

implemented two program evaluation reports for annual submission: Aggregate report of follow-up for contacts of tuberculosis, and Aggregate report of screening and preventive therapy for tuberculosis infection (OMB No. 0920-0457). The respondents for these reports are the 68 state and local tuberculosis control programs receiving federal cooperative agreement funding through DTBE. These reports replaced two, twice-yearly program management reports in the Tuberculosis Statistics and Program Evaluation Activity (OMB 0920-0026): Contact Follow-up (CDC 72.16) and Completion of Preventive

Therapy (CDC 72.21). The replacement reports emphasized treatment outcomes, high-priority target populations vulnerable to tuberculosis, and programmed electronic report entry and submission through the Tuberculosis Information Management System (TIMS).

No other federal agency collects this type of national TB data, and the Aggregate report of follow-up for contacts of tuberculosis, and Aggregate report of screening and preventive therapy for tuberculosis infection are the only data source about latent tuberculosis infection for monitoring

national progress toward tuberculosis elimination.

In addition to providing ongoing assistance about the preparation and utilization of these reports at the local and state levels of public health jurisdiction, CDC held three national training workshops about the reports and will convene additional workshops when requested by the respondents. CDC also provides respondents with technical support for the TIMS software (Electronic—100%, Use of Electronic Signatures—No). The annual burden to respondents is estimated to be 204 hours. There is no cost to respondents.

Respondents	Number of respondents	Number of responses/respondent	Avg. burden/response (in hours)	Total burden (in hours)
State & Local TB Control Programs	68	1	90/60	102
State & Local TB Control Programs	68	1	90/60	102
Total				204

Dated: May 31, 2002.

Julie Fishman,

Acting Associate Director for Policy, Planning and Evaluation, Centers for Disease Control and Prevention.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 498-1210. Send written comments to CDC, Desk Officer, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503. Written

comments should be received within 30 days of this notice.

Proposed Project: Surveillance for Bloodstream and Vascular Access Infections in Outpatient Hemodialysis Centers (0920-0442)—Revision—National Center for Infectious Diseases (NCID), NCID Centers for Disease Control and Prevention (CDC), is proposing to renew a study of bloodstream infections, vascular access infections, hospitalization, and antimicrobial starts at U.S. outpatient hemodialysis centers. Although bloodstream and vascular access infections are common in hemodialysis patients, there was previously no system to record and track these complications.

Participation in the proposed project is voluntary. Currently about 80-90 centers report data each month. We estimate that about 100 of the approximately 4,500 U.S. outpatient hemodialysis centers will participate in the coming years. Participating centers may collect data continuously, or may discontinue participation at any time; we estimate that the average center will participate for nine months. Each month, participating centers will record the number of hemodialysis patients they treat and maintain a log of all

hospitalizations and intravenous (IV) antimicrobial starts. For each hospitalization or IV antimicrobial start, further information (e.g., type of vascular access, clinical symptoms, presence of a vascular access infection, and blood culture results) will be collected. These data may be reported to CDC on paper forms or via a secure Internet site. CDC aggregates this data and generates reports which are sent to participating dialysis centers.

Centers that participate in the Internet-based reporting system may also analyze their own data and print out reports as desired. Rates of bloodstream infection, vascular access infection, and antimicrobial use per 1000 patient-days will be calculated.

Also, the percentage of antimicrobial starts for which a blood culture is performed will be calculated. Through use of these data, dialysis centers will be able to track rates of key infectious complications of hemodialysis. This will facilitate quality control improvements to reduce the incidence of infections, and clinical practice guidelines to improve use of antimicrobials. The total estimated annualized burden is 6,300 hours.

Form	Number of respondents	Number of responses/respondent	Average burden/response (in hours)
Agreement to participate	100	1	1
Census form	100	12	1
Log	100	12	1
Incident form	100	200	12/60

Dated: May 31, 2002.

Proposed Project: Annual Submission of the Quantity of Nicotine Contained in Smokeless Tobacco Products Manufactured, Imported, or Packaged in the United States (OMB No. 0920-0444)—Extension—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC). Oral use of smokeless tobacco represents a significant health risk, which can cause cancer and a number of noncancerous oral conditions, and can lead to nicotine addiction and dependence. The Office on Smoking and Health (OSH) within the National Center for Chronic Disease Prevention and Health Promotion, CDC has been delegated the authority for implementing major components of the Department of Health and Human Services' (HHS) tobacco and health program, including collection of tobacco ingredients information. HHS overall goal is to reduce death and disability resulting from cigarette smoking and other forms of tobacco use through programs of information, education and research.

The Comprehensive Smokeless Tobacco Health Education Act of 1986 (15 U.S.C. 4401 et seq., Pub. L. 99-252) requires that each person who manufactures, packages, or imports smokeless tobacco provide the Secretary of HHS annually with a report on the quantity of nicotine contained in smokeless tobacco products. This notice implements this nicotine reporting requirement. CDC is requesting OMB clearance to collect this information for three years. All companies are required to submit this information for all brands. A standard methodology for measurement of quantity of nicotine in smokeless tobacco has been developed. The methodology ("Protocol for Analysis of Nicotine, Total Moisture, and pH in Smokeless Tobacco Products") is intended to provide standardized measurement of nicotine, total moisture, and pH in smokeless tobacco products. This information should be submitted in the prescribed format. In addition, we ask that companies provide an electronic copy of this information on a floppy disk or CD-ROM. The annual burden for this data collection is 18,766 hours.

Respondents	Number of respondents	Number of responses/respondent	Average burden/response (in hrs.)
Tobacco manufacturers	11	1	1,706

Administration for Children and Families

Federal Allotments to State Developmental Disabilities Councils and Protection and Advocacy Formula Grant Programs for Fiscal Year 2003

AGENCY: Administration on Developmental Disabilities (ADD), Administration for Children and

Families, Department of Health and Human Services.
ACTION: Notification of Fiscal Year 2003 Federal allotments to State Developmental Disabilities Councils and Protection and Advocacy Formula grant programs.
SUMMARY: This notice sets forth Fiscal Year (FY) 2003 individual allotments and percentages of the total appropriation to States administering the State Developmental Disabilities Councils and Protection and Advocacy programs, pursuant to Section 122 and Section 142 of the Developmental Disabilities Assistance and Bill of Rights Act (Act). The allotment amounts are based upon the FY 2002 Budget Request and are contingent upon congressional appropriations for FY 2003. If Congress enacts and the President approves a different appropriation amount, the allotments will be adjusted accordingly. The State allotments will be available each year on the ADD homepage on the Internet: <http://www.acf.dhhs.gov/programs/add/>.
EFFECTIVE DATE: October 1, 2002.
