

SUMMARY: This notice announces a meeting of the Environmental Management Site-Specific Advisory Board (EM SSAB), Oak Ridge. The Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770) requires that public notice of these meeting be announced in the **Federal Register**.

DATES: Wednesday, May 8, 2002, 6 p.m.–9:30 p.m.

ADDRESSES: Garden Plaza Hotel, 215 South Illinois Avenue, Oak Ridge, TN 37830.

FOR FURTHER INFORMATION CONTACT: Pat Halsey, Federal Coordinator, Department of Energy Oak Ridge Operations Office, P.O. Box 2001, EM-922, Oak Ridge, TN 37831. Phone (865) 576-4025; Fax (865) 576-5333 or e-mail: halseypj@oro.doe.gov.

SUPPLEMENTARY INFORMATION: *Purpose of the Board:* The purpose of the Board is to make recommendations to DOE and its regulators in the areas of environmental restoration, waste management, and related activities.

Tentative Agenda

1. Presentation on the Y-12 Modernization Efforts provided by Ms. Cindy Hayes, BWXT-Y12, L.L.C.

Public Participation: The meeting is open to the public. Written statements may be filed with the Committee either before or after the meeting. Individuals who wish to make oral statements pertaining to agenda items should contact Pat Halsey at the address or telephone number listed above. Requests must be received five days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Deputy Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Each individual wishing to make public comment will be provided a maximum of five minutes to present their comments at the end of the meeting.

Minutes: Minutes of this meeting will be available for public review and copying at the Department of Energy's Information Resource Center at 105 Broadway, Oak Ridge, TN between 7:30 a.m. and 5:30 p.m. Monday through Friday, or by writing to Pat Halsey, Department of Energy Oak Ridge Operations Office, P.O. Box 2001, EM-922, Oak Ridge, TN 37831, or by calling her at (865) 576-4025.

Issued at Washington, DC on April 12, 2002.

Rachel M. Samuel,

Deputy Advisory Committee Management Officer.

DEPARTMENT OF ENERGY

Notice of Change in DOE Office of Science Business Practices Notice 02-24; Implement Use of Industry Interactive Procurement System (IIPS)

AGENCY: Office of Science, Department of Energy.

ACTION: Notice of changeover to use of Industry Interactive Procurement System (IIPS).

SUMMARY: The U.S. Department of Energy, Office of Science, is announcing a fundamental change in the manner in which business will be conducted. A secure, web-enabled acquisition and financial assistance system, Industry Interactive Procurement System (IIPS), has been developed and is deployed. Effective June 1, 2002, this system will become the way our office receives competitive financial assistance applications. IIPS provides for the posting of solicitations, receipt of applications, and conducting of clarifications or discussions in a paperless environment via the Internet. **DATES:** Effective June 1, 2002, applications must be submitted in PDF format through the IIPS system. (However, in order to allow sufficient time for all applicants to register and transition to the IIPS system, the Office of Science will continue to accept printed copies of applications until the end of the fiscal year, i.e., September 30, 2002.)

ADDRESSES: When submitting applications, applicants should use the IIPS web page, which is located at: <http://e-center.doe.gov/>.

FOR FURTHER INFORMATION CONTACT: Director, Grants and Contracts Division, Office of Science, SC-64, U.S. Department of Energy, 19901 Germantown Road, Germantown, MD 20874-1290. Applicants may call 301-903-5212, for information and assistance.

SUPPLEMENTARY INFORMATION: Since we are planning on issuing all solicitations electronically using IIPS, we want you to subscribe to IIPS, free of charge, to receive notifications of financial assistance opportunities in which you are interested. To subscribe to the electronic mailing list, you will need to

go to our web site at: <http://e-center.doe.gov/>. From this page, click on the "register" button to initiate the subscription process. You will need to provide information similar to that required on the Standard Form 129, Solicitation Mailing List Application. Follow the instructions for "subscribing" to IIPS. Best practices suggest you browse the IIPS page frequently to ensure you are receiving the appropriate notices. In order to submit proposals or bids, you must register your firm or institution. To register, click on the "register" button on the IIPS home page, so you can choose to "register" or "register and subscribe" (this is a combination registration and subscription form). Clicking on either option opens a form for you to complete. As with the subscription form, you must complete all the required fields and click on the "submit" button at the bottom of the form. Should you need assistance, please feel free to contact the IIPS help desk at 800-683-0751, or by email at: (helpdesk@pr.doe.gov).

Office of Science solicitations will include as an attachment, the appropriate forms in PDF fillable format to be submitted with the proposal. All information submitted through IIPS must be in PDF format. Additional information about the Office of Science financial assistance programs is available at our home page, which is located at: <http://www.sc.doe.gov/production/grants/grants.html>. Please bookmark these pages and check back often.

