SUPPLEMENTARY INFORMATION:

Background

The Codex Alimentarius Commission was established in 1962 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Codex is the major international organization for encouraging fair international trade in food and protecting the health and economic interests of consumers. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to ensure that the world's food supply is sound, wholesome, free from adulteration, and correctly labeled. In the United States, USDA, FDA, and EPA manage and carry out U.S. Codex.

The Codex ad hoc Intergovernmental Codex Task Force on Animal Feeding was established by the 23rd Session of the Codex Alimentarius Commission to develop Guidelines or Standards as appropriate on Good Animal Feeding practices with the aim of ensuring safety and quality of foods of animal origin. The ad hoc Task Force is chaired by Denmark.

Issues To Be Discussed at the Public Meeting

- Provisional agenda items to be discussed during the public meeting:
 - Additional Information on lists established by different governments to control the use of prohibited and undesirable substances in animal feedingstuffs or other approaches
 - Information paper on Establishment of Codex maximum levels and residue limits for feedingstuffs and foods
 - Consideration of the Revised Draft Code of Practice on Good Animal Feeding
 - Consideration of Section 6 “On-Farm Production and Use of Feedingstuffs”

Public Meeting

At the June 4th public meeting, the agenda items will be described, discussed, and attendees will have the opportunity to pose questions and offer comments. Comments may be sent to the FSIS Docket Room (see **ADDRESSES**). Written comments should state that they relate to activities of the 3rd ad hoc Task Force on Animal Feeding.
