NUCLEAR REGULATORY COMMISSION

[NUREG-1520]

Standard Review Plan for the Review of a License Application for a Fuel Cycle Facility; Notice of Availability

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

SUMMARY: The Nuclear Regulatory Commission (NRC) has issued NUREG-1520 entitled *Standard Review Plan (SRP) for the Review of an Application for a Fuel Cycle Facility*. This SRP provides guidance to the NRC reviewers

in the Office of Nuclear Material Safety and Safeguards (NMSS) who perform safety and environmental impact reviews of applications to construct or modify and operate nuclear fuel cycle facilities licensed under 10 CFR part 70. As such, adherence to this SRP helps to ensure the quality, uniformity, and predictability of the staff reviews. This SRP also makes information about licensing acceptance criteria widely available to interested members of the public and the regulated industry. Each SRP section addresses the responsibilities of the staff reviewers, the matters that they review, the Commission's regulations pertinent to specific technical matters, the acceptance criteria used by the staff, the process and procedures used to accomplish the review, and the conclusions that are appropriate to summarize the review.

ADDRESSES: NUREG-1520 is available for inspection and copying for a fee at the Commission's Public Document Room, at the U.S. Nuclear Regulatory Commission, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, and electronically from the ADAMS Public Library component on the NRC Web site, <http://www.nrc.gov> (the Public Electronic Reading Room). The document's accession number is ML020930033.

Copies of NUREG-1520 also may be obtained through the Government Printing Office at <http://www.access.gpo.gov/> by searching for "NUREG-1520" under the topic of "Nuclear Power/200" or through the National Technical Information Services at a nominal cost. NUREG-1520 also can be downloaded as an Adobe Acrobat PDF file by first setting the browser to <http://www.nrc.gov> and then using the "Nuclear Materials," "Fuel cycle facilities," "Fuel Cycle Facilities Regulations, Guidance, and Communications" and "Guidance" links in sequence or by going directly to <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1520/>. A free copy of Adobe Acrobat Reader is available from <http://www.adobe.com/products/acrobat/readstep.html>.

FOR FURTHER INFORMATION CONTACT: For further information regarding NUREG-1520, contact Yawar Faraz, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone (301) 415-8113.

SUPPLEMENTARY INFORMATION:

Background

The Commission promulgated a major amendment to 10 CFR part 70 on

September 18, 2000 (65 FR 56211). The amendment, which primarily involved the addition of subpart H to 10 CFR part 70, identifies appropriate consequence criteria and the level of protection needed to prevent or mitigate accidents that equal or exceed these criteria; requires affected licensees to perform an integrated safety analysis (ISA) to identify potential accidents at the facility and the items relied on for safety necessary to prevent these potential accidents and/or mitigate their consequences; requires the implementation of measures to ensure that the items relied on for safety are available and reliable to perform their function when needed; requires the inclusion of the safety bases, including a summary of the ISA, with the license application; and allows for licensees to make certain changes to their safety program and facilities without prior NRC approval. After revising part 70, the NRC staff updated the existing draft part 70 SRP to address the new requirements. As it had done in revising the regulations in part 70, the NRC staff worked closely with the stakeholders in developing the guidance contained in the SRP. The part 70 stakeholders included representatives of the fuel cycle industry, private citizens, and other groups who declared an interest. The staff had previously issued a separate SRP on the licensing of a mixed oxide (MOX) fuel fabrication facility. The MOX SRP was published in August 2000 as NUREG-1718 and is guiding the staff's ongoing review of the proposed MOX facility.

Dated at Rockville, Maryland, this 18th day of April, 2002.

For the Nuclear Regulatory Commission.

Daniel M. Gillen,

Chief, Fuel Cycle Facilities Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon written request, copies available from: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

Extension:

Rule 11Ab2-1 and Form SIP, SEC File No. 270-23, OMB Control No. 3235-0043.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission

("Commission") has submitted to the Office of Management and Budget a request for extension of the previously approved collection of information discussed below.

