

wholesale, and service samples current with the business universe. Because of rapid changes in the marketplace caused by the emergence of new businesses, the deaths of others, transfer of ownership, mergers, and so forth, on a quarterly basis the Census Bureau canvasses a sample of new Employer Identification Numbers (EINs) obtained from the Internal Revenue Service (IRS) and the Social Security Administration (SSA). Each selected firm is canvassed once for kind of business classification, measure of size, and company affiliation on the establishments associated with the new EIN. In essence, from the perspective of the business firm, this is a one time collection of data. A different sample of EINs is canvassed four times a year.

We are revising the SQ-CLASS to improve the flow of the questions as well as to provide information needed to assign kind-of-business codes based on the North American Industry Classification System (NAICS).

Foreign-Trade Zones Board

[Docket 21-2002]

Foreign-Trade Zone 113—Midlothian, TX; Request for Processing Authority, Siemens Westinghouse Power Corporation (Industrial Power Generating Equipment)

An application has been submitted to the Foreign-Trade Zones Board (the Board) by Trade Zone Operations, Inc., operator of FTZ 113, pursuant to section 400.28(a)(2) of the Board's regulations (15 CFR part 400), requesting authority on behalf of Siemens Westinghouse Power Corporation (SWPC) to process foreign-origin and domestic industrial power generating equipment under FTZ procedures within FTZ 113. It was formally filed on April 29, 2002.

SWPC is a producer of large industrial power generating turbines and generators that are installed in combined-cycle power plants operated by electric generation utilities. In the proposed processing activity (as defined in § 400.2(l)), foreign-origin steam turbines with a capacity of greater than 40 megawatts (HTSUS 8406.81.1070) would be admitted to the zone under nonprivileged foreign status (19 CFR 146.42) and U.S.-produced electric generators would be admitted under domestic status on a nonconcurrent basis. The turbines and generators would then be transferred from the zone in a combined Customs entry under the classification of electric generating sets (HTSUS 8502.39.0000), as provided by specific Customs rulings. The company indicates that this activity would occur on a recurring regular basis.

FTZ procedures would exempt SWPC from Customs duty payments on the foreign power generation turbines processed for export as electric generating sets. On withdrawals from the zone for Customs entry, SWPC would be able to elect the duty rate that applies to electric generator sets (2.5%) for the foreign turbines (6.7%). The application indicates that the savings from FTZ procedures would help

improve the SWPC's international competitiveness.

Public comment on the application is invited from interested parties.

Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the following addresses:

1. *Submissions via Express/Package Delivery Services:* Foreign-Trade Zones Board, U.S. Department of Commerce, Franklin Court Building-Suite 4100W, 1099 14th Street, NW., Washington, DC 20005; or,

2. *Submissions via the U.S. Postal Service:* Foreign-Trade Zones Board, U.S. Department of Commerce, FCB-4100W, 1401 Constitution Ave., NW., Washington, DC 20230.

A copy of the application will be available for public inspection at the Office of the Foreign-Trade Zones Board's Executive Secretary at address No. 1 listed above.

I. Abstract

The OAS Model Regulations and the Firearms Convention require the government of importing States to issue an Import Certificate to the importer of firearms and the government of exporting States to issue licenses for the firearms.

This rule imposes two information collection requirements. The first requirement is the import certificate as support documentation for exports destined to Convention Signatories. The second requirement is the imposition of a licensing requirement for Firearms Convention items destined to Canada, a Convention Signatory. Previously, such items were exported to Canada without a license.

Notice of Preliminary Determination of Sales at Less Than Fair Value, Postponement of Final Determination, and Preliminary Negative Determination of Critical Circumstances: Certain Cold-Rolled Carbon Steel Flat Products From Argentina

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of preliminary determination of sales at less than fair value and preliminary negative determination of critical circumstances.

SUMMARY: We preliminarily determine that certain cold-rolled carbon steel flat products from Argentina are being, or are likely to be, sold in the United States at less than fair value, as provided in section 733(b) of the Tariff Act of 1930, as amended. In addition, we preliminarily determine that critical circumstances do not exist for imports of cold-rolled carbon steel flat products from Argentina.

Interested parties are invited to comment on this preliminary determination.

EFFECTIVE DATE: May 9, 2002.

FOR FURTHER INFORMATION CONTACT: J. David Dirstine, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-4033.

SUPPLEMENTARY INFORMATION:

The Applicable Statute

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended ("the Act"), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act. In addition, unless

Background

Since the initiation of this investigation (*Initiation of Antidumping Duty Investigations: Certain Cold-Rolled Carbon Steel Flat Products From Argentina, Australia, Belgium, Brazil, France, Germany, India, Japan, Korea, the Netherlands, New Zealand, the People's Republic of China, the Russian Federation, South Africa, Spain, Sweden, Taiwan, Thailand, Turkey and Venezuela*, 66 FR 54198 (October 26, 2001) ("Initiation Notice")), the following events have occurred.

On November 13, 2001, the United States International Trade Commission ("ITC") preliminarily determined that there is a reasonable indication that imports of certain cold-rolled steel products from Argentina are materially injuring the United States industry (see *Certain Cold-Rolled Steel Products From Argentina, Australia, Belgium, Brazil, France, Germany, India, Japan, Korea, the Netherlands, New Zealand, the People's Republic of China, the Russian Federation, South Africa, Spain, Sweden, Taiwan, Thailand, Turkey and Venezuela*, 66 FR 57985 (November 19, 2001)).

On November 29, 2001, we selected the largest producer/exporter of cold-rolled steel from Argentina as a mandatory respondent in this proceeding. (See Memorandum to Laurie Parkhill, Director Office 3, from The Team regarding Selection of Respondents dated November 29, 2001, for further details.) We issued the antidumping questionnaire to Siderar S.A.I.C. ("Siderar") on November 29, 2001.

On December 7, 2001, the petitioners¹ alleged that there is a reasonable basis to believe or suspect critical circumstances exist with respect to the antidumping investigations of cold-rolled carbon steel flat products from Argentina, Australia, China, India, the Netherlands, Russia, South Africa, South Korea, and Taiwan. On December 14, 2001, the petitioners supplemented

¹ The petitioners in the concurrent antidumping duty investigations are Bethlehem Steel Corporation, LTV Steel Company, National Steel Corporation, Nucor Corporation, Steel Dynamics, Inc., United States Steel LLC, WCI Steel, Inc., and Weirton Steel Corporation. Weirton Steel Corporation is not a petitioner in the Netherlands case. Effective January 1, 2002, the party previously known as "United States Steel LLC" changed its name to "United States Steel Corporation."
