Byproduct Material.

2. *Current OMB approval number:*
3150-0001.

3. *How often the collection is
required:* There is a one-time submittal
of information to receive a license.
Renewal applications are submitted
every 10 years. In addition,
recordkeeping must be performed on an
on-going basis, and reports of transfer of
byproduct material must be reported
every 10 years.

4. *Who is required or asked to report:*
All specific licensees who manufacture
or initially transfer items containing
byproduct material for sale or
distribution to general licensees or
persons exempt from licensing.

5. *The number of annual respondents:*
194 NRC licensees and 491 Agreement

6. *The number of hours needed

licensing. It also prescribes
requirements governing holders of the
specific licenses. Some of the
requirements are for information which
must be submitted in an application for
a specific license, records which must
be kept, reports which must be
submitted, and information which must
be forwarded to general licensees and
persons exempt from licensing. In
addition, 10 CFR part 32 prescribes
requirements for the issuance of
certificates of registration (concerning
radiation safety information about a
product) to manufacturers or initial
transferors of sealed sources and
devices. Submission or retention of the
information is mandatory for persons
subject to the 10 CFR part 32
requirements. The information is used
by NRC to make licensing and other
regulatory determinations concerning
the use of radioactive byproduct
material in products and devices.

quality, utility, and clarity of the
information to be collected?
4. How can the burden of the
information collection be minimized,
