[FRL–7204–9] Equipment Containing Ozone Depleting Substances at Industrial Bakeries—Extension

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of bakery partnership program; extension of time.

SUMMARY: On February 6, 2002, EPA announced in a Federal Register notice the Bakery Partnership Program. Now, EPA is responding to a request from the baking industry for an extension of time to complete pollution prevention projects, namely substituting non-ozone depleting substances (non-ODS) for the refrigerants in certain baking equipment. Due to supply difficulties, suppliers of the alternative refrigerants can not complete delivery of the product for customers even though orders have been placed before the April 2002 start date of this voluntary program.

The conversion to a non-ODS system will be waivered for those appliances that were fully converted prior to the new deadline. The conversion to a non-ODS system must be completed and the non-ODS system must be fully operational by close of business on May 31, 2002 in order to qualify for this treatment.

Dated: April 24, 2002.
Richard Biondi, Associate Director, Air Enforcement Division.

FEDERAL REGISTER NOTICES
