I. Introduction.

On October 5, 1999, Congress enacted section 3147 of the National Defense

Authorization Act for Fiscal Year 2000 (Pub.L. 106-65, October 5, 1999) that adds a new section 234B to the Atomic Energy Act of 1954, 42 U.S.C. 2282b. Subsection a. of section 234B provides that any person who: (1) Has entered into a contract or agreement with DOE, or a subcontract or subagreement thereto, and (2) violates (or whose employee violates) any applicable rule, regulation, or order prescribed or otherwise issued by the Secretary of Energy pursuant to the Atomic Energy Act relating to the safeguarding or security of Restricted Data or other classified or "sensitive information," shall be subject to a civil penalty not to exceed \$100,000 for each such violation. Subsection b. of section 234B requires that each DOE contract contain provisions which provide an appropriate reduction in the fees or amounts paid to the contractor under the contract in the event of a violation by the contractor or contractor employee of any rule, regulation or order relating to the safeguarding or security of Restricted Data or other classified or sensitive information.

On February 1, 2001, DOE published a Notice of Proposed Rulemaking (66 FR 8560) to implement subsection b. of section 234B, concerning reductions in fees or amounts paid to contractors in the event of a security violation. DOE received numerous comments in response to that notice of proposed rulemaking. Some of the commenters assumed that the procurement rulemaking was intended to address all of the provisions in section 234B. Two separate rulemakings, one establishing procedural rules similar to the procedural rules to achieve compliance with DOE nuclear safety requirements found at 10 CFR Part 820 and the other establishing a procurement clause like Conditional payment of fee, profit or incentives, 48 CFR (DEAR) 970.5204-86, were always contemplated and deemed necessary by DOE. The February 1, 2001, notice of proposed rulemaking was only intended to address subsection b. of 234B.

DOE in this rulemaking proposes to establish a new Part 824 to Chapter III of Title 10 of the Code of Federal Regulations (CFR) to implement all subsections of section 234B of the Atomic Energy Act, except subsection b., with respect to contractors of DOE, including those of the National Nuclear Security Administration (NNSA). To a large extent these proposed regulations are self-explanatory. There are, however, several features that require explanation.

In this rulemaking action, DOE proposes applying civil penalties only

to violations of requirements for the protection of classified information. Classified information is "Restricted Data" or "Formerly Restricted Data" protected against unauthorized disclosure pursuant to the Atomic Energy Act of 1954, and "National Security Information" protected against unauthorized disclosure pursuant to Executive Order 12958 (April 17, 1995) or any predecessor or successor order. Although section 234B refers to "sensitive information," DOE does not employ this term in the proposal because: (1) Neither the statute nor its legislative history defines the term; (2) there is no commonly accepted definition of "sensitive information" within DOE or the Executive Branch; (3) the legislative history indicates that the Congress was concerned with unauthorized disclosures of classified information; and (4) the only category of unclassified information that might merit inclusion in a regulation imposing civil penalties is Unclassified Controlled Nuclear Information (UCNI), a category of unclassified government information concerning atomic energy defense programs established by section 148 of the Atomic Energy Act of 1954 (42 U.S.C. 2168). Section 148 provides that any person who violates a regulation or order issued under that section shall be subject to a civil penalty not to exceed \$100,000. DOE implemented the provisions of section 148 in regulations contained in 10 CFR Part 1017. Since Part 1017 already imposes a civil monetary penalty for unauthorized dissemination of UCNI comparable to the penalty specified in section 3147, we determined that it is unnecessary to include UCNI in regulations implementing section 3147.

DOE proposes to assess civil penalties only for violations described in proposed section 824.4. These are violations of: (1) Specified DOE regulations related to classified information security presently in the CFR, (2) any other DOE rule, regulation or order relating to the safeguarding or security of Restricted Data or other classified information that specifically indicates that violation of its provisions may result in a civil penalty pursuant to section 234B, and (3) compliance orders issued pursuant to proposed part 824.

With respect to compliance orders, section 161 of the Atomic Energy Act grants DOE broad authority to prescribe regulations and orders deemed necessary to protect the common defense and security, 42 U.S.C. 2201. Pursuant to this authority, the Secretary may issue a compliance order requiring a person to take corrective action if a person by act or omission jeopardizes

the security of classified information even if that person has not violated a regulation listed in the proposed part. Violation of the compliance order may result in the assessment of a civil penalty. Compliance orders would not be subject to the DOE Acquisition Regulations or require any authorization by a contracting officer. While the recipient of a compliance order may request the Secretary to rescind or modify the compliance order, the request does not stay the effectiveness of the order unless the Secretary issues a new order to that effect. The compliance order provisions of today's proposed regulations are modeled after a similar mechanism in 10 CFR Part 820, the regulations implementing procedures for section 234A of the Atomic Energy Act of 1954 with respect to nuclear safety.

