

Protection of Children

The Coast Guard has analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Environment

The Coast Guard has considered the environmental impact of this rule and concluded that, under Figure 2-1, paragraph 34(g) of Commandant Instruction M16475.1D, this rule is categorically excluded from further environmental documentation. A "Categorical Exclusion Determination" is available in the docket for inspection or copying where indicated under ADDRESSES.

Energy Effects

The Coast Guard has analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. It has not been designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Hazardous Waste Management System; Identification and Listing of Hazardous Waste: Spent Catalysts From Dual-Purpose Petroleum Hydroprocessing Reactors

AGENCY: Environmental Protection Agency.

ACTION: Notice of availability of response to comments on the scope of petroleum hazardous waste listings.

SUMMARY: The Environmental Protection Agency (EPA) today is announcing its decision to maintain its interpretation that under RCRA regulations, spent catalyst wastes removed from dual purpose hydroprocessing reactors at petroleum refining facilities are listed hazardous wastes. This interpretation was previously announced in Agency memoranda dated November 29, 1999 and June 1, 2000. In a **Federal Register** notice published July 5, 2001 (66 FR 35379), EPA announced that it was providing the public an opportunity to comment on the interpretation set forth in these memoranda and that the Agency would issue a second **Federal Register** notice that would announce EPA's decision and provide responses to those comments received. EPA's responses are provided in today's document and in a background document, "Response to Comments: July 5, 2001 FR Notice on Spent Catalysts from Dual-Purpose Petroleum Hydroprocessing Reactors." The regulations addressed in the memoranda and again in today's document were promulgated under the Resource Conservation and Recovery Act (RCRA) on August 6, 1998 (63 FR 42110).
