Bureau of Reclamation

Kennewick and Columbia Irrigation Districts Pump Exchange Feasibility Study, Washington

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of intent to prepare an Environmental Impact Statement and to conduct public scoping meetings.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act (NEPA) of 1969, as amended, the Bureau of Reclamation (Reclamation) intends to prepare an Environmental Impact Statement (EIS) on the Kennewick and Columbia Irrigation Districts Pump Exchange Feasibility Study, Washington. The purpose of this project is to evaluate opportunities to increase and improve streamflows in the lower Yakima River between the Prosser Diversion Dam and the mouth of the Yakima River during the irrigation season by investigating a water exchange project in the lower portion of the Yakima River or the electrification of the Chandler hydraulic pumps. Alteration of current conditions in this reach could improve spawning and rearing habitat and migration conditions for anadromous fish. Alternatives being considered are partial or full Yakima–Columbia River water exchange, or electrification of the Chandler Pumping Plant. Reclamation is requesting early public comment and agency input to help identify significant issues or other alternatives to be addressed in the EIS.

DATES: Scoping meetings will be held on the following dates and times:

- Kennewick, WA: May 1, 2002, Open Houses 12 pm to 1 pm and 6 pm
