Fish and Wildlife Service

Adoption and Notice of Availability of a Final Environmental Impact Statement (EIS) on the Anacapa Island Restoration Project

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: This notice advises the public that the U.S. Fish and Wildlife Service is adopting the National Park Service (NPS) Final Environmental Impact

Statement (FEIS) on the Anacapa Island Restoration Project in support of a special purpose migratory bird permit application submitted by NPS. Copies of the adopted FEIS are available from the National Park Service (<http://www.nps.gov/chris/naturalresources/AIRP.html>) or U.S. Fish and Wildlife Service (address below). Preparation of the Record of Decision will begin no sooner than 30 days from this notice.

ADDRESSES: Questions should be addressed to Brad Bortner, Chief, Division of Migratory Birds and Habitat Programs, U.S. Fish and Wildlife Service, 911 NE 11th Avenue, Portland, OR 97232-4181 (503-231-6164).

SUPPLEMENTARY INFORMATION:

Document Availability

Copies of the final Environmental Impact Statement are available at the following government offices and library:

The FEIS is available at Park Headquarters, Superintendent, Channel Islands National Park, 1901 Spinnaker Dr., Ventura, California 93001 (or via telephone at (805) 658-5700); on the Park's Web site (<http://www.nps.gov/chris/naturalresources/AIRP.html>); and at Fosters Library, Ventura, California.

A. Background

Pursuant to the National Environmental Policy Act (NEPA), the National Park Service prepared a Final Environmental Impact Statement (FEIS) assessing the benefits to migratory birds and other natural resource values and the potential impacts of eradicating the Black rat on Anacapa Island. This notice of availability of the FEIS was originally published in a **Federal Register** Notice dated October 12, 2000. Subsequently, the National Park Service applied for a special purpose migratory bird permit (50 CFR 21.27) to take birds during eradication of the rats.

The U.S. Fish and Wildlife Service (Service) in accordance with 40 CFR 1506.3 and the Amended Memorandum Opinion (*The Fund for Animals v. Fran Mainella, USDCDC, Civil Action No. 01-2288 [ESH]*, dated November 29, 2001) is adopting and recirculating the FEIS.

The FEIS presents alternatives and analyzes the anticipated effects of implementing proposed actions to accomplish the following objectives: (1) Eradicating introduced Black rats on Anacapa Island; (2) adopting an emergency response plan for accidental introductions of rodents on Anacapa, Santa Barbara, Prince, and Sutil Islands; and (3) incorporating a prevention strategy to reduce the potential for rodents to be accidentally introduced to

these islands of Channel Islands National Park. The proposed action was developed in concert with the Island Conservation and Ecology Group and is based on worldwide evaluation of other island rat eradication projects. Actions to eradicate existing and prevent potential Black rat infestations are necessary because of the ecological damage occurring on Anacapa Island, the benefit this action would have for migratory birds, and the potential negative impact they would have if introduced to other islands in Channel Islands National Park.

Bureau of Land Management

[OR110-6310-DP; HAG02-0126]

Notice of Availability of the Draft Kelsey Whisky Landscape Management Plan, Associated Amendments to the Medford Resource Management Plan, and Draft Environmental Impact Statement

AGENCY: Glendale Resource Area, Medford District, Bureau of Land Management.

ACTION: Notice of availability of the Draft Kelsey Whisky Landscape Management Plan (LMP), Associated Amendments to the Medford Resource Management Plan (RMPA), and Draft Environmental Impact Statement (EIS) (RMPA/LMP/EIS).

SUMMARY: The Glendale Resource Area is providing the Draft Kelsey Whisky Landscape Management Plan (LMP), Associated Amendments to the Medford Resource Management Plan (RMPA), and Draft Environmental Impact Statement (EIS) (RMPA/LMP/EIS) for public review and comment. The planning area encompasses approximately 104,000 acres of public land managed by the Glendale Resource Area, Medford District and located in Josephine, Douglas and Curry counties in southwestern Oregon. The Bureau of Land Management (BLM) has and will continue to work closely with all interested parties to identify the management decisions that are best suited to the needs of the public. The public is invited to review and comment on the range and adequacy of the draft alternatives and associated environmental effects. For comments to

be most helpful, they should relate to specific concerns or conflicts that are within the legal responsibilities of the BLM and they must be able to be resolved in this planning process. Specific comments are the most useful in helping us improve the analysis and development of the preferred alternative. Documents referenced in this draft EIS may be examined at the Medford District Office during normal working hours.

DATES: The comment period will end 90 days after the publication of the Environmental Protection Agency's Notice of Availability of the draft RMPA/LMP/EIS in the **Federal Register**. Comments must be received on or before the end of the comment period at the address listed below. No public meetings, open houses or field tours of the project area have been scheduled at this time. If there is sufficient public interest, public meetings will be arranged to discuss the management alternatives and answer questions. At least 15 days notice in local media will be given for activities where the public is invited to attend. All meetings will be published on the Medford District web site www.or.blm.gov/Medford under "Planning Documents" (subject to internet availability) and in the Grant's Pass Courier and Umpqua Free Press newspapers. Comments, including names and addresses of commentors, will be available for public review. Individual respondents may request confidentiality. If you wish to withhold your name and/or address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. Such requests will be honored to the extent allowed by law. All submissions from organizations or businesses and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

ADDRESSES: Written comments should be sent to Sherwood Tubman, Ecosystem Planner, Glendale Resource Area, Bureau of Land Management, 3040 Biddle Road, Medford, Oregon 97504. Planning records are available at this address for inspection during normal working hours. Requests for copies of the draft plan can also be made by telephone to Sherwood Tubman at 541-618-2399 or Lynda Boody at 541-618-2279.

SUPPLEMENTARY INFORMATION: There are three action alternatives and a no-action alternative, each developed with differing emphasis. The range of

management direction includes timber harvest of anywhere from 4.8 to 12.9 million board feet (MMBF), restoration activities, road decommissionings, water source enhancement projects, fuel hazard reduction treatments, and other land management direction. Public comments were considered in developing and analyzing issues and alternatives, along with local government, known interest groups and data developed by BLM staff. The alternatives were designed to address, in different ways, the land and resource management issues identified in the early stages of the planning process.

Authority: Federal Land Policy and Management Act (FLPMA) and the National Environmental Policy Act (NEPA).

Dated: March 14, 2002.

Lynda Boody,

Field Manager, Glendale Resource Area.
