

## DEPARTMENT OF EDUCATION

[CFDA No. 84.215X]

**Teaching American History Grant Program; Notice Inviting Grant Applications for New Awards for Fiscal Year (FY) 2002**

**Note to Applicants:** This notice is a complete application package. Together with the statute authorizing these grants and the Education Department General Administrative Regulations (EDGAR), this notice contains all of the information, application forms, and instructions needed to apply for a Teaching American History grant under this competition. These grants are authorized by Title II, Part C, subpart 4, of the Elementary and Secondary Education Act of 1965, as amended (20 U.S.C. 2351 *et seq.*).

**Purpose of Program:** Teaching American History grants support programs to raise student achievement by improving teachers' knowledge, understanding, and appreciation of traditional American history. Grant awards assist local educational agencies (LEAs), in partnership with entities that have extensive content expertise, to develop, document, evaluate, and disseminate innovative, cohesive models of professional development. By helping teachers to develop a deeper understanding and appreciation of traditional American history as a separate subject matter within the core curriculum, these programs will improve instruction and raise student achievement.

**Eligible Applicants:** Local educational agencies (LEAs), working in partnership with one or more of the following entities:

- Institutions of higher education (IHEs);
- Non-profit history or humanities organizations; and
- Libraries and museums.

**Note 1:** LEAs must provide evidence of a partnership with the entities described above in order to be eligible for a grant.

**Note 2:** Groups of LEAs interested in submitting a single application must follow the procedures for group applications in 34 CFR 75.127–129 of EDGAR.

**E-Mail Notification of Intent to Apply for Funding:** The Department will be able to develop a more efficient process for reviewing grant applications if it has a better understanding of the number of LEAs that intend to apply for funding under this competition. Therefore, the Secretary strongly encourages each potential applicant to notify the Department with a short e-mail noting the intent to submit an application for funding. The e-mail need not include information regarding the content of the

proposed application, only the applicant's intent to submit it. The Secretary requests that this e-mail notification be sent no later than May 3, 2002. The e-mail notification should be sent to Ms. Christine Miller at: TeachingAmericanHistory@ed.gov. Applicants that fail to provide this e-mail notification may still apply for funding.

**Deadline for Transmittal of Applications:** June 3, 2002.

**Deadline for Intergovernmental Review:** August 1, 2002.

**Estimated Available Funds:** \$100,000,000.

**Estimated Range of Awards:** \$350,000–\$1,000,000 (total funding per grant, for a three-year project period).

**Estimated Average Size:** \$500,000 (total for all three years).

**Maximum Award Amount:** The total amount of funding that an LEA may receive under this competition is \$1,000,000.

**Estimated Number of Awards:** 150–200.

**Project Period:** Up to 36 months.

Please note that applicants for multi-year awards are required to provide detailed budget information for the total grant period requested. The Department will determine at the time of the initial award the funding levels for each year of the grant award. The Department of Education is not bound by any estimates in this notice.

**Note:** To provide the applicant the capacity to effectively plan for and carry out the comprehensive long-term activities involved in ongoing, intensive professional development, to establish partnerships to support this work, and to document and demonstrate the effectiveness of its program for future dissemination, the Secretary anticipates awarding the entire three-year grant amount for the project at the time of the initial award.

**Page Limits:** Applicants are strongly encouraged to limit the application narrative to no more than 20 double-spaced pages.

The following standards are preferred: (1) A "page" is 8.5" × 11" (one side only) with one-inch margins (top, bottom, and sides). (2) Use 12-point font for all text in the application narrative.

The page limit does not apply to the cover sheet, the one-page abstract, budget section, appendices, and forms and assurances.

**Applicable Regulations:** The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 75, 77, 79, 80, 81, 82, 85, 86, 97, 98 and 99.

**Supplementary Information:** Budgets must include funds for at least two project staff members to attend a two-

day annual meeting of the Teaching American History Grant program in Washington, DC, each year of the project. Applicants must include funds to cover travel and lodging expenses for these training activities during each year of the project.

**Background:** In fiscal year 2001, Congress appropriated \$50 million for the Teaching American History program, of which the Department awarded \$49.6 million in support of 60 grants to LEAs and consortia in 33 States. Abstracts of these grants are available at [www.ed.gov/offices/OESE/TAH/](http://www.ed.gov/offices/OESE/TAH/). The Secretary reserved the remaining \$365,000 in FY 2001 for peer review costs. Congress appropriated \$100 million for this program for fiscal year 2002.

**Program Description:** The Teaching American History Grant Program is authorized by Part C, subpart 4, of Title II of the Elementary and Secondary Education Act.

