SUPPLEMENTARY INFORMATION:

What Are EPA's "Information Quality Guidelines"?

EPA drafted *Guidelines for Ensuring and Maximizing the Quality, Objectivity, Utility, and Integrity of Information Disseminated by the Environmental Protection Agency* to comply with a new Office of Management and Budget (OMB) guideline (67 FR 8451, February 22, 2002). Section 515 of the "Treasury and General Government Appropriations Act for FY2001 (Pub. L. 106-554)" directed OMB to issue government-wide guidelines that "provide policy and procedural guidance to Federal agencies for ensuring and maximizing the quality, objectivity, utility, and integrity of information, including statistical information, disseminated by Federal agencies." EPA's "Information Quality Guidelines" will build upon on-going efforts to improve the quality of the data and analyses that are used to support Agency policy and regulatory decisions and programs.

EPA is seeking comments on many key areas of the "Information Quality Guidelines" developed thus far. Specific areas have been highlighted in a Request for Comments section of the "Information Quality Guidelines". After the comment period closes on May 31, 2002, EPA plans to submit the Agency's revised "Information Quality Guidelines" to OMB by July 1, 2002.
