

Friday of each week except Federal holidays.

Assistance to Individuals With Disabilities in Reviewing the Rulemaking Record

On request, we will supply an appropriate aid, such as a reader or print magnifier, to an individual with a disability who needs assistance to review the comments or other documents in the public rulemaking record for this proposed extension and waiver. If you want to schedule an appointment for this type of aid, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Regulatory Flexibility Act Certification

The Secretary certifies that the proposed extension and waiver and the activities required to support additional years of funding would not have a significant economic impact on a substantial number of small entities.

The small entities that would be affected by this proposed extension and waiver are the FY 2001 projects currently receiving Federal funds and tribally controlled postsecondary vocational and technical institutions that are not receiving Federal support under the Tribally Controlled College or University Assistance Act of 1978 (25 U.S.C. 1801 *et seq.*) or the Navajo Community College Act (25 U.S.C. 640a *et seq.*). However, the proposed extension and waiver would not have a significant economic impact on these entities because the proposed extension and waiver and the activities required to support the additional years of funding would not impose excessive regulatory burdens or require unnecessary Federal supervision. The proposed extension and waiver would impose minimal requirements to ensure the proper expenditure of program funds, including requirements that are standard to continuation awards.

Paperwork Reduction Act of 1995

This proposed extension and waiver does not contain any information collection requirements.

Intergovernmental Review

The TCPVTIP is not subject to Executive Order 12372 and the regulations in 34 CFR part 79.

Assessment of Educational Impact

The Secretary particularly requests comments on whether this proposed extension and waiver would require transmission of information that any other agency or authority of the United States gathers or makes available.

Electronic Access to This Document

You may view this document, as well as all other Department of Education documents published in the **Federal Register**, in text or Adobe Portable Document Format (PDF) on the Internet at the following site: www.ed.gov/legislation/FedRegister.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

[Docket No. EA-262]

Application To Export Electric Energy; TransCanada Power Marketing, Ltd.

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: TransCanada Power Marketing, Ltd.. (TCPM) has applied for authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests or requests to intervene must be submitted on or before May 13, 2002.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Power Import/Export (FE-27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0350 (FAX 202-287-5736).

FOR FURTHER INFORMATION CONTACT: Rosalind Carter (Program Office) 202-586-7903 or Michael Skinker (Program Attorney) 202-586-2793.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and

require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On March 6, 2002, the Office of Fossil Energy (FE) of the Department of Energy (DOE) received an application from TCPM to transmit electric energy from the United States to Canada. TCPM is formed under Delaware law with its principal place of business in Westborough, MA. TCPM is wholly owned by TransCanada Pipeline USA Ltd., which is a wholly-owned subsidiary of TransCanada Pipelines Limited. TCPM does not own or control any electric power generation or transmission facilities and does not have a franchised electric power service area in the United States. TCPM operates as a power marketer and broker of electric power at wholesale and retail and provides services in related areas such as fuel supplies and transmission services.

TCPM will purchase the power to be exported from electric utilities and federal power marketing agencies within the United States and arrange for the delivery of electric energy to Canada over the existing international transmission facilities owned by Basin Electric Power Cooperative, Bonneville Power Administration, Citizen Utilities, Eastern Maine Electric Cooperative, International Transmission Company, Joint Owners of the Highgate Project, Long Sault, Inc., Maine Electric Power Company, Maine Public Service Company, Minnesota Power Inc., Minnkota Power Cooperative, New York Power Authority, Niagara Mohawk Power Corporation, Northern States Power, and Vermont Electric Transmission Company. The construction, operation, maintenance, and connection of each of the international transmission facilities to be utilized by TCPM, as more fully described in the application, has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

Procedural Matters

Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with section 385.211 or 385.214 of the FERC's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with DOE on or before the date listed above.

Comments on the TCPM application to export electric energy to Canada should be clearly marked with Docket

EA-262. Additional copies are to be filed directly with Angela Avery, Legal Counsel (Regulatory), TransCanada Power Marketing Ltd., 450—1st Street, SW., Calgary, Alberta T2P 5H1.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by the DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the Fossil Energy Home Page at <http://www.fe.de.gov>. Upon reaching the Fossil Energy Home page, select "Regulatory Programs," then "Electricity Regulation," and then "Pending Proceedings" from the options menus.

Issued in Washington, DC, on April 5, 2002.

Anthony J. Como,

Deputy Director, Electric Power Regulation, Office of Coal & Power Import/Export, Office of Coal & Power Systems, Office of Fossil Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Financial Assistance Award (Grant)

Solicitation Number DE-PS03-02SF22493

AGENCY: National Nuclear Security Administration (NNSA), U. S. Department of Energy (DOE).