Students who know and appreciate the great ideas, issues, and events of American history are more likely to understand and exercise their civic rights and responsibilities. Their understanding of traditional American history will be enhanced if it is taught as a separate academic subject and not as a component of social studies. Teachers must have strong content knowledge to teach students effectively about the significant issues, episodes, individuals, and turning points in the history of the United States.

The Teaching American History Grant Program will support projects to raise student achievement in traditional American history by improving teachers' knowledge, understanding, and appreciation for American history through intensive, ongoing professional development. Project activities should enable teachers to develop further expertise in American history subject content, teaching strategies, and other essential elements of teaching to higher standards. Projects should be driven by a coherent, long-term plan and should be evaluated on the basis of their impact on teacher effectiveness and student learning. This assessment should guide subsequent professional development efforts.

This program will demonstrate how school districts and institutions with expertise in traditional American history can collaborate over a three-year period to ensure that teachers develop the content knowledge and skills necessary to teach traditional American history effectively as a separate academic subject. In addition to any dissemination conducted directly by grantees, the Department intends to take

the products and information resulting from this grant program and share the results with other communities.

Under this program, applicants may propose projects that:

- Develop and implement high-quality in-service or pre-service professional development that provides educators with content knowledge and related teaching skills to prepare all students to achieve to higher standards in American history; and
- Develop and implement strategies for sustained and on-going collaboration that will take place over the course of at least three years among teachers and outside experts to improve content knowledge and instruction in traditional American history.

Applicants should consider projects that include at least one or more of the following:

- Supporting participation of teams of teachers in summer institutes and summer immersion activities designed to improve content knowledge and instruction in traditional American history;
- Supporting school-based collaborative efforts among teachers, including programs that facilitate teacher observation and analyses of fellow history teachers' classroom practice to improve content knowledge and instruction;
- Developing programs to assist new history teachers in the classroom, such as—
  - (a) Mentoring and coaching by trained mentor teachers over the entire grant period;
  - (b) Team teaching with experienced history teachers; or
  - (c) Providing release time for observation and consultation with experienced history teachers;
- Providing collaborative professional development experiences for veteran history teachers;
- Supporting LEA collaboration with history departments at IHEs to improve content understanding and quality of instruction in the LEA;
- Developing programs to improve history knowledge and instruction, and therefore student achievement, in high-poverty areas or for disadvantaged students;
- Establishing and maintaining professional networks, focused specifically on teaching traditional American history, that provide a forum for interaction among teachers and that allow for the exchange of information;
- Providing guidance to teachers on the use of technology to provide access to primary historical documents, enable cooperative learning efforts, and

develop effective presentations of historical content; and

- Creating materials documenting the implementation and benefits of the program and products for other educators to use in the course of teaching American history as a separate subject within the core curriculum.

*Application Content:* To apply for Teaching American History program funds, applicants must fully describe, in their project narrative, projects that:

- Develop and implement high-quality professional development programs, or strengthen existing programs, in order to improve traditional American history education programs in elementary, middle, or high schools;
- Demonstrate strong evidence of collaboration with either an institution of higher education, a non-profit history or humanities association, or a library or museum;
- Document the program's outcomes and benefits; and
- Develop products that may be used to replicate the program in other settings.

Thus, grant applications must describe existing or proposed strategies that could successfully be implemented, expanded, documented, evaluated and disseminated. Taken together, these strategies and methods should comprise a research-based and comprehensive traditional American history education improvement project that:

- Is based on reliable theory, preliminary internal or external research, and evaluation regarding effective practice;
- Has the potential to improve students' achievement in traditional American history;
- Highlights the development of model pre-service or in-service professional development for history teachers;
- Involves multiple partners and effectively combines resources to create quality, sustainable programs;
- Demonstrates the feasibility of further replication and dissemination;
- Is applicable to a broad range of rural and urban schools serving poor and disadvantaged students, including schools that are chronically low-performing; and
- Describes methods by which the applicant will assess the project's outcomes.

#### Competition Requirements

*Invitational Priority:* The Secretary is particularly interested in applications that meet the following priority:

Applications from high-poverty rural and urban LEAs for projects designed to

improve traditional American history instruction in chronically low-performing schools and improve achievement of disadvantaged students.

Under 34 CFR 75.105(c)(1), we do not give an application that meets the invitational priority a competitive or absolute preference over other applications.

#### Waiver of Proposed Rulemaking

Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed selection criteria. However, in order to make timely grant awards in fiscal year (FY) 2002, the Assistant Secretary for Elementary and Secondary Education has decided to issue this application notice without first publishing selection criteria for public comment. These selection criteria will apply to the FY 2002 grant competition only. The Assistant Secretary takes this action under section 437(d)(1) of the General Education Provisions Act.

