**SUPPLEMENTARY INFORMATION:** This Draft General Management Plan/Environmental Impact Statement describes and analyzes alternatives for the management of Tonto National Monument over the next ten to fifteen years. Four alternatives were considered—a no-action and three action alternatives including the National Park Service (NPS) proposal. The NPS proposal would construct a new administrative facility within monument boundaries to improve staff needs and remodel the existing visitor center to increase visitor orientation and education opportunities. The management of cultural and natural resources would also improve with more staff and the information needed to conduct preservation programs. The DEIS/GMP in particular evaluates the environmental consequences of the proposed action and the other alternatives on impacts to archeological and historical resources, long-term health of natural ecosystems, visitor experiences, economic contribution to local communities, adjacent landowners, and operational efficiency. The draft plan also describes cumulative effects for each alternative.
