General Management Plan, Environmental Impact Statement for Lake Meredith National Recreation Area and Alibates Flint Quarries National Monument, Texas

AGENCY: National Park Service,
Department of the Interior.

ACTION: Notice of intent to prepare an environmental impact statement (EIS) for the general management plan for Lake Meredith National Recreation Area (NRA) and Alibates Flint Quarries National Monument (NM), Texas.

SUMMARY: Under the provisions of the National Environmental Policy Act of 1969, the National Park Service is preparing an environmental impact

statement for the general management plan (GMP) for both the Lake Meredith NRA and the Alibates Flint Quarries NM. The Director, Intermountain Region will approve this statement. Alibates Flint Quarries NM is located immediately adjacent to Lake Meredith NRA. The national recreation area staff administers the national monument. The planning effort will result in a comprehensive general management plan for both sites that encompasses preservation of natural and cultural resources, visitor use and interpretation, and roads, and facilities. In cooperation with local interests, attention will also be given to resources outside the boundaries that affect the integrity of either site. Alternatives to be considered include no action, the preferred alternative and other alternatives addressing the following major issues:

- How can the important natural and cultural resources of Lake Meredith NRA and Alibates Flint Quarries NM be best protected and preserved, while providing for visitor use for present and future generations?
- What level and type of use is appropriate to be consistent with the purpose, and significance of both sites?
- What facilities are needed to meet the mission goals of both sites regarding natural and cultural resource management, visitor use and interpretation, partnerships, and operations?

The National Park Service held joint public scoping meetings regarding the GMP during the week of May 7, 2001. The purpose of these meetings was to explain the planning process and to obtain comments concerning appropriate resource management, desired visitor use, interpretation, facilities; and other issues that need to be resolved. The public was invited to attend any or all of these meetings. The National Park Service is providing the public with an additional 30 days to provide their ideas, concerns and comments on appropriate resource management, desired visitor use, interpretation, facilities and other issues that need to be resolved.

Comments: If you wish to submit issues or provide input to the initial phase of developing the GMP, you may do so mailing your comments to Superintendent, National Park Service, Lake Meredith National Recreation Area, P.O. Box 1460, 419 E. Broadway, Fritch, TX 79036. You may also comment via the Internet to LAMR_Superintendent@nps.gov. Please submit Internet comments as an ASCII file avoiding the use of special characters and any form of encryption. Please also include "Attn: GMP Team"

and your name and return address in your Internet message. If you do not receive a confirmation from the system that we have received your Internet message, contact Superintendent Karren Brown directly at telephone (806) 857-3151. Finally you may hand-deliver your comments to park headquarters, 419 E. Broadway, Fritch, TX 79036. Public scoping comments should be received no later than 30 days from the publication of this Notice of Intent. Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home addresses from the record, which we will honor to the extent allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment.

Notice of Intent for Low Gullah Culture Special Resource Study

AGENCY: National Park Service, Interior.

ACTION: Notice of intent to prepare a Draft Environmental Impact Statement on the Low Country Gullah Culture Special Resource Study.

SUMMARY: The National Park Service (NPS) will prepare a Draft Environmental Impact Statement (DEIS) on the Low Country Gullah Culture Special Resource Study (SRS). The NPS will conduct public scoping meetings within the resource study area to receive input on issues, concerns and proposals believed to be relevant to the management of Gullah/Geechee culture. The meetings may also address the inclusion of potential sites associated with Gullah/Geechee culture as units of the National Park System. Of particular interest to the NPS are suggestions and ideas for managing cultural and natural resources associated with Gullah/Geechee culture and developing both new and existing interpretive programs to provide the public with greater

opportunities to understand and experience Gullah/Geechee culture. The DEIS process will formulate and evaluate environmental impacts associated with various types and levels of visitor use and resource management.

DATES: The dates and times of the public scoping meetings will be published in local newspapers and posted on the Charles Pinckney National Historic Site (South Carolina) web site at www.nps.gov/chpi. These dates and times may also be obtained by contacting the NPS Southeast Regional Office, Division of Planning and Compliance. Scoping suggestions will be accepted throughout the planning process; however, the NPS prefers that suggestions be submitted prior to May 15, 2002. The NPS anticipates that the DEIS will be available for public review by July 30, 2002.

ADDRESSES: The specific locations of the public scoping meetings will be published in local newspapers and on the Charles Pinckney National Historic Site web site at www.nps.gov/chpi. At a minimum, meeting locations will include Charleston, South Carolina and Savannah, Georgia. Should the need arise for additional meetings, those meetings will be noticed in the same fashion. These locations may also be obtained by contacting the NPS Southeast Regional Office, Division of Planning and Compliance. Written scoping suggestions should be submitted to the following address: Planning Team Leader, Low Country Gullah Culture Special Resource Study, NPS Southeast Regional Office, Division of Planning and Compliance, 100 Alabama Street, SW, 6th Floor, 1924 Building, Atlanta, Georgia 30303.

FOR FURTHER INFORMATION CONTACT: John Barrett Planning Team Leader, Low Country Gullah Culture Special Resource Study, 404-562-3124, extension 637.

SUPPLEMENTARY INFORMATION: The NPS has announced that an EIS on SRSs will be prepared for all proposed park units; consistent with this policy this EIS is being prepared. Issues currently being considered for EIS include a determination of Gullah/Geechee culture's national significance and an assessment of the suitability and feasibility of various Gullah/Geechee-associated sites as potential additions to the National Park System. The EIS will identify cultural and natural resources of the Gullah/Geechee culture and evaluate a range of potential management options that might adequately protect these resources.

Our practice is to make comments, including names and addresses of

respondents, available for public review during regular business hours. If you wish for us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submission from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or business, available for public inspection in their entirety.

The responsible official for this environmental impact statement is Jerry Belson, Regional Director, National Park Service, Southeast Region, 100 Alabama Street SW., Atlanta, Georgia 30303.

Dated: February 11, 2002.