#### Reporting Requirements and Expected Outcomes

The Secretary requires successful applicants to submit annual performance reports that document the grantee's yearly progress toward meeting expected programmatic outcomes. These outcomes must be based on measurable performance objectives. The Secretary will use these reports to measure the success of the grantee's project, and the reports will contribute to a broader knowledge base about high-quality, effective professional development strategies that can improve the teaching and learning of American history nationwide.

In addition, grantees will be required to submit a final performance report, due no later than 90 days after the end of the project period.

*Selection Criteria:* The Secretary uses the following selection criteria to evaluate applications for grants under this competition. In all instances where the word "project" appears in the selection criteria, the reference to a Teaching American History program should be made. The maximum composite score for all of these criteria is 100 points. The maximum score for each criterion is indicated in parentheses. Within each criterion, the Secretary evaluates each factor equally.

#### (a) Significance. (30 points)

In determining the significance of the proposed project, the Secretary considers the following factors:

- (i) The likelihood that the proposed project will improve the quality of

instruction in American history and student knowledge of the subject.

(ii) The importance or magnitude of the results or outcomes likely to be attained by the proposed project, especially improvements in teaching and student achievement.

(iii) The likelihood that the proposed project will promote the teaching of traditional American history as a separate academic subject (not as a component of social studies) within the LEA's elementary school and secondary school curricula.

*(b) Quality of the project design. (25 points)*

In determining the quality of the design of the proposed project, the Secretary considers the following factors:

(i) The extent to which the goals, objectives, and outcomes to be achieved by the proposed project are clearly specified and measurable.

(ii) The extent to which the proposed project is part of a comprehensive effort to improve teaching and learning in American history and support rigorous academic standards for all students.

(iii) The extent to which the proposed project involves the collaboration of appropriate partners with content expertise in American history to improve teachers' knowledge and instruction.

*(c) Quality of the management plan. (20 points)*

In determining the quality of the management plan, the Secretary considers the following factors:

(i) The adequacy of the management plan to achieve the objectives of the proposed project on time and within budget, including clearly defined responsibilities, timelines, continuous improvement strategies and milestones for accomplishing project tasks.

(ii) The extent to which the time commitments of the project director and other key project personnel are appropriate and adequate to meet the objectives of the proposed project.

*(d) Quality of the project evaluation. (15 points)*

In determining the quality of the evaluation, the Secretary considers the following factors:

(i) The extent to which the methods of evaluation are thorough, feasible, and appropriate to the goals, objectives, and outcomes of the proposed project.

(ii) The extent to which the methods of evaluation include the use of objective performance measures that are clearly related to the intended outcomes of the project and will produce

quantitative and qualitative data to the extent possible.

(iii) The extent to which the methods of evaluation will provide performance feedback and permit periodic assessment of progress toward achieving intended outcomes.

*(e) Adequacy of resources. (10 points)*

In determining the adequacy of resources for the proposed project, the Secretary considers:

(i) The extent to which the costs are reasonable and the budget sufficient in relation to the objectives, design, and scope of project activities.

(ii) The relevance and demonstrated commitment of each partner in the proposed project to the implementation and success of the project.

**Intergovernmental Review of Federal Programs**

This program is subject to the requirements of Executive Order 12372 (Intergovernmental Review of Federal Programs) and the regulations in 34 CFR part 79.

The objective of the Executive Order is to foster an intergovernmental partnership and to strengthen federalism by relying on State and local processes for State and local government coordination and review of proposed Federal financial assistance.

Applicants must contact the appropriate State Single Point of Contact to find out about, and to comply with, the State's process under Executive Order 12372. Applicants proposing to perform activities in more than one State should immediately contact the Single Point of Contact for each of those States and follow the procedures established in each State under the Executive order.

If you want to know the name and address of any State Single Point of Contact (SPOC) you may view the latest SPOC list on the OMB Web site at the following address:

[www.whitehouse.gov/omb/grants](http://www.whitehouse.gov/omb/grants).

In States that have not established a process or chosen a program for review, State, area-wide, regional, and local entities may submit comments directly to the Department.

Any State Process Recommendation and other comments submitted by a State Single Point of Contact and any comments from State, area-wide, regional, and local entities must be mailed or hand-delivered by the date indicated in this notice to the following address: The Secretary, E.O. 12372—CFDA #84.215X, U.S. Department of Education, Room 7E200, 400 Maryland Avenue, SW., Washington, DC 20202—0125.

