

Generation Imbalance Service is provided for in an interconnection agreement or other arrangement. Generation Imbalance Service is taken when there is a difference between scheduled and actual energy delivered from generation resources in the BPA Control Area during a schedule hour. The rates for this service differ depending upon whether the Generation Imbalance occurs within the Generation Imbalance Deviation Band or outside the Generation Imbalance Deviation Band. The Generation Imbalance Deviation Band is + or - 1.5% of the scheduled amount of energy, or 2 MW, whichever is larger (absolute value).

1. Rates

a. For Imbalance Within the Generation Imbalance Deviation Band

BPA-TBL will maintain a deviation account showing the net Generation Imbalance (the sum of positive and negative deviations from schedule for each hour). Return energy must be scheduled to bring the deviation account balance to zero each month. BPA-TBL will designate the hours and amounts of return energy for each hour that will be scheduled. The customer shall make the arrangements and submit the schedule for the balancing transaction.

b. For Imbalance Outside the Generation Imbalance Deviation Band

i. When energy delivered in a schedule hour by the generation resource, *not including wind generation resources*, is less than the energy scheduled, the charge will be the greater of: (I) BPA's incremental cost plus 10%, or (ii) 100 mills per kilowatthour. *When energy delivered in a schedule hour by a wind generation resource is less than the energy scheduled, the charge will be BPA's incremental cost plus 10%.*

BPA's incremental cost will be based on an hourly energy index in the PNW, if one exists. If one does not exist, an alternative index will be based on: The Dow-Jones Mid-Columbia, California PX, or NYMEX Mid-Columbia index prices. On September 30 each year, BPA-TBL will post on the OASIS the index to be used for the ensuing fiscal year.

ii. When energy delivered by the generation resource is greater than the scheduled amount, a credit equal to 90% of BPA's decremental cost may be given for deviations.

2. Billing Factors

For each hour a Generation Imbalance occurs, the Billing Factor for the rates specified in section 1.b. for Imbalance

Outside the Generation Imbalance Deviation Band, is:

a. The amount of energy that the customer delivers, in kilowatthours, less than the lower limit of the Generation Imbalance Deviation Band, or

b. The amount of energy the customer delivers, in kilowatthours, in excess of the upper limit of the Generation Imbalance Deviation Band. No credit will be given for an energy difference if: (a) The imbalance was an Intentional Deviation (as determined by BPA-TBL); or (b) the Federal System was in a Spill Condition at any time during the month.

Issued in Portland, Oregon, this 3rd day of April, 2002.

Stephen J. Wright,

*Administrator and Chief Executive Officer,
Bonneville Power Administration.*

ANR Pipeline Company; Notice of Negotiated Rate Filing

April 11, 2002.

Take notice that on April 5, 2002, ANR Pipeline Company (ANR), tendered for filing one IPLS Service Agreement and a description of the essential conditions involved in agreeing to a Negotiated Rate Arrangement. ANR requests that the Commission approve the Negotiated Rate Arrangements to be retroactively effective on May 1, 2002.

ANR states that the filed Negotiated Rate Arrangement reflects a negotiated rate between ANR and AEP Energy Services, Inc. for transportation service, under one transportation agreement for a period to be effective beginning May 1, 2002 for a primary term of ten (10) years thereafter.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party

must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" and follow the instructions (call 202-208-2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

Linwood A. Watson, Jr.,

Deputy Secretary.

[Docket No. PR02-14-000]

Bridgeline Gas Distribution LLC; Notice of Petition for Rate Approval

April 11, 2002.

Take notice that on March 29, 2002, Bridgeline Gas Distribution LLC (Bridgeline) filed pursuant to section 284.123(b)(2) of the Commission's regulations, a petition for rate approval requesting that the Commission approve the proposed rates as fair and equitable for transportation and storage services performed under section 311 of the Natural Gas Policy Act of 1978 (NGPA). Bridgeline proposes an effective date of March 29, 2002.

Bridgeline states that it is a local distribution company with a blanket certificate issued in Docket No. CP93-190 authorizing it to engage in NGPA Section 311 services as if it were an intrastate pipeline. Bridgeline owns and operates transportation and storage facilities in the State of Louisiana.

Pursuant to section 284.123(b)(2)(ii), if the Commission does not act within 150 days of the date of this filing, the rates will be deemed to be fair and equitable and not in excess of an amount which interstate pipelines would be permitted to charge for similar transportation service. The Commission may, prior to the expiration of the 150 day period, extend the time for action or institute a proceeding to afford parties an opportunity for written comments and for the oral presentation of views, data, and arguments.

Any person desiring to participate in this rate proceeding must file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888
