

Applicant's proposal to construct the museum and technology center qualifies as a "low-effect" plan for the following reasons:

1. Approval of the HCP would result in minor or negligible effects on the desert tortoise and its habitat. The Service does not anticipate significant direct or cumulative effects to the desert tortoise resulting from development of the project site.

2. Approval of the HCP would not have adverse effects on unique geographic, historic or cultural sites, or involve unique or unknown environmental risks.

3. Approval of the HCP would not result in any cumulative or growth inducing impacts and, therefore, would not result in significant adverse effects on public health or safety.

4. The project does not require compliance with Executive Order 11988 (Floodplain Management), Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act, nor does it threaten to violate any Federal, State, local or tribal laws.

5. Approval of the HCP would not establish a precedent for future actions or represent a decision in principle about future actions with potentially significant environmental effects.

The Service therefore has made a preliminary determination that approval of the HCP qualifies as a categorical exclusion under the National Environmental Policy Act, as provided by the Department of the Interior Manual (516 DM 2, Appendix 1 and 516 DM 6, Appendix 1). Based upon this preliminary determination, we do not intend to prepare further National Environmental Policy Act documentation. The Service will consider public comments in making its final determination on whether to prepare such additional documentation.

The Service provides this notice pursuant to section 10(c) of the Endangered Species Act. We will evaluate the permit application, the HCP, and comments submitted thereon to determine whether the application meets the requirements of section 10 (a) of the Act. If the requirements are met, the Service will issue a permit to Nye County. We will make the final permit decision no sooner than 30 days from the date of this notice.

Dated: May 31, 2002.

**AGENCY:** Minerals Management Service (MMS), Interior.

**ACTION:** Notice of extension and revision of a currently approved information collection (OMB Control Number 1010-0114).

**SUMMARY:** To comply with the Paperwork Reduction Act of 1995 (PRA), we are submitting to OMB for review and approval an information collection request (ICR) for the paperwork requirements in the regulations under 30 CFR part 250, subpart A, General, and associated forms and Notices to Lessees and Operators (NTLs).

**DATES:** Submit written comments by July 10, 2002.

**FOR FURTHER INFORMATION CONTACT:** Alexis London, Rules Processing Team, telephone (703) 787-1600. You may also contact Alexis London to obtain a copy at no cost of the forms and regulations that require the subject collection of information.

#### SUPPLEMENTARY INFORMATION:

*Title:* 30 CFR part 250, subpart A, General.

*Forms:* MMS-132, Hurricane and Tropical Storm Evacuation and Production Curtailment Statistics, Gulf of Mexico Region (GOMR); MMS-1132, Designation of Operator; MMS-1832, Notification of Incidents of Noncompliance (INCs).

*OMB Control Number:* 1010-0114.

*Abstract:* The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations to administer leasing of the OCS. Such rules and regulations will apply to all operations conducted under a lease. Operations on the OCS must preserve, protect, and develop oil and natural gas

resources in a manner which is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition. Section 1332(6) requires that "operations in the [Outer Continental Shelf] should be conducted in a safe manner by well trained personnel using technology, precautions, and other techniques sufficient to prevent or minimize the likelihood of blowouts, loss of well control, fires, spillages, physical obstructions to other users of the waters or subsoil and seabed, or other occurrences which may cause damage to the environment or to property or endanger life or health."

Federal policy and statutes require us to recover the cost of services that confer special benefits to identifiable non-Federal recipients. Section 250.165 requires a State lessee to pay a fee when applying for a right-of-use and easement on the OCS. The Independent Offices Appropriation Act (31 U.S.C. 9701), OMB Circular A-25, and the Omnibus Appropriations Bill (Pub. L. 104-133, 110 Stat. 1321, April 26, 1996) authorize agencies to collect these fees to reimburse us for the cost to process applications or assessments. This fee is the same as that required for filing pipeline right-of-way applications as specified in § 250.1010(a).

This notice concerns the reporting and recordkeeping elements of the 30 CFR part 250, subpart A, General regulations and related forms and NTLs that clarify and provide additional guidance on some aspects of the regulations. Responses are mandatory. No questions of a "sensitive" nature are asked. MMS will protect proprietary information according to 30 CFR 250.196 (Data and information to be made available to the public), 30 CFR part 252 (OCS Oil and Gas Information Program), and the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2). MMS OCS Regions use the information collected under subpart A to ensure that operations on the OCS are carried out in a safe and pollution-free manner, do not interfere with the rights of other users on the OCS, and balance the development of OCS resources with the protection of the environment.

*Frequency:* The frequency is "on occasion" for most of the requirements in subpart A. The form MMS-132 is

submitted daily during the period of emergency.

*Estimated Number and Description of Respondents:* Approximately one State and 130 Federal OCS oil and gas or sulphur lessees.

*Estimated Reporting and Recordkeeping "Hour" Burden:* The estimated annual "hour" burden for this information collection is a total of 22,467 burden hours. The following chart details the individual components and estimated hour burdens. In

calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burdens.

*Public Disclosure Statement:* The PRA (44 U.S.C. 3501, *et seq.*) provides that an

agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a

collection of information, you are not obligated to respond.

**Comments:** Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency \*\*\* to provide notice \*\*\* and otherwise consult with members of the public and affected agencies concerning each proposed collection of information \*\*\* Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

To comply with the public consultation process, on November 26, 2001, we published a **Federal Register** notice (66 FR 59024) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In addition, § 250.199 provides the OMB control numbers for the information collection requirements imposed by the 30 CFR part 250 regulations and forms. That regulation also informs the public that they may comment at any time on these collections of information and provides the address to which they should send comments. We have received no comments in response to these efforts. The required PRA public disclosure and comment statements are displayed on forms MMS-132, MMS-1123, and MMS-1832.

If you wish to comment in response to this notice, send your comments directly to the offices listed under the **ADDRESSES** section of this notice. The OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by July 10, 2002.

**Public Comment Policy:** Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the record, which we will honor to the extent allowable by law. There may be circumstances in which we would withhold from the record a respondent's identity, as allowable by the law. If you wish us to withhold your name and/or address, you must state this

prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.
