SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0835.

Title: Ship Inspection Certificates.

Form No.: FCC Forms 806, 824, 827, and 829.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, state, local or tribal government.

Number of Respondents: 3,770 respondents; 1,210 responses annually.
Estimated Time Per Response: .084 hours (average).

Frequency of Response: On occasion, annual and five year reporting requirements, recordkeeping requirement and third party disclosure requirement.

Total Annual Burden: 102 hours.

Total Annual Cost: N/A.

Needs and Uses: The Communications Act requires the inspection of small passenger ships at least once every five years. The Safety Convention (which the United States is signatory) also requires an annual inspection, however, permits an Administrator to entrust the inspections to either surveyors nominated for the purpose or to organizations recognized by it. Therefore, the United States can have other entities conduct the radio inspection of vessels for compliance with the Safety Convention. The Commission adopted rules that require this inspection to be conducted by a FCC-licensed technician. This requirement reduces administrative burden on the public and the Commission. The purpose of the information is to ensure that the inspection was successful so that passengers and crew members of certain United States ships have access to distress communications in case of an emergency.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.