It is important to note that this proposed rule would only apply to contractors and others who have entered into agreements or subagreements with DOE. Subsection a. of section 234B clearly provides that the contractor or other entity that has entered into an agreement or subagreements thereto with DOE is liable for violations of its employees. Consequently, no civil penalties would be assessed against individual employees under Part 824 as proposed.

Subsection d. of section 234B sets limitations on civil penalties assessed against certain non-profit entities specified at subsection d. of section 234A. As to each of these seven named entities working at named sites, the statute provides that no civil penalty may be assessed until the entity enters into a new contract with DOE or an extension of a current contract with DOE. The statute also limits the total amount of civil penalties assessed against these entities in any fiscal year to the total amount of fees paid to that entity in that fiscal year. It should be noted that the limitations applicable to these seven entities at the named sites also apply to their subcontractors and suppliers regardless of whether they are for-profit or non-profit.

DOE has determined as a matter of discretion under section 234B.c. and section 234A.b.(2) to extend the cap on civil penalties assessed on non-profits provided in section 234B.d.(2) to any non-profit educational institution under the United States Internal Revenue Code. DOE exercised similar discretionary authority for educational non-profit institutions in Part 820 with respect to automatic remission from civil penalties for nuclear safety violations. DOE continues to believe these other non-profit entities should

receive uniform treatment concerning civil penalties. However, the for-profit subcontractors and suppliers of these other non-profits would not have their civil penalties limited to fee as in the case of the for-profit subcontractors and for-profit suppliers of the seven named entities at sites named in section 234A. Also, as a matter of discretion, these other non-profit entities would not be subject to civil penalties until they enter into a new contract with DOE or an extension of a current contract.

The fee that represents the cap for civil penalties of non-profits will be determined pursuant to the provisions of the specific contracts covered by the limitation on non-profits.

II. Procedural Requirements

A. Review Under Executive Order 12866

Today's regulatory action has been determined not to be a "significant regulatory action" under Executive Order 12866, "Regulatory Planning and Review," (58 FR 51735, October 4, 1993). Accordingly, today's action is not subject to review under the Executive Order by the Office of Information and Regulatory Affairs of the Office of Management and Budget.

B. Review Under the Regulatory Flexibility Act

These proposed rules were reviewed under the Regulatory Flexibility Act of 1980, Pub. L. 96-354, which requires preparation of an initial regulatory flexibility analysis for any rule that is likely to have significant economic impact on a substantial number of small entities. This rulemaking will apply principally to large entities who are management and operating contractors with cost reimbursement contracts. Therefore, DOE certifies that this regulation will not have a significant economic impact on a substantial number of small entities and, therefore, no regulatory flexibility analysis has been prepared.

C. Review Under the Paperwork Reduction Act

The proposed information and reporting requirements are not substantially different from existing reporting requirements contained in DOE contracts with the Department's prime contractors covered by these rules. DOE will submit any new information collection requests concerning these proposed rules to the Office of Management and Budget for approval in accordance with the Paperwork Reduction Act of 1980, 44 U.S.C. 3501.1 *et seq.*, and the

procedures implementing that Act, 5 CFR Part 1320.

D. Review Under the National Environmental Policy Act

DOE has reviewed the promulgation of this proposed rule with respect to its responsibilities under the National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 *et seq.*) and the Council on Environmental Quality regulations for implementing NEPA (40 CFR Parts 1500-1508). The proposed rulemaking specifies procedures and standards for DOE enforcement actions under section 3147 of the Defense Authorization Act for Fiscal Year 2000. As noted in the CEQ regulations, major Federal actions "do not include bringing judicial or administrative civil or criminal enforcement actions" (40 CFR 1508.18(a)). Therefore, DOE has concluded that the proposed rulemaking is not a major Federal action with significant effects on the human environment within the meaning of NEPA and that no further review under NEPA is required.

