**FPL Energy Maine Hydro, LLC,

Notice of Availability of Environmental  
Assessment**

May 21, 2002.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for an original license for the Upper and Middle Dam Storage Project located on the Rapid River, in Oxford and Franklin Counties, Maine, and has prepared an Environmental Assessment (EA) for the project. In addition, the EA analyzes the proposed permanent flow pursuant to Article 32 of the existing license for the Azischohos Project, located on the Magalloway River, in Oxford County, Maine. In the EA, the Commission's staff has analyzed the potential environmental effects of the project, and permanent minimum flow and has concluded that approval of the project, with appropriate environmental

measures, would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the EA are available for review in the Public Reference Branch, Room 2-A, of the Commission's offices at 888 First Street, NE., Washington, DC 20426. The EA may also be viewed on the Web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" and follow the instructions. Please call (202) 208-2222 for assistance.
