SUPPLEMENTARY INFORMATION:

I. Abstract

The Endangered Species Act of 1973 (ESA; 16 U.S.C. 1531 *et. seq.*) imposed prohibitions against the taking of endangered species. Section 10 of the ESA allows permits authorizing the taking of endangered species for research/enhancement purposes. The corresponding regulations established procedures for persons to apply for such permits. In addition, the regulations set forth specific reporting requirements for such permit holders.

The regulations contain two sets of information collections: (1) applications for research/enhancement permits, and (2) reporting requirements for permits issued.

The required information is used to evaluate the impacts of the proposed activity on endangered species, to make the determinations required by the ESA prior to issuing a permit, and to establish appropriate permit conditions. In order to issue permits as under ESA section 10(a)(1)(A), the National Marine Fisheries Service (NMFS) must determine that (1) such exceptions were applied for in good faith, (2) if granted and exercised will not operate to the disadvantage of such endangered species, and (3) will be consistent with the purposes and policy set forth in section 2 of the ESA.

II. Method of Collection

The collection of information will be in the form of applications, annual reports, and final reports responding to requirements in regulations and instructions; no forms are required.
