

A range of alternatives will be considered, including a No Action alternative. Other alternatives will be developed in response to issues received during scoping. Preliminary issues that have been identified include the potential effects of structures and developments on—streams and riparian areas, wildlife habitats, and heritage resources.

Comments received in response to this notice, including names and addresses of those who comment, will be considered part of the public record on this proposed revised master plan will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decision under 36 CFR part 215. Additionally, pursuant to 7 CFR 1.27(d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality. Persons requesting such confidentiality should be aware that under the FOIA, confidentiality may be granted in only very limited circumstances, such as to protect trade secrets. The Forest Service will inform the requester of the agency's decision regarding the request for confidentiality, and where the request is denied, the agency will return the submission and notify the requester that the comments may be resubmitted with or without name and address within a specified number of days.

The draft EIS is expected to be filed with the Environmental Protection Agency (EPA) and to be available for review in July 2002. The EPA will publish a notice of availability of the draft EIS in the **Federal Register**. The comment period of the draft EIS will be 45 days from the date the EPA notice appears in the **Federal Register**. At that time, copies of the draft EIS will be distributed to interested and affected agencies, organizations, Tribes, and members of the public for their review and comment. It is very important that those interested in the management of the Colville National Forest participate at that time.

The Forest Service believes it is important, at this early stage, to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of a draft EIS must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and connections. *Vermont Yankee Nuclear Power Corp. v.*

NRDC, 435 U.S. 519,553 (1978). Also, environmental objections that could be raised at the draft EIS stage, but that are not raised until after completion of the final EIS may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F. 2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS.

The final EIS is scheduled to be completed October 2002. In the final EIS, the Forest Service is required to respond to comments and responses received during the comment period that pertain to the environmental consequences discussed in the draft EIS and applicable laws, regulations and policies considered in making the decision regarding this proposal.

Nora B. Rasure, Forest Supervisor, Colville National Forest is the responsible official. As the responsible official, she will document the decision and reasons for the decision in the record of decision. That decision will be subject to Forest Service Appeal Regulation (36 CFR Part 215).

Dated: March 25, 2002.

Nora B. Rasure,
Forest Supervisor.

AGENCY: National Marine Sanctuary Program (NMSPP), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Addition of public review meetings.

SUMMARY: The Hawaiian Islands Humpback Whale National Marine Sanctuary was Congressionally

designated by the Hawaiian Islands National Marine Sanctuary Act (HINMSA) on November 4, 1992 (Subtitle C of Public Law 102-587, the Oceans Act of 1992). On Friday, March 28, 1997, the final regulations were published in the **Federal Register** (62 FR 14799), and became effective on June 6, 1997.

At the time of designation, NOAA made a commitment to the State of Hawaii that five years after the management plan and regulations had become effective, NOAA, in consultation with the State of Hawaii, would evaluate the progress made toward implementing the management plan, regulations, and goals for the Sanctuary. NOAA also agreed that after the evaluation was complete, NOAA would then re-submit the management plan and regulations in their entirety, as far as they effect State waters, to the Governor for his approval. The draft revised management plan is the result of the five-year evaluation and will be submitted to the Governor. The draft revised management plan does not propose a regulatory or boundary changes.

The draft revised management plan has been completed and is now available for public review. NOAA will conduct public meetings to gather information and other comments from individuals, organizations, and government agencies on the scope, types, and significance of issues related to the Sanctuary's draft revised management plan. Written comments may also be sent to the address below or via email at hihumpbackwhale@noaa.gov. The public review period will run from March 19 until May 24, 2002.
