

(EIS), will identify and assess potential impacts of alternative transportation management concepts and modes of travel to and within the Cades Cove area of the Park. The goal of this plan is to enhance the visitor experience and protect park resources. Notice is hereby given that a public scoping process has been initiated to prepare the Cades Cove Development Concept and Transportation Management Plan and EIS. The purpose of the scoping process is to elicit public comment regarding the full spectrum of public issues and concerns, including a suitable range of alternatives, the nature and extent of potential environmental impacts, and appropriate mitigation strategies which should be addressed in the EIS process.

DATES: Beginning in Spring, 2002, public scoping meetings will be conducted in the vicinity of Great Smoky Mountains National Park. The location, date, and time of scoping meetings and deadlines for written comments will be announced via local and regional media and appropriate Internet locations. All interested individuals, organizations, and agencies are invited to attend these meetings to comment orally and/or provide written comments or suggestions during the scoping period.

ADDRESSES: Additional comments, suggestions, or relevant information (or those wishing to be added to the mailing list) should be mailed or hand delivered to the attention of Cades Cove Development Concept and Transportation Management Plan and EIS, Great Smoky Mountains National Park, 107 Park Headquarters Road, Gatlinburg, TN 37738.

FOR FURTHER INFORMATION CONTACT: Michael Tollefson, Superintendent, Great Smoky Mountains National Park (865) 436-1207 or Fax (865) 436-1220.

SUPPLEMENTARY INFORMATION: The purpose of this planning initiative is to develop a long-term Development Concept and Transportation Management Plan and EIS for the Cades Cove area of Great Smoky Mountains National Park. The Plan and EIS will examine local, natural and cultural resources, existing Park facilities and infrastructure, current and projected visitation trends, and incorporate a public involvement plan in developing a range of alternatives and transportation strategies that improve the visitor experience.

Cades Cove is located within Great Smoky Mountains National Park in southeastern Tennessee. The study area lies within Blount County, Tennessee, which is part of the Knoxville Regional Transportation Planning Organization's

designated planning area. Visitation in the Cove has tripled in the last 20 years, and has doubled since 1990, with more than 2.1 million visitors annually. Fifty percent of the time during peak summer and fall seasons, the Cove's Loop Road is very congested.

Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold from the record a respondent's identity, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

Availability of the draft Cades Cove Development Concept and Transportation Management Plan and EIS for review and written comment will be announced by **Federal Register** notice, via the news media, appropriate Internet locations, Web site, and direct mailing to the project mailing list. At the time the draft Cades Cove Development Concept and Transportation Management Plan and EIS is anticipated to be available for public review in 2004. To afford additional opportunity to comment on the draft Cades Cove Development Concept and Transportation Management Plan and EIS after it is distributed, public meetings will be held in the vicinity of Great Smoky Mountains National Park (dates and locations to be determined).

Dated: February 27, 2002.

Patricia A. Hooks,

Regional Director, Southeast Region.

BILLING CODE 4370-70-M

DEPARTMENT OF JUSTICE

Office of Community Oriented Policing Services; FY 2002 Community Policing Discretionary Grants

AGENCY: Office of Community Oriented Policing Services, Department of Justice.

ACTION: Notice of availability of the Finding of No Significant Impact and the Environmental Assessment.

SUMMARY: The Environmental Assessment, which is available to the public, concludes that the methamphetamine investigation and clandestine laboratory closure activities of the Methamphetamine/Drug Hot Spots Program will not have significant impact on the quality of the human environment.

ADDRESSES: For copies of the Environmental Assessment and the Finding of No Significant Impact, please contact: COPS Grants Administration Division, 1100 Vermont Avenue, NW., Washington, DC 20530; Phone: (202) 616-3031 or 1-800-421-6770.

FOR FURTHER INFORMATION CONTACT: The U.S. Department of Justice Response Center, 1-800-421-6770 and ask to speak with your Grant Program Specialist.

