Verification

In accordance with section 782(i) of the Act, we verified the information used in making our final determination. We followed standard verification procedures, including meeting with government and company officials, and examining relevant accounting records and original source documents. Our verification results are outlined in detail in the public versions of the verification reports, which are on file in the Central Records Unit of the Department of Commerce, Room B-099.

Summary

The total net countervailable subsidy rates for Olmue, Comfrut, and Frucol are 0.01, 0.16 and 0.65 percent, *ad valorem*, respectively. All of these rates are *de minimis*. Therefore, we determine that countervailable subsidies are not being provided to producers or exporters of IQF red raspberries in Chile.

Suspension of Liquidation

In the *Preliminary Determination*, the total net countervailable subsidy rates for all the responding companies were *de minimis* and, therefore, we did not suspend liquidation. For the instant determination, because the rates for all the responding companies remain *de minimis*, we are not directing the Customs Service to suspend liquidation of IQF red raspberries from Chile.

Notification of the International Trade Commission

In accordance with section 705(d) of the Act, we have notified the International Trade Commission of our determination.

Return or Destruction of Proprietary Information

This notice will serve as the only reminder to parties subject to Administrative Protective Order of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a). Failure to comply is a violation of the APO.

This determination is published pursuant to sections 705(d) and 777(i) of the Act.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Oceanic and Atmospheric Administration (NOAA) collects information to implement the International Dolphin Conservation Program Act. The Act allows entry of

yellowfin tuna into the United States, under specific conditions, from nations in the Program that would otherwise be under embargo. The Act also allows U.S. fishing vessels to participate in the yellowfin tuna fishery in the eastern tropical Pacific Ocean on terms equivalent with the vessels of other nations. NOAA collects information to allow tracking and verification of "dolphin safe" and "non-dolphin safe" tuna products from catch through the U.S. market.

NOAA has modified the existing information collection by requiring that any wholesaler or distributor of any tuna or tuna products labeled as "dolphin-safe" produce documentary evidence concerning the origin of the tuna or products within 30 days of receiving a written request from the National Marine Fisheries Service (NMFS). NMFS expects that this will result in an annual information burden on 20 additional respondents.

In addition, NMFS has modified the existing information collection by eliminating the requirement that canneries provide 48 hours notice of receipt of tuna shipment and eliminating the requirement that processors provide NMFS with copies of their receiving reports on a real-time basis. This has resulted in an overall reduction in the number of annual burden hours and the estimated annual cost to the public of this information collection.

National Oceanic and Atmospheric Administration

[I.D. 050102H]

Taking and Importing of Marine Mammals

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of embargo for Peru.

SUMMARY: On May 17, 2002, the Assistant Administrator for Fisheries, NMFS, acted to prohibit the importation into the United States from Peru of yellowfin tuna and yellowfin tuna products harvested by purse seine in the eastern tropical Pacific Ocean (ETP). NMFS is required to take this action because Peru harvests tuna in the ETP with purse seine vessels with greater than 400 short tons (362.8 metric tons) carrying capacity and has not received an "affirmative finding" as required by regulations. This ban remains in effect for Peru until an affirmative finding has been granted by the Assistant Administrator.

DATES: Effective May 17, 2002.

FOR FURTHER INFORMATION CONTACT:

Allison Routt, Southwest Region, NMFS, 501 West Ocean Boulevard, Suite 4200, Long Beach, CA, 90802-4213, Phone 562-980-4020, Fax 562-980-4027.

SUPPLEMENTARY INFORMATION: In order to export to the United States yellowfin tuna harvested by purse seine in the ETP, the Marine Mammal Protection Act (MMPA) requires a nation that has purse seine vessels with over 400 short tons (362.8 metric tons) carrying capacity fishing for tuna in the ETP (i.e., a harvesting nation) submit documentary evidence to the Assistant Administrator requesting an affirmative finding. The process for such requests is described in regulations at 50 CFR 216.24(f)(9). Based
