

producer and exporter of the subject merchandise during the period of review (POR), requested that the Department conduct an antidumping duty new shipper review of the antidumping duty order. On October 5, 2001, the Department initiated the requested review. *See Stainless Steel Butt-Weld Pipe Fittings from Korea: Notice of Initiation of New Shipper Antidumping Duty Review*, 66 FR 51017 (October 5, 2001).

Extension of Time Limits for Preliminary Results

Pursuant to section 751(a)(3)(A) of the Tariff Act, the Department shall issue preliminary results in an administrative review of an antidumping duty order within 245 days after the last day of the anniversary month of the date of publication of the order. The Tariff Act further provides, however, that the Department may extend that 245-day period to 365 days if it determines it is not practicable to complete the review within the foregoing time period.

In the course of this proceeding the Department has determined, through consultation with the U.S. Customs Service, that there is an issue as to whether TK Corporation's U.S. sales fall within the period of investigation. Due to the need to analyze this question, it is not practicable to complete this review by the current deadline of March 27, 2002.

Therefore, in accordance with section 751(a)(3)(A) of the Tariff Act, the Department is extending the time limit for the preliminary results by 120 days, until no later than July 25, 2002. The final results continue to be due 120 days after the publication of the preliminary results.

This notice is published in accordance with section 751(a)(1) and 777(i)(1) of the Tariff Act.

Dated: March 27, 2002

Joseph A. Spetrini,

Deputy Assistant Secretary for Import Administration, Group III.

University of Vermont; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

Docket Number: 02-001. Applicant: University of Vermont, Burlington, VT 05405. Instrument: Upgrade for X-ray based Motion Analysis System.

Manufacturer: RSA BioMedical Innovations AB, Sweden. Intended Use: See notice at 67 FR 8939, February 27, 2002.

Comments: None received. Decision: Approved. No instrument of equivalent scientific value to the foreign

instrument, for such purposes as it is intended to be used, is being manufactured in the United States.

Reasons: This is a compatible accessory for an existing instrument purchased for the use of the applicant.

The National Institutes of Health advises in its memorandum dated February 1, 2002, that the accessory is pertinent to the intended uses and that it knows of no comparable domestic accessory.

We know of no domestic accessory which can be readily adapted to the existing instrument.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.
