

similar to those used for U.S. Government securities deposited as margin, have been prescribed to cover market and liquidity risk.<sup>9</sup>

## II. Discussion

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder and particularly with the requirements of Section 17A(b)(3)(F).<sup>10</sup> Section 17A(b)(3)(F) requires that the rules of a clearing agency be designed to assure the safeguarding of securities and funds which are in the custody or control of the clearing agency or for which it is responsible. The Commission believes that OCC's rule change meets this requirement because it allows OCC's clearing members to deposit high quality, liquid debt securities with OCC as margin collateral in a manner that should provide OCC with sufficient safeguards to protect the securities and funds that are within its custody or control or for which it is responsible.

## III. Conclusion

On the basis of the foregoing, the Commission finds that the proposal is consistent with the requirements of the Act and in particular with the requirements of Section 17A(b)(3)(F) of the Act and the rules and regulations thereunder.

*It is therefore ordered*, pursuant to Section 19(b)(2) of the Act, that the proposed rule change (File No. SR-OCC-2001-04) be and hereby is approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.<sup>11</sup>