This Notice remains in effect until it is succeeded by another issuance by the Office of Science.

Issued in Washington, DC on April 9, 2002.

John Rodney Clark,

Associate Director of Science for Resource Management.

Federal Energy Regulatory Commission

[Docket No. RP00-341-002 and RP01-48-001]

Egan Hub Partners, L.P.; Notice of Compliance Filing

April 12, 2002.

Take notice that on April 9, 2002, Egan Hub Partners, L.P. (Egan Hub) tendered for filing as part of its FERC Gas Tariff, Original Volume No. 1, the revised tariff sheets listed on Appendix A of the filing.

Egan Hub states that the purpose of this filing is to comply with the Commission's March 14, 2002 order on Egan Hub's Order No. 637 compliance filing.

Egan Hub states that copies of its filing have been mailed to all parties on the official service lists compiled by the Secretary of the Commission in these proceedings.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with section 385.211 of the Commission's rules and regulations. All such protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" and follow the instructions (call 202-208-2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site under the "e-Filing" link.

Magalie R. Salas,
Secretary.

[Docket No. RP02-215-001]

Kinder Morgan Interstate Gas Transmission LLC; Notice of Tariff Filing

April 12, 2002.

Take notice that on April 9, 2002 Kinder Morgan Interstate Gas Transmission LLC (KMIGT) tendered for filing as part of its FERC Gas Tariff, Fourth Revised Volume No. 1, the following tariff sheets, to become effective May 1, 2002:

Substitute Original Sheet No. 37A
Substitute Original Sheet No. 93A

KMIGT states that the filing is being made to amend tariff sheets filed March 29, 2002 in Docket No. RP02-215.

KMIGT states that copies of the filing has been served upon all of its

customers and affected state commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with section 385.211 of the Commission's rules and regulations. All such protests must be filed in accordance with section 154.210 of the Commission's regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" and follow the instructions (call 202-208-2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site under the "e-Filing" link.

Magalie R. Salas,
Secretary.

Federal Energy Regulatory Commission

[Docket No. CP02-139-000]

Northern Natural Gas Company; Notice of Application

April 12, 2002.

Take notice that on April 3, 2002, Northern Natural Gas Company (Northern), 1111 South 103rd Street, Omaha, Nebraska 68124-1000, filed in Docket No. CP02-139-000 an application pursuant to Section 7 of the Natural Gas Act (NGA) and the Commission's Rules and Regulations for a certificate of public convenience and necessity authorizing Northern to install and operate certain natural gas facilities at its Beatrice Compressor Station located in Gage County, Nebraska, to provide incremental capacity on the downstream pipeline system, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket #" and follow the instructions (call 202-208-2222 for assistance).

Specifically, Northern proposes to install a new 6-inch control valve (which will be tied into and controlled from the existing station program logic computer) in the existing 24-inch header at the discharge of the Beatrice Compressor Station. A ball valve will be installed upstream of the proposed control valve for isolation during maintenance. Two anubars will be installed in the 24-inch header to measure flows to the C- and B-Lines. Northern states that additional over-pressure protection will also be required in the station yard.

Northern states that there are currently eight compressor units at the Beatrice Compressor Station for a total of 32,500 horsepower (hp). Northern states that it conducted an Open Season from April 30, 2001 through June 22, 2001 soliciting interest for an expansion project in its Market Area (Project MAX). According to Northern, the Open Season was intended to identify and quantify market growth opportunities and the need to construct facilities necessary to serve the incremental capacity requirements that will commence during the five year period from 2003 to 2007. Upon evaluation of the requests received and a facility analysis, Northern determined that 90,000 Mcf/d of incremental capacity could be made available with minor modifications at its Beatrice Compressor Station. The proposed modifications will allow Northern to better utilize its existing pipeline capacity and compression at the station by allowing gas from the D-Line to flow into the C-Line. Northern contends that the 90,000 Mcf/d of incremental volume will be able to flow downstream of the Beatrice Compressor Station by alleviating a throughput constraint at the station and thereby improving the operational efficiency, reliability, and flexibility on this portion of its system.

Northern proposes to install minor modifications at its Beatrice station to make this incremental capacity available to its customers as soon as practicable. Northern states that the capacity will be dedicated to the firm market requirements related to Project MAX beginning November 2003. The incremental capacity will be posted on Northern's internet website and will be made available to all of Northern's shippers on a non-discriminatory basis beginning with the 2002/2003 heating season. Northern states that starting in November 2003, the Project MAX shippers will then utilize the incremental capacity until it is fully subscribed in November 2007. Northern notes that any contracts that are entered into during the interim period will not
