

developed (current facility expansion). The legal location description for all actions being considered is T. 40 S., R. 1 E., in sections 15, 16, 17, 20, 21, and 22, W.M., Jackson County, Oregon.

Comments received on the draft EIS will be considered in the preparation of the final EIS. The draft EIS is now expected to be filed with the Environmental Protection Agency (EPA) and to be available for public review in July 2002. The comment period on the draft EIS will be 45-days from the date EPA publishes the Notice of Availability in the **Federal Register**. At the end of the comment period on the draft EIS, comments will be analyzed and considered by the Forest Service in preparing the final EIS. The final EIS is scheduled to be completed by fall 2002.

Comments received in response to this notice, including names and addresses of those who comment, will be considered part of the public record on this proposed action and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decision under 36 CFR Parts 215 or 217. Additionally, pursuant to 7 CFR 1.27(d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality. Persons requesting such confidentiality should be aware that, under the FOIA, confidentiality may be granted in only very limited circumstances, such as to protect trade secrets. The Forest Service will inform the requester of the agency's decision regarding the request for confidentiality, and where the request is denied, the agency will return the submission and notify the requester that the comments may be resubmitted with or without name and address within a specified number of days.

The Forest Service believes it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft EISs must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 533 (1978). Also, environmental objections that could be raised at the draft EIS stage, but that are not raised until completion of the final EIS, may be waived or dismissed by the courts. *City Angoon v. Hodel*, 803 F. 2d 1016, 1022 (9th Cir, 1986) and

*Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is important that those interested in this proposed action participate by the close of the 45-day comment period so substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft EIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft EIS. Comments may also address the adequacy of the draft EIS or the merits of the alternatives formulated and discussed in the statement. (Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points).

The Forest Service, Rogue River National Forest, is the Lead Agency for this EIS. The Forest Supervisors of the Rogue River and Klamath National Forests are the Responsible Officials. The Responsible Officials will consider the comments, responses to the comments, environmental consequences discussed in the final EIS, and applicable laws, regulations, and policies. The Responsible Officials will document the Mt. Ashland Ski Area Expansion decision and the rationale for the decision in a Record of Decision (ROD). The Forest Service decision will be subject to Forest Service Appeal Regulations (36 CFR Part 215).

#### Little Wood River Irrigation District, Gravity Pressurized Irrigation Delivery System, Blaine County, ID

**AGENCY:** Natural Resources Conservation Service, USDA.

**ACTION:** Notice of intent to prepare an environmental impact statement.

**SUMMARY:** Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR part 1500); and the Natural Resources Conservation Service Guidelines (7 CFR part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is being prepared for a federally assisted proposed project by the Little Wood River Irrigation District, Blaine County, Idaho.

**FOR FURTHER INFORMATION CONTACT:**

Richard Sims, State Conservationist, Natural Resources Conservation Service, 9173 W. Barnes Dr., Suite C, Boise, Idaho, 83709-1574, telephone: 208-378-5700.

**SUPPLEMENTARY INFORMATION:**

The preliminary information of this federally assisted proposed action indicates that the project may cause significant local, regional, or national impacts on the environment. As a result of these findings, Richard Sims, State Conservationist, has determined that the preparation and review of an environmental impact statement is needed for this project.

The Little Wood River Irrigation District objectives include water and energy savings, public safety, and energy generation. The proposed project would convert the open canal irrigation delivery system to a closed, gravity pressurized delivery system and includes a hydroelectric generating facility. Alternatives under consideration to reach these objectives include: No Action, Concrete Lined Canals, Gravity Pressurized Irrigation Delivery System, and Gravity Pressurized Irrigation Delivery System with Hydroelectric Generation.

A draft environmental impact statement will be prepared and circulated for review by agencies and the public. The Natural Resources Conservation Service invites participation and consultation of agencies and individuals that have special expertise, legal jurisdiction, or interest in the preparation of the draft environmental impact statement.

NRCS will hold public scoping meetings in Carey, Idaho, to determine the scope of the evaluation of the proposed action. Further information on the proposed action or future public meetings may be obtained from Richard Sims, State Conservationist, at the above address or telephone 208-378-5700.