Rule 11Ab2-1 (Form of Application and Amendments) and Form SIP establish the procedures by which a Securities Information Processor ("SIP") files and amends its SIP registration form. The information filed with the Commission pursuant to Rule 11Ab2-1 and Form SIP is designed to provide the Commission with the information necessary to make the required findings under the Securities Exchange Act of 1934 ("Act") before granting the SIP's application for registration. In addition, the requirement that a SIP file an amendment to correct any inaccurate information is designed to assure that the Commission has current, accurate information with respect to the SIP. This information is also made available to members of the public.

Only exclusive SIPs are required to register with the Commission. An exclusive SIP is a SIP that engages on an exclusive basis on behalf of any national securities exchange or registered securities association, or any national securities exchange or registered securities association which engages on an exclusive basis on its own behalf, in collecting, processing, or preparing for distribution or publication, any information with respect to (i) transactions or quotations on or effected or made by means of any facility of such exchange or (ii) quotations distributed or published by means of any electronic quotation system operated by such association. The federal securities laws require that before the Commission may approve the registration of an exclusive SIP, it must make certain mandatory findings. It takes a SIP applicant approximately 400 hours to prepare documents, which include sufficient information to enable the Commission to make those findings. Currently, there are only two exclusive SIPs registered with the Commission: The Securities Information Automation Corporation ("SIAC") and The Nasdaq Stock Market, Inc. ("Nasdaq"). SIAC and Nasdaq are required to keep the information on file with the Commission current, which entails filing a form SIP annually to update information. Accordingly, the annual reporting and recordkeeping burden for Rule 11Ab2-1 and Form SIP is 400 hours. This annual reporting and recordkeeping burden does not include the burden hours or cost of amending a Form SIP because the Commission has already overstated the compliance burdens by assuming that the Commission will receive one initial

registration pursuant to Rule 11Ab2-1 on Form SIP a year.

Rule 11Ab2-1 and Form SIP do not impose a retention period for any recordkeeping requirements. Completing and filing Form SIP is mandatory before an entity may become an exclusive SIP. Except in cases where confidential treatment is requested by an applicant and granted by the Commission pursuant to the Freedom of Information Act and the rules of the Commission thereunder, information provided in the Form SIP will be routinely available for public inspection. Please note that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

Written comments regarding the above information should be directed to the following persons: (i) Desk Officer for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 10202, New Executive Office Building, Washington, DC 20503; and (ii) Michael E. Bartell, Associate Executive Director, Office of Information Technology, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Comments must be submitted to OMB within 30 days of this notice.

Dated: April 22, 2002.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-P

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

[Regulation S-X, SEC File No. 270-3 and OMB Control No. 3235-0009]

Upon Written Request, Copies Available From: Securities and Exchange Commission Office of Filings and Information Services Washington, DC 20549

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget a request for extension of the previously approved collection of information discussed below.

Information collected and information prepared pursuant to Regulation S-X focus on the form and content of, and requirements for, financial statements

filed with periodic reports and in connection with the offer and sale of securities. Investors need reasonably current financial statements to make informed investment and voting decisions.

The potential respondents include all entities that file registration statements or reports pursuant to the Securities Act of 1933, the Securities Exchange Act of 1934, the Public Utility Holding Company Act of 1935, or the Investment Company Act of 1940.

Regulation S-X specifies the form and content of financial statements when those financial statements are required to be filed by other rules and forms under the federal securities laws. Compliance burdens associated with the financial statements are assigned to the rule or form that directly requires the financial statements to be filed, not to Regulation S-X. Instead, an estimated burden of one hour traditionally has been assigned to Regulation S-X for incidental reading of the regulation. The estimated average burden hours are solely for purposes of the Paperwork Reduction Act and are not derived from a comprehensive or even a representative survey or study of the costs of SEC rules or forms.

Recordkeeping retention periods are based on the disclosure required by various forms and rules other than Regulation S-X. In general, balance sheets for the preceding two fiscal years, income and cash flow statements for the preceding three fiscal years, and condensed quarterly financial statements must be filed with the Commission. Five year summary financial information is required to be disclosed by some larger registrants.

Filing financial statements, when required by the governing rule or form, is mandatory. Because these statements are provided for the purpose of disseminating information to the securities markets, they are not kept confidential.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

General comments regarding the above information should be directed to the following persons: (i) Desk Officer for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; and (ii) Michael E. Bartell, Associate Executive Director, Office of Information Technology, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549. Comments
