

(66 FR 49924). On May 8, 2002, the Department published, in the **Federal Register**, a notice to extend the deadline for the preliminary results in this administrative review until May 24, 2002. See *Certain Small Diameter Carbon and Alloy Seamless Standard, Line and Pressure Pipe from Romania: Extension of Preliminary Results of Antidumping Duty Administrative Review*, 67 FR 30874 (May 8, 2002). On May 10, 2002, the Romanian Ministry of Foreign Affairs filed a request for revocation of Romania's non-market economy status.

Extension of Time Limit for Preliminary Results of Review

We determine that it is not practicable to complete the preliminary results of this review within the extended time limit. Specifically, additional time is necessary to consider the proper surrogate valuation of the factors of production. In addition, the Department only recently received a request from the Romanian Ministry of Foreign Affairs to revoke Romania's non-market economy status in either a free standing proceeding or in this administrative review. Additional time is necessary to consider this request. As such, it will not be possible to complete the preliminary analysis in this review by May 24, 2002. Therefore, the Department is fully extending the time limit for completion of the preliminary results until no later than September 3, 2002. We intend to issue the final results no later than 120 days after publication of the preliminary results notice.

This extension is in accordance with section 751(a)(3)(A) of the Act.

Dated: May 21, 2002.

Bernard Carreau,

Deputy Assistant Secretary for AD/CVD Enforcement II.

Assessment Modeling Paper on Large Coastal Sharks

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability of large coastal shark assessment modeling paper; request for comments; announcement of large coastal shark stock assessment workshop.

SUMMARY: NMFS announces the availability of a paper that evaluates the range of sensitivity trials and alternative model structures recommended by independent peer reviews of the 1998 large coastal shark (LCS) stock assessment. The paper describes the sensitivity trial results obtained from using 1998 data to evaluate the recommended range of alternative model/data formulations. NMFS requests public comment on the paper and whether the recommendations of the independent peer reviews have been adequately addressed. NMFS also announces the 2002 LCS stock evaluation workshop (SEW) will be held June 24-28, 2002, in the NMFS Panama City Laboratory, 3500 Delwood Beach Road, Panama City, FL 32408.

DATES: Written comments must be received no later than 5 p.m., eastern standard time, on June 5, 2002.

ADDRESSES: Written comments on the modeling paper should be sent to Margo Schulze-Haugen, Highly Migratory Species Management Division (F/SF1), National Marine Fisheries Service (NMFS), 1315 East-West Highway, Silver Spring, MD 20910, or may be sent via facsimile (fax) to 301-713-1917. SUPPLEMENTARY INFORMATION: The Atlantic shark fisheries are managed under the authority of the Magnuson-Stevens Fishery Conservation and Management Act. The Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks (HMS FMP) is implemented by regulations at 50 CFR part 635.

On November 21, 2000, Southern Offshore Fishing Association and other commercial fishermen and dealers (plaintiffs) and NMFS reached a settlement agreement that prescribed actions to be taken by both parties in order to resolve issues raised in two lawsuits brought against NMFS by the plaintiffs. On December 7, 2000, Judge Steven D. Merryday of the U.S. District Court for the Middle District of Florida entered an order approving the settlement agreement.

The settlement agreement, *inter alia*, required NMFS to obtain an independent review of the 1998 LCS stock assessment. In October 2001, NMFS received the complete peer reviews of the 1998 LCS stock assessment. The reviews contained various recommendations for future LCS stock assessments.

The modeling paper evaluates the range of sensitivity trials and alternative model structures recommended by the independent peer reviews of the 1998 LCS stock assessment. The paper describes the sensitivity trial results obtained from using 1998 data to evaluate the recommended range of alternative model/data formulations. NMFS requests public comment on the paper and whether the recommendations of the peer reviews have been adequately addressed. The paper is now available on the NMFS website (<http://www.nmfs.noaa.gov/sfa/hmspg.html>). Hard copies of the document are available upon request (see **ADDRESSES**).
