or distribution of pesticide products?