E. Review Under Executive Order 12988

With respect to the promulgation of new regulations, section 3(a) of Executive Order 12988, "Civil Justice Reform," 61 FR 4729 (February 7, 1996) imposes on Executive agencies the general duty to: (1) Eliminate drafting errors and ambiguity; (2) write regulations to minimize litigation; and (3) provide a clear legal standard for affected conduct rather than a general standard and to promote simplification and burden reduction. With regard to the review required by section 3(a), section 3(b) of Executive Order 12988 specifically requires that Executive agencies make every reasonable effort to ensure that a regulation: (1) Clearly specifies its preemptive effect, if any; (2) clearly specifies any effect on existing Federal law or regulation; (3) provides a clear legal standard for affected conduct while promoting simplification and burden reduction; (4) specifies its retroactive effect, if any; (5) adequately defines key terms; and (6) addresses other important issues affecting clarity and general draftsmanship under any guidelines issued by the Attorney General. Section 3(c) of Executive Order 12988 requires Executive agencies to review regulations in light of the applicable standards in section 3(a) and 3(b) to determine whether they are met or if it is unreasonable to meet one or more of them. The DOE has completed the required reviews and has determined that, to the extent allowed by law, the proposed regulations meet

the relevant standards of Executive Order 12988.

F. Review Under Executive Order 13132

Executive Order 13132 (64 FR 43255, August 4, 1999) imposes certain requirements on agencies formulating and implementing policies or regulations that preempt State law or that have federalism implications. Agencies are required to examine the constitutional and statutory authority supporting any action that would limit the policymaking discretion of the States and carefully assess the necessity for such actions. DOE has examined today's proposed rule and has determined that it does not preempt State law and does not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. No further action is required by Executive Order 13132.

G. Review Under Treasury and General Government Appropriations Act, 1999

Section 654 of the Treasury and General Government Appropriations Act, 1999 (Pub. L. 105-277) requires Federal agencies to issue a Family Policymaking Assessment for any proposed rule that may affect family well-being. Today's proposal would not have any impact on the autonomy or integrity of the family as an institution. Accordingly, DOE has concluded that it is not necessary to prepare a family policymaking assessment.

H. Review Under Executive Order 13084

Under Executive Order 13084 (Consultation and Coordination with Indian Tribal Governments), DOE may not issue a discretionary rule that significantly or uniquely affects Indian tribal governments and imposes substantial direct compliance costs. This proposed rulemaking would not have such effects. Accordingly, Executive Order 13084 does not apply to this rulemaking.

III. Public Comment Procedures

A. Written Comments

Interested persons are invited to participate by submitting data, views, or arguments with respect to the proposed rule set forth in this notice. Seven copies of written comments should be submitted to the address indicated in the **ADDRESSES** section of this notice. All comments will be available for public inspection in the DOE Freedom of Information Reading Room, room 1E-190, 1000 Independence Avenue, SW., Washington, DC 20585, between the

hours of 9 a.m. and 4 p.m., Monday through Friday, except Federal holidays. Written comments received by the date indicated in the **DATES** section of this notice of proposed rulemaking will be assessed and considered prior to publication of the final rule. Any information that a commenter considers to be confidential must be so identified and submitted in writing, one copy only. DOE reserves the right to determine the appropriateness of confidential status for the information and to treat it in accordance with its determination. See 10 CFR Part 1004.11.

DOE is interested in comments concerning the potential costs and benefits of this regulation, either to the general public, the Department's contractors, or the Department itself.

B. Public Hearing.

Requests to speak at the hearings must be submitted to the address and by the date indicated in the **DATES** section of this notice of proposed rule making. Requests for oral presentations should contain a telephone number where the requester may be contacted prior to the hearing. Speakers are requested to submit seven copies of their statement to DOE at the hearings.

DOE reserves the right to select the persons to be heard at the hearings, to schedule their respective presentations, and to establish the procedures governing the conduct of the hearings. The length of each presentation is limited to fifteen minutes. The hearings will begin at 9:30 a.m. A DOE official will be designated to preside at each hearing. These will not be judicial-type hearings. Questions may be asked only by those conducting the hearing. Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer. A transcript of the hearing will be made available to the public. The entire record of each hearing, including the transcript, will be retained by DOE and made available for inspection in the DOE Freedom of Information Reading Room. Transcripts may be purchased from the hearing transcriber/reporter.

§ 824.2 Applicability.

(a) *General.* These regulations apply to any entity that is subject to DOE security requirements for the protection of classified information.

(b) *Limitations.* In the case of the following entities, DOE may not assess any civil penalty against the entity until it enters into a new contract with DOE or an extension of a current contract with DOE, and the total amount of civil penalties may not exceed the total amount of fees paid by the DOE to that entity in that fiscal year:

(1) Entities (including subcontractors and suppliers thereto) specified at subsection d. of section 234A of the Atomic Energy Act of 1954; and

(2) Any nonprofit educational institution under the United States Internal Revenue Code.