SUPPLEMENTARY INFORMATION: In Fiscal Year 2000, the COPS Office collaborated with the Bureau of Justice Assistance and the Drug Enforcement Administration, Department of Justice, to prepare an Environmental Assessment for methamphetamine law enforcement programs, and with specific application for the Methamphetamine/Drug Hot Spots Program. This Environmental Assessment was prepared as required by the Council on Environmental Quality's regulations (40 CFR Parts 1500 through 1508), implementing the National Environmental Policy Act of 1969 (42 U.S.C. 4321, *et al.*) The Methamphetamine/Drug Hot Spots Program addresses a broad array of law enforcement initiatives pertaining to the investigation of methamphetamine trafficking in many heavily impacted areas of the country. For the purposes of this program, law enforcement may include training of law enforcement officers in methamphetamine-related issues; collection and maintenance of

intelligence and information relative to methamphetamine trafficking and traffickers; investigation, arrest and prosecution of producers, traffickers and users of methamphetamine; interdiction and removal of laboratories, finished products, and precursor chemicals and other elements necessary to produce methamphetamine; and preventive efforts to reduce the spread and use of methamphetamine. Individual projects will reflect a concentration on program areas consistent with Congressional appropriations.

Among the many challenges faced by law enforcement agencies in the Methamphetamine/Drug Hot Spots Program will be discovery, interdiction, and dismantling of clandestine drug laboratories. These lab sites, as well as other methamphetamine crime venues must be comprehensively dealt with in compliance with a variety of health, safety and environmental laws and regulations. The COPS Office requires that recipients, when encountering illegal drug laboratories, use grant funds to effect the proper removal and disposal of hazardous materials located at those laboratories and directly associated sites in accordance with all applicable laws and regulations.

Overview

Environmental Assessment

The COPS Office will award grants to State and local criminal justice agencies for the FY 2002 COPS Methamphetamine/Drug Hot Spots Program. The Environmental Assessment concludes that the funding of this program will not have a significant impact on the quality of the human environment. Therefore, an Environmental Impact Statement will not be prepared for the funding of this program.

Dated: March 21, 2002.

Carl R. Peed,

Director, Office of Community Oriented Policing Services.

BILLING CODE 4410-AT-M

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act

AGENCY: Notice is hereby given that on March 12, 2002, a proposed Consent Decree in *United States v. A-L Processors, f.k.a. Atlas-Lederer Co., et al.*, Civil Action No. C-3-91-309, was

lodged with the United States District Court for the Southern District of Ohio.

In this action the United States seeks the reimbursement of response costs in connection with the United Scrap Lead Superfund Site in Troy, Miami County, Ohio ("Site") pursuant to the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), 42 U.S.C. 9601 *et seq.* The Consent Decree resolves the United States' claims against defendants Beckner Iron & Metal, Decatur Salvage Inc., Ebner & Sons Co., Inc., Mid-Ohio Battery Inc., the Ohio Department of Transportation, and United Salvage Co., Inc., for response costs incurred as a result of the release or threatened release of hazardous substances at the Site. Five of these settlements are "ability-to-pay" settlements based on financial analyses conducted by the Department's Antitrust Corporate Finance Unit. One settlement, with the Ohio Department of Transportation ("ODOT"), was agreed to in principle in early 2000 based on ODOT's relative contribution of waste to the Site, but could not be finalized in time for inclusion in a prior Consent Decree executed in April 2000. The six settling parties collectively will pay the United States \$93,595. The United States' remaining outstanding costs exceed \$8,500,000 and are being sought from the eleven remaining defendants in this case.

The Consent Decree also resolves the United Scrap Lead Respondent Group's ("Respondent Group") CERCLA claims against the same parties for response costs incurred by the Respondent Group in cleaning up the Site under an earlier Consent Decree. The settling parties will pay the Respondent Group a total of \$64,247.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Consent Decree. Comments should be addressed to the Assistant Attorney General of the Environment and Natural Resources Division, Department of Justice, PO Box 7611, Washington, DC 20044, and should refer to *United States v. A-L Processors, f.k.a. Atlas-Lederer Co., et al.*, D.J. Ref. 90-11-3-279B.

The Consent Decree may be examined at the Office of the United States Attorney, Southern District of Ohio, Federal Building Room 602, 200 West Second Street, Dayton, Ohio, or at the Region 5 Office of the Environmental Protection Agency, 77 West Jackson Street, Chicago, Illinois 60606-3590. A copy of the proposed Consent Decree may also be obtained in person or by mail from the Consent Decree Library,
