Approval and Promulgation of Air Quality Implementation Plans; Wyoming; Withdrawal of Proposed Rule

AGENCY: Environmental Protection Agency (EPA).

ACTION: Withdrawal of proposed rule.

SUMMARY: Due to the State of Wyoming's withdrawal of the August 9, 2000, August 7, 2001 and August 13, 2001 submittals to the EPA that revise the Wyoming State Implementation Plan (SIP), EPA is withdrawing the proposed rule, published concurrently with a direct final rule, to partially approve and partially disapprove these revisions that restructure and modify the State's air quality rules. In the direct final rule, published on February 6, 2002 (67 FR 5485), we stated that if we received adverse comment by March 8, 2002, the rule would be withdrawn and would not take effect. EPA subsequently received a letter from the State of Wyoming (on March 8, 2002) withdrawing the three submittals that EPA is taking action on in our February 6, 2002 direct final rule. EPA also received adverse comments from the Wyoming Outdoor Council (on March 7, 2002). Since, in addition to receiving adverse comments, the State of Wyoming withdrew their submittals, the proposed rule and the direct final rule are withdrawn and will not take effect. In the ''Final Rules'' section of today's **Federal Register** publication, we are withdrawing the direct final rule published on February 6, 2002 (67 FR 5552).

EFFECTIVE DATE: The proposed rule is withdrawn as of April 1, 2002.

Revisions to the California State Implementation Plan, San Joaquin Valley Unified Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing both a conditional approval and a limited approval and limited disapproval of revisions to the San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD or District) portion of the California State Implementation Plan (SIP). These revisions concern fugitive dust and particulate matter less than 10 microns in diameter (PM–10). We are proposing action on local rules that regulate these emissions under the Clean Air Act, as amended in 1990 (CAA or the Act). The proposed conditional approval is with respect to enforceability and reasonably available control measures (RACM), and the proposed limited approval and limited disapproval is with respect to best available control measures (BACM). We are taking comments on this proposal and plan to follow with a final action.

DATES: Any comments must arrive by May 31, 2002.

ADDRESSES: Mail comments to Andy Steckel, Rulemaking Office Chief (AIR–4), U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105.