ACTION: Notice of solicitation of applications for grant awards for high-energy density and laser-matter interaction studies.

SUMMARY: Pursuant to 10 CFR part 600.8, the U. S. Department of Energy (DOE) announces that it plans to conduct a technically competitive solicitation via electronic means for basic research experiments in high energy density and laser matter interaction studies at the National Laser Users' Facility (NLUF) located at the University of Rochester Laboratory for Laser Energetics (UR/LLE)—Grant Solicitation No. DE-PS03-02SF22493. Universities or other higher education institutions, private sector not-for-profit organizations, or other entities are invited to submit grant applications. The total amount of funding (project cost) expected to be \$800,000 available for Fiscal Year 2003 and approximately

25% more (or \$1,000,000) available in 2004. Multiple awards are anticipated within the amount of funding available.

FOR FURTHER INFORMATION CONTACT:

Janice Williams, Contract Specialist, DOE Oakland Operations Office, 1301 Clay Street, Room 700N, Oakland, CA 94612-5208, Telephone: (510) 637-1914, Facsimile No.: (510) 637-2074, E-mail: janice.williams@oak.doe.gov. James Solomon, Contracting Officer, DOE Oakland Operations Office, 1301 Clay Street, Room 700n, Oakland, CA 94612-5208, Telephone: (510) 637-1865, Facsimile No.: (510) 637-2074, E-mail: james.solomon@oak.doe.gov.

DATES: Applications must be received by 8 PM, Eastern Standard Time (EST) on May 20, 2002.

SUPPLEMENTARY INFORMATION: The solicitation document contains all the information relative to this action for prospective applicants. The solicitation is being issued electronically through the Industry Interactive Procurement System (IIPS). The complete procedures for accessing the solicitation through IIPS are located at <http://e-center.doe.gov>. Users who wish to submit proposals electronically must register to gain access to the solicitation.

MANUAL RESPONSES (HARD COPIES) TO THE SOLICITATION WILL NOT BE ACCEPTED. The solicitation will be available on IIPS on or about April 10, 2002. The actual work to be accomplished will be determined by the experiments and diagnostic techniques that are selected for award. Proposed experiments and diagnostics techniques will be evaluated through scientific peer review against predetermined, published and available criteria. Final selection will be made by DOE. It is anticipated that multiple grants will be awarded within the available funding. The unique resources of the NLUF are available to scientists for state-of-the art Experiments primarily in the area of inertial confinement fusion (ICF) and related Plasma physics. Other areas such as spectroscopy of highly ionized atoms, laboratory astrophysics, fundamental physics, material science, and biology and chemistry will be considered on a secondary basis. The LLE was established in 1970 to investigate the interaction of high power lasers with matter. Available at the LLE for NLUF researchers is the OMEGA LASER, a 30kJ UV 60 beam laser system (at 0.35 um) suitable for direct-drive ICF implosions. This system is suitable for a variety of experiments including laser-plasma interactions and atomic spectroscopy. The NLUF program for FY 2003 and FY 2004 is to concentrate on experiments that can be done with the

OMEGA laser at the University of Rochester and development of diagnostic techniques suitable for the OMEGA system. Measurements of the laser coupling, laser-plasma interactions, core temperature, and core density are needed to determine the characteristics of the target implosions. Diagnostic techniques could include either new instrumentation, development of analysis tools, or development of targets that are applicable for 30 kJ implosions. Additional information about the facilities and potential collaboration at the NLUF can be obtained from: Dr. John Soures, Manager, National Laser Users' Facility, University of Rochester/LLE, 250 East River Road, Rochester, NY 14623.

Issued in Oakland, CA, April 3, 2002

Georgia McClelland,

Acting Director, Financial Assistance Center, National Nuclear Security Administration, U.S. Department of Energy.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP02-128-000]

Destin Pipeline Company, L.L.C.; Notice of Application

April 5, 2001.

Take notice that on March 29, 2002, Destin Pipeline Company, L.L.C. (Destin), 501 WestLake Park Boulevard, Houston, Texas 77079-2696, filed in Docket No. CP02-128-000 an application pursuant to section 7(c) of the Natural Gas Act (NGA) and part 157 of the Federal Energy Regulatory Commission's (Commission) regulations for a certificate of public convenience and necessity authorizing Destin to make modifications at its Pascagoula Gas Plant, located in Jackson County, Mississippi, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may be viewed on the Web at <http://www.ferc.gov> using the "RIMS" link, select "Docket #" from the RIMS Menu and follow the instructions (call (202) 208-222 for assistance).

Specifically, Destin requests authorization to add an additional gas scrubber and 16-inch ultrasonic gas meters at the inlet and outlet of the gas plant. The additional facilities will have the same design features as the current facilities. These modifications will
