

Status: Portions of the meeting will be closed to the public in accordance with provisions set forth in section 552b(c) (4) and (6), Title 5 U.S.C., and the Determination of the Director, Management Analysis and Services Office, CDC, pursuant to Public Law 92-463.

Matters to Be Discussed: The meeting will include the review, discussion, and evaluation of applications received in response to PA# 02003.

For Further Information Contact: Theodore J. Meinhardt, Associate Director for Management and Operations, 4770 Buford Highway, MS-K38, Atlanta, Georgia 30341, 770-488-2505.

The Director, Management Analysis and Services Office has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Dated: June 3, 2002.

Joe E. Salter,

Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention (CDC).

Update on the Findings of the Hanford Thyroid Disease Study Final Report

The National Center for Environmental Health (NCEH) of the Centers for Disease Control and Prevention (CDC) and Fred Hutchinson Cancer Research Center (FHCRC) announces the following public meeting.

Name: Update on the Findings of the Hanford Thyroid Disease Study Final Report.

Time and Date: 6 p.m.-8:30 p.m., June 21, 2002.

Place: Red Lion Inn-The Hanford House, 802 Washington Way, Richland, Washington 99352, telephone 509-946-7611.

Status: Open to the public, limited only by the space available. The meeting room accommodates approximately 200 people.

Background: In 1986, Freedom of Information Act requests led the Department of Energy to make public thousands of pages of documentation indicating that large quantities of radioactive materials were released into the atmosphere from the Hanford Nuclear Site. The radioactivity was a byproduct of nuclear weapons production from December 1944 through 1957. Most of the radioactivity was released in the form of Iodine-131, which concentrates in the thyroid glands of those who eat food contaminated by it. The amount of Iodine-131 released during this period was more than half a million curies, prompting concern

regarding thyroid health effects. The government convened a special Hanford Health Effects Review Panel to review the documents and recommend steps to evaluate possible health consequences among those who live near the Hanford Nuclear Site.

Two studies were undertaken as a result of these recommendations. The first was the Hanford Environmental Dose Reconstruction Project which estimated potential radiation doses to the thyroid among persons exposed to Hanford Iodine-131 releases. The second was the Hanford Thyroid Disease Study. This study was designed to determine whether the exposures from Hanford resulted in an increased risk of thyroid disease in a randomly selected study population. In late 1989, a contract to perform this study was awarded to the FHCRC.

Purpose: The purpose of the study was to determine if there was an increased risk for thyroid disease among a randomly selected study population exposed to atmospheric releases of radioactive Iodine-131 from the Hanford Nuclear Site in eastern Washington State during the 1940s and 1950s. The study, mandated by Congress, was conducted by a team of scientists at the FHCRC under contract from the CDC.

Matters to Be Discussed: Agenda items include a presentation from NCEH regarding the findings of the Hanford Thyroid Disease Study Final Report. There will be time for public input, questions, poster sessions, and comments.

All agenda items are subject to change as priorities dictate.

For Further Information Contact: General information may be obtained from Ms. Maire Holcombe, Health Communicator, Radiation Studies Branch (RSB), Division of Environmental Hazards and Health Effects (DEHHE), NCEH, CDC, 1600 Clifton Road (E-39), Atlanta, Georgia 30333, telephone 404-498-1809. Technical information may be obtained from Dr. Paul Garbe, Associate Director for Science, DEHHE, NCEH, CDC, 1600 Clifton Road (E-39), Atlanta, Georgia 30333 telephone 404-498-1305.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities for both CDC and ATSDR.

Dated: June 3, 2002.

Joseph Salter,

Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare and Medicaid Services

[Document Identifier: CMS-R-138]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare and Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare and Medicaid Services (CMS) (formerly known as the Health Care Financing Administration (HCFA)), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Type of Information Collection Request: Extension of a currently approved collection; *Title of Information Collection:* Medicare Geographic Classification Review Board (MGCRG) Procedures and Criteria and Supporting Regulations in 42 CFR, Section 412.256; *Form No.:* CMS-R-138 (OMB #0938-0573); *Use:* This collection sets up an application process for prospective payment system hospitals who choose to appeal their geographic status to the Medicare Geographic Classification Review board (MGCRB); *Frequency:* Annually; *Affected Public:* Business or other for-profit, and Not-for-profit institutions; *Number of Respondents:* 650; *Total Annual Responses:* 650; *Total Annual Hours:* 650.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, access CMS's Web Site address at <http://www.hcfa.gov/regs/prdact95.htm>, or E-mail your request, including your address, phone number, OMB number, and CMS document identifier, to Paperwork@hhs.gov, or call the Reports