Proof of mailing will be determined on the same basis as applications (see 34 CFR 75.102). Recommendations or comments may be hand-delivered until 4:30 p.m. (Eastern Standard Time) on the date indicated in this notice.

Please note that the above ADDRESS is not the same ADDRESS as the one to which the applicant submits its completed application. *Do not send applications to the above ADDRESS.*

**Instructions for Transmittal of Applications**

**Note:** Some of the procedures in these instructions for transmitting applications differ from those in the Education Department General Administrative Regulations (EDGAR) (34 CFR 75.102). Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed regulations. However, these amendments make procedural changes only and do not establish new substantive policy. Therefore, under 5 U.S.C. 553(b)(A), the Secretary has determined that proposed rulemaking is not required.

**Pilot Project for Electronic Submission of Applications**

In FY 2002, the U.S. Department of Education is continuing to expand its pilot project of electronic submission of applications to include additional formula grant programs and additional discretionary grant competitions. **Notes:**

- (1) The U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, you

should check with your local post office.

(2) If you send your application by mail, or if you or your courier deliver it by hand, the Application Control Center will mail a Grant Application Receipt Acknowledgment to you. If you do not receive the notification of application receipt within 15 days from the date of mailing the application, you should call the U.S. Department of Education Application Control Center at (202) 708-9493.

#### Appendix

##### Instructions for the Application Narrative

The narrative is the section of the application where the selection criteria used by reviewers in evaluating the application are addressed. The narrative must encompass each function or activity for which funds are being requested. Before preparing the application narrative, an applicant should read carefully the description of the program and the selection criteria the Secretary uses to evaluate applications.

Applicants should note the preferable page limits for the application narrative stated in this notice under *Page Limits*.

1. Begin with a one-page Abstract summarizing the proposed Teaching American History project, including a description of project objectives and activities and partners in the application. Also include a short description of the population to be served by the project.

2. Include a Table of Contents listing the parts of the narrative in the order of the selection criteria and the page numbers where the parts of the narrative are found. Be sure to number the pages.

3. Describe fully the proposed project in light of the selection criteria in the order in which the criteria are listed in the application package. Do not simply paraphrase the criteria.

4. Provide the following in response to the attached "Notice to all Applicants:" (1) A reference to the portion of the application in which information appears as to how the applicant is addressing steps to promote

equitable access and participation, or (2) a separate statement that contains that information.

5. If the application is from a group, attach the group's agreement. When applying for funds as a group, such as a consortium, individual eligible applicants must enter into an agreement signed by all members of the group. The group's agreement must detail the activities each member of the group plans to perform, and must bind each member to every statement and assurance made in the group's application. (The designated applicant must submit the group's agreement with its application.)

6. Applicants may include supporting documentation as appendices to the narrative. This material should be concise and pertinent to the competition. Note that the Secretary considers only information contained in the application in ranking applications for funding consideration. Letters of support sent separately from the formal application package are not considered in the review by the technical review panels.

7. Attach copies of all required assurances and forms.

#### Estimated Public Reporting Burden

According to the Paperwork Reduction Act of 1995, you are not required to respond to a collection of information unless it displays a valid OMB Control Number. The valid OMB control number for this information collection is 1890-0009, (Expiration Date: 06/30/2002). The time required to complete this information collection is estimated to average sixty-five (65) hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. *If you have any comments concerning the accuracy of the time estimate or suggestions for improving this form, please write to:* Christine Miller, Teaching American History Grant Program, U.S. Department of Education, 400 Maryland Avenue SW, FB-6, 5C126, Washington, DC 20202-6200.

*If you have comments or concerns regarding the status of your individual submission of this form, write directly to:* Christine Miller, Teaching American History Grant Program, U.S. Department of Education, 400 Maryland Avenue SW, FB-6, 5C126, Washington, DC 20202-6200.

### **Parity Guidelines Between Paper and Electronic Applications**

In FY 2002, the U.S. Department of Education is continuing to expand the pilot project, which began in FY 2000, which allows applicants to use an Internet-based electronic system for submitting applications. This competition is among those that have an electronic submission option available to all applicants. The system, called e-APPLICATION, formerly e-GAPS (Electronic Grant Application System), allows an applicant to submit a grant application to us electronically, using a current version of the applicant's Internet browser. To see e-APPLICATION visit the following address: <http://e-grants.ed.gov>.

Users of e-APPLICATION, a data driven system, will be entering data on-

line while completing their applications. This will be more interactive than just e-mailing a soft copy of a grant application to us. If you participate in this voluntary pilot project by submitting an application electronically, the data you enter on-line will go into a database and ultimately will be accessible in electronic form to our reviewers.

