

**D. Computation.**

1. *Determination of Adjustment.* Each Monday, or first working day thereafter if the Monday falls on a Federal Holiday (hereinafter referred to as "Monday"), the Department of Energy, Energy Information Administration (EIA), posts the National U.S. Average diesel fuel price. If a FRGRA is justified under subsection D of this section based on each Monday's posting, the FRGRA applies to shipments picked up the ensuing Wednesday through the following Tuesday (Note: shipment pickup date is controlling for FRGRA purposes). A TSP is responsible for monitoring diesel fuel prices each Monday using one of the sources identified below to determine whether a FRGRA will apply for the one-week period beginning the upcoming Wednesday through Tuesday of the following week.

- EIA Web site: <http://www.eia.doe.gov/>
- EIA Weekly Petroleum Status Report

- EIA Hotline: (202) 586-6966

2. *Amount of Adjustment.* If on any given Monday National U.S. Average disease fuel prices, as published in one of the sources identified in subsection D1, exceed or fall below the neutral range specified in the table under subsection D2c, a TSP will compute its FRGRA under subsection D2a or b, as appropriate.

a. If the National U.S. Average diesel fuel prices exceed the neutral range, the TSP may increase its line-haul charge by the appropriate percentage specified in the table under subsection D2c; or

b. If the National U.S. Average diesel fuel prices fall below the neutral range, the TSP must decrease its line-haul charge by the percentage specified in the table under subsection D2c.

c. *Increase/Decrease Schedule:* The following table specifies the percentage FRGRA to be applied based on diesel fuel cost per gallon:

| Cost per gallon     | Percent decrease | Percent increase |
|---------------------|------------------|------------------|
|                     | 1                | .....            |
| Neutral range:      |                  |                  |
| \$1.00-\$1.10 ..... |                  | 0                |
| \$1.11-\$1.15 ..... |                  | 0.5              |
| \$1.16-\$1.20 ..... |                  | 1.0              |
| \$1.21-\$1.25 ..... |                  | 1.5              |
| \$1.26-\$1.30 ..... |                  | 2.0              |
| \$1.31-\$1.35 ..... |                  | 2.5              |
| \$1.36-\$1.40 ..... |                  | 3.0              |
| \$1.41-\$1.45 ..... |                  | 3.5              |
|                     | 2                | .....            |

<sup>1</sup>For each 5 cents per gallon below \$1.00, subtract 0.5%.

<sup>2</sup>For each 5 cents per gallon above \$1.45, add 0.5%.

E. *Billing Procedures.* A TSP must clearly show the amount of any diesel fuel rate adjustment, either an increase or a decrease (discount), as a separate line item on all affected freight bills, Transportation Service Orders (TSO's), or bills of lading.
