BILLING CODE 4410-10-M

DEPARTMENT OF LABOR

Employment Standards Administration; Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR part 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department.

Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S-3014, Washington, DC 20210.

Modification to General Wage Determination Decisions

The number of the decisions listed to the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-Bacon and related Acts" being modified are listed by Volume and State. Dates of publication in the **Federal Register** are in parentheses following the decisions being modified.

General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon And Related Acts". This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country.

General wage determinations issued under the Davis-Bacon and related Acts are

available electronically at no cost on the Government Printing Office site at www.access.gpo.gov/davisbacon. They are also available electronically by subscription to the Davis-Bacon Online Service (<http://davisbacon.fedworld.gov>) of the National Technical Information Service (NTIS) of the U.S. Department of Commerce at 1-800-363-2068. This subscription offers value-added features such as electronic delivery of modified wage decisions directly to the user's desktop, the ability to access prior wage decisions issued during the year, extensive Help desk Support, etc.

Hard-copy subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 512-1800.

When ordering hard-copy subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the six separate Volumes, arranged by State. Subscriptions include an annual edition (issued in January or February) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed at Washington, DC, This 4th day of April 2002.

Carl J. Poleskey,
Chief, Branch of Construction Wage Determinations.

NATIONAL SCIENCE FOUNDATION

Advisory Committee for Mathematical and Physical Sciences; Notice of Meeting

In accordance with Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Advisory Committee for Mathematical and Physical Sciences (66).

Dates/Time: May 9, 2002, 8:30 am-6 pm; May 10, 2002, 8:30 am-3 pm.

Place: May 9, 2002, Stafford Building II, Room 555, 4121 Wilson Boulevard, Arlington, VA; May 10, 2002, 4201 Wilson Boulevard, Arlington, VA, Room 1235.

Type of Meeting: Open.

Contact Person: Dr. Morris L. Aizenman, Senior Science Associate, Directorate for Mathematical and Physical Sciences, Room 1005, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230. (703) 292-8807.

Purpose of Meeting: To provide advice and recommendations concerning NSF science and education activities within the Directorate for Mathematical and Physical Sciences.

Agenda: Briefing on current status of Directorate; Review by MPSAC of Committee of Visitors Report for The Division of Astronomical Sciences; Review by MPSAC of Committee of Visitors Report for the Division of Materials Research; Meeting of MPSAC with Divisions within MPS Directorate; Review by MPSAC of Homeland Defense Draft Report.

Summary Minutes: May be obtained from the contact person listed above.

Dated: April 8, 2002.

Susanne Bolton,
Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 40-6563]

Finding of No Significant Impact Related to Approval of the Mallinckrodt C-T Project Decommissioning Plan, Part 1 Mallinckrodt Chemical, Inc. St. Louis, MO, License No. STB-401

The U.S. Nuclear Regulatory Commission (NRC) is considering approval of the Mallinckrodt C-T Project Decommissioning Plan (DP), Part 1, originally submitted to NRC on November 20, 1997, and revised on January 18, 2001, February 13, 2002, and March 8, 2002. In the DP, Mallinckrodt Chemical Inc. (Mallinckrodt) is proposing to remediate the above-grade portion of buildings, and equipment. Mallinckrodt is proposing (1) to release columbium-tantalum (C-T) project process equipment in accordance with NRC's "Guidelines for Decontamination of Facilities and Equipment Prior to Release for Unrestricted Use or Termination of Licenses for Byproduct, Source, or Special Nuclear Material," (2) to release building surfaces in accordance with 10 CFR 20, subpart E and, (3) to release building waste material which meets the requirements of NRC Policy and Guidance Directive FC 83-23, "Termination of Byproduct, Source, and Special Nuclear Material Licenses," November 1983, in accordance with license condition 16, or future NRC regulations on clearance of materials, or under the provisions of 10 CFR 20.2002. To demonstrate compliance with these documents, Mallinckrodt has derived beta release criteria based solely on measured beta emission.

Below is a summary of the Environmental Assessment (EA) prepared by the staff to support approval of the Mallinckrodt Phase 1 DP. The complete EA is available through NRC's Public Document Room.

Environmental Assessment

Introduction

Mallinckrodt has been operating at the St. Louis Plant since 1867 producing various products including metallic oxides and salts, ammonia, and organic chemicals. From 1942 to 1957, Mallinckrodt was under contract with the Manhattan Engineering District and the Atomic Energy Commission (MED-AEC) to process uranium ore to produce uranium for development of atomic weapons. From 1961 to 1985, Mallinckrodt extracted C-T from natural ores and tin slags.

Radiological contamination at the site resulted from MED-AEC and C-T processing activities. MED-AEC contamination is being removed by the U.S. Army Corps of Engineers (USACE) under the Formerly Utilized Sites Remedial Action Program (FUSRAP). USACE developed a preferred cleanup approach for the MED-AEC contamination, based on the data and findings presented in four documents: (1) Remedial Investigation Report; (2) Baseline Risk Assessment; (3) Initial Screening of Alternatives, and (4) Feasibility Study.

Purpose and Need for the Proposed Action

Mallinckrodt has requested that NRC terminate License No. STB-401. Before the license can be terminated, NRC must be assured that the areas of the Mallinckrodt facility associated with the C-T project meet NRC's release criteria.

Mallinckrodt is planning to conduct the C-T decommissioning project in two phases. In Phase 1, Mallinckrodt will decommission buildings and equipment used during C-T production. C-T project buildings and equipment remaining on-site will be cleaned and released for unrestricted use. In Phase 2, Mallinckrodt will remediate building slabs and foundations, paved surfaces, and all subsurface materials. This EA addresses only Phase 1 of decommissioning.

Mallinckrodt has proposed a two-phase decommissioning approach. The two-phase approach is needed because:

- The facility is an operating facility with limited areas for staging decommissioning activities. Removal of buildings and equipment in Phase 1 will provide staging areas necessary for Phase 2 decommissioning.

- On-site workers have access to buildings containing residual contamination. Removal of buildings and equipment in Phase 1 reduces the potential that workers will be exposed to residual radioactive material. Further, some of the C-T process buildings have