This pilot project continues the Department's transition to an electronic grant award process. In addition to e-APPLICATION, the Department plans to expand the number of discretionary programs using the electronic peer review (e-READER) system and to increase the participation of discretionary programs offering grantees the use of the electronic annual performance reporting (e-REPORTS) system. To help ensure parity and a similar look between electronic and paper copies of grant applications, we are asking each applicant that submits a

paper application to adhere to the following guidelines:

- Submit your application on 8½" by 11" paper.

### Definitions for Form ED 424

Novice Applicant (See 34 CFR 75.225). For discretionary grant programs under which the Secretary gives special consideration to novice applications, a novice applicant means any applicant for a grant from ED that—

- Has never received a grant or subgrant under the program from which it seeks funding;
- Has never been a member of a group application, submitted in accordance with 34 CFR 75.127-75.129, that received a grant under the program from which it seeks funding; and
- Has not had an active discretionary grant from the Federal government in the five years before the deadline date for applications under the program. For the purposes of this requirement, a grant is active until the end of the grant's project or funding period, including any extensions of those periods that extend the grantee's authority to obligate funds.

In the case of a group application submitted in accordance with 34 CFR 75.127-75.129, a group includes only parties that meet the requirements listed above.

**Type of Submission.** "Construction" includes construction of new buildings and acquisition, expansion, remodeling, and alteration of existing buildings, and initial equipment of any such buildings, or any combination of such activities (including architects' fees and the cost of acquisition of land). "Construction" also includes remodeling to meet standards, remodeling designed to conserve energy, renovation or remodeling to accommodate new technologies, and the purchase of existing historic buildings for conversion to public libraries. For the purposes of this paragraph, the term "equipment" includes machinery, utilities, and built-in equipment and any necessary enclosures or structures to house them; and such term includes all other items necessary for the functioning of a particular facility as a facility for the provision of library services.

**Executive Order 12372.** The purpose of Executive Order 12372 is to foster an intergovernmental partnership and strengthen federalism by relying on State and local processes for the coordination and review of proposed Federal financial assistance and direct Federal development. The application notice, as published in the Federal Register, informs the applicant as to whether the program is subject to the requirements of E.O. 12372. In addition, the application package contains information on the State Single Point of Contact. An applicant is still eligible to apply for a grant or grants even if its respective State, Territory, Commonwealth, etc. does not have a State Single Point of Contact. #### PROTECTION OF HUMAN SUBJECTS IN RESEARCH

##### I. Definitions and Exemptions

###### A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

###### —Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge, it is research. Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

###### —Human Subject

The regulations define human subject as "a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information." (1) If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met. (2) If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met. [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

###### B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of exemptions are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the

activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

## II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked "Yes" for Item 12 on the ED 424, the applicant must provide a human subjects "exempt research" or "nonexempt research" narrative and insert it immediately following the ED 424 face page.

### A. Exempt Research Narrative.

If you marked "Yes" for item 12a. and designated exemption numbers(s), provide the "exempt research" narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

### B. Nonexempt Research Narrative.

If you marked "No" for item 12a. you must provide the "nonexempt research" narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

(1) Human Subjects Involvement and Characteristics: Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable

(2) Sources of Materials: Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Recruitment and Informed Consent: Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Potential Risks: Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Protection Against Risk: Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Importance of the Knowledge to be Gained: Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

(7) Collaborating Site(s): If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

Copies of the Department of Education's Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff, Office of the Chief Financial Officer, U.S. Department of Education, Washington, D.C. 20202-4248, telephone: (202) 708-8263, and on the U.S. Department of Education's Protection of Human Subjects in Research Web Site at <http://www.ed.gov/offices/OCFO/humansub.html>

OMB Control No. 1890-0007 (Exp. 09/30/2004)

**NOTICE TO ALL APPLICANTS**

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Public Law (P.L.) 103-382).

**To Whom Does This Provision Apply?**

Section 427 of GEPA affects applicants for new grant awards under this program. **ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.**

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

**What Does This Provision Require?**

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct

description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

**What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?**

The following examples may help illustrate how an applicant may comply with Section 427.

- (1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.
- (2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.
- (3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

**Estimated Burden Statement for GEPA Requirements**

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is 1890-0007. The time required to complete this information collection is estimated to average 1.5 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. **If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to:** Director, Grants Policy and Oversight Staff, U.S. Department of Education, 400 Maryland Avenue, SW (Room 3652, GSA Regional Office Building No. 3). Washington, DC 20202-4248.

**ASSURANCES - NON-CONSTRUCTION PROGRAMS**

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0040), Washington, DC 20503.

**PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.**

**NOTE:** Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:
