ACTION: Notice of meeting.

SUMMARY: The Office of the Under Secretary for Food Safety, U.S. Department of Agriculture (USDA), is co-sponsoring, along with the Food and Drug Administration (FDA) and the University of Puerto Rico (UPR), a Conference on Animal and Egg Production Food Safety. The conference is to be held in San Juan, Puerto Rico on July 9-11, 2002. The conference grows out of a Memorandum of Understanding (MOU) 225-00-8002 among FDA, FSIS, and UPR, which was signed on December 7, 2000. The MOU provides a framework for all parties to collaborate on mutually agreed upon scientific and regulatory activities that pertain to products that are within the jurisdiction of FDA and FSIS. These activities are intended to support and encourage understanding of science-based regulatory systems in the countries of the Americas and to lead to enhanced cooperation among regulatory authorities. This conference is a part of the Action Plan between FSIS and FDA in support of the MOU. It is intended to serve as a model for future conferences. This conference should help to establish Puerto Rico as a Food Safety Center of Excellence for the Caribbean, and possibly all of Latin America, in animal and egg production food safety.

DATES: The meeting will be held July 9-11, 2002. On July 9, the registration will begin at 1 p.m. until 5 p.m. On July 10-11, 2002, the meeting will be held 9 a.m. until 6 p.m.

SUPPLEMENTARY INFORMATION:**Background**

The Puerto Rico Conference will review the status of food safety at the food animal production level, provide an update on industry quality assurance activities, and touch on research in support of animal production food safety practices. The conference will provide an opportunity for discussion of (1) what additional educational efforts are needed to improve food safety at the animal production level and (2) the gaps in research to address food safety at the animal production level. In developing the agenda, the Federal cooperators have been joined by industry and academia. These groups will also play important roles in the conference.

Participation in the conference will be limited to available seating (approximately 250 people). The target audience for the conference includes representatives from food safety regulatory agencies, animal producers, animal producer organizations, veterinarians, animal scientists, agricultural educators, extension agents, researchers, consumers and others with interest in food safety.
