Title: Evaluation of the Performance of Trust Functions Performed by Tribes under Self-Governance Compacts, 25 CFR part 1000, subpart O (OMB Control No. 1076-0146). This is a request for an extension of a currently approved information collection.

Abstract: This collection of information will be made to ensure compliance with 25 U.S.C. 458cc(d) which requires that the Secretary of the Interior monitor the performance of trust functions which have been assumed under Self-Governance funding agreements negotiated between the Secretary and an Indian Tribe/Consortia (hereinafter the respondent).

This information collection addresses those statutory and regulatory performance requirements imposed upon the respondent through the assumption of a particular trust function, through a formal Self-Governance agreement pursuant to the Self-Governance Act (Pub. L. 103-413) which, if not performed properly, may create imminent jeopardy to a trust asset. The information will be used by the Department of the Interior to determine if there is imminent jeopardy to any asset held in trust by the United States for an Indian Tribe or individual Indian that are being managed by a Tribe/Consortium on behalf of the United States pursuant to a Self-Governance agreement.

Burden Statement: There is no preliminary work nor is any follow-up work required of the respondents. There are no forms to complete. The annual hour burden is calculated by the amount of time that the reviewer spends at each program site interviewing the respondents and collecting file information. Currently there are 70 respondents. The time required ranges from 4 person/hours to 80 person/hours. Based on the size and complexity of the current programs, the average hours spent for each annual evaluation is estimated at 24 person/hours. $70 \times 24 = 1,680$ total burden hours per year for the collection of information.

Dated: April 18, 2002.

Neal A. McCaleb,

Assistant Secretary—Indian Affairs.