(7) *Secretary* means the Secretary of Energy.

(b) Words in the singular also include the plural and words in the masculine gender also include the feminine and vice versa, as the case may require.

§ 824.4 Civil penalties.

security of classified information that specifically indicates that violation of its provisions may result in a civil penalty pursuant to subsection a. of section 234B of the Act.

(b) If, without violating any regulation listed in paragraph (a) of this section, a person by an act or omission jeopardizes the security of classified information, the Secretary may issue a compliance order to that person requiring the person to take corrective action and notifying the person that violation of the compliance order is subject to a notice of violation and assessment of a civil penalty. If a person wishes to contest the compliance order, the person must file a notice of appeal with the Secretary within 15 days of receipt of the compliance order.

(c) The Deputy Secretary, based on a recommendation from the Director, may propose imposition of a civil penalty for violation of a requirement of a rule, regulation or order listed in paragraph (a) of this section or a compliance order issued under paragraph (b) of this section, not to exceed \$100,000 for each violation.

(d) If any violation is a continuing one, each day of such violation shall constitute a separate violation for the purpose of computing the applicable civil penalty.

§ 824.5 Notice of violation.

(a) In order to begin a proceeding to impose a civil penalty under this part, the Deputy Secretary, based upon a recommendation of the Director, shall notify the person by a written notice of violation sent by certified mail, return receipt requested, of—

(c) The Director, at the request of a person accused of a violation, may extend for a reasonable period the time for submitting a reply or a hearing request letter.

(d) After notifying a person of a violation under paragraph (a) of this section, the Deputy Secretary, based upon the recommendation of the Director, may enter into a settlement regarding the violation with or without conditions.

(e) If a person fails to submit a written request for a hearing within the specified time period, the person relinquishes the right to a hearing. If the person does not request a hearing, the notice of violation including proposed civil penalties shall constitute the final order of DOE.

§ 824.6 Investigations

The Director, at the request of the Deputy Secretary, may conduct investigations and inspections relating to the scope, nature and extent of compliance by a person with DOE security requirements specified in § 824.4 (a) and (b) and take such action as he deems necessary and appropriate to the conduct of the investigation or inspection, including issuing and serving subpoenas signed by the Deputy Secretary.

§ 824.7 Hearing.

Any person who receives a notification letter under § 824.5 may request a hearing to answer under oath or affirmation the allegations contained in the letter. The person shall mail or deliver any letter requesting a hearing to the Director within 30 calendar days of receipt of the notification letter. § 824.8 Hearing Counsel.

The Hearing Counsel—

(b) Consults with the person or the person's counsel prior to the hearing;

(c) Examines and cross-examines witnesses during the hearing; and

SUPPLEMENTARY INFORMATION:

I. Background

On November 21, 1997, the President signed the Modernization Act (Public Law 105-115) into law. Section 121(c)(1)(A) of the Modernization Act directs us to establish appropriate approval procedures and CGMP requirements for PET drugs. Section 121(c)(1)(B) states that, in adopting such requirements, we must take due account of any relevant differences between not-for-profit institutions that compound PET drugs for their patients and commercial manufacturers of such drugs. Section 121(c)(1)(B) also directs us to consult with patient advocacy groups, professional associations, manufacturers, and physicians and scientists who make or use PET drugs as we develop PET drug CGMP requirements and approval procedures.

We presented our initial tentative approach to PET drug CGMP requirements and responded to numerous questions and comments about that approach at a public meeting on February 19, 1999. In the **Federal Register** of September 22, 1999 (64 FR 51274), we published a notice of availability of preliminary draft regulations on PET drug CGMP. Those preliminary draft regulations were discussed at a public meeting on September 28, 1999.

After considering the comments on the preliminary draft regulations, FDA has decided to make several revisions to its approach to CGMP for PET drug products. In accordance with 21 CFR 10.40(f)(4) and 10.80(b)(2), we are making revised preliminary draft regulations available for comment. The preliminary draft proposed rule does not include sections on the economic impact of the proposed rule, federalism concerns, and Paperwork Reduction Act issues. We will include these sections when we publish a proposed rule, but we invite comments on these matters at this time.

Elsewhere in this issue of the **Federal Register**, we are announcing the availability of a companion draft guidance entitled "PET Drug Products—Current Good Manufacturing Practice (CGMP)." Both the preliminary draft proposed rule and the draft guidance
