Authority

Scientific research and/or enhancement permits are issued under Section 10(a)(1)(A) of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531 *et. seq.*). Issuance of permits and permit modifications, as required by the ESA, is based on a finding that such permit/modifications: (1) are applied for in good faith; (2) if granted and exercised, would not operate to the disadvantage of the listed species that are the subject of the permit; and (3) are consistent with the purposes and policy of section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits. Permits and modifications are issued in accordance with and are subject to the ESA and NMFS regulations governing listed fish and wildlife permits (50 CFR Parts 222-226).

Those individuals requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the permit action summaries are those of the applicant and do not necessarily reflect the views of NMFS.

New Applications Received

Permit 1381

The City of Bellingham requests a 2-year permit for annual takes of juvenile, threatened, naturally produced and artificially propagated PS chinook salmon associated with research to be conducted in the Whatcom Creek estuary. The purpose of the study is to determine a baseline usage of the project area by juvenile salmonids in order to monitor the effectiveness of integrated cleanup and habitat restoration plans

implemented on the Holly Street Landfill. The City proposes to capture (using beach seines), anesthetize, handle, measure, and release up to 10 juvenile, naturally produced and 13 juvenile, artificially propagated PS chinook salmon. In addition, the City of Bellingham is requesting indirect mortality of up to one juvenile, naturally produced and one juvenile, artificially propagated PS chinook salmon as a result of the study.

Permit 1382

The Utah State University in Logan, UT (USU) requests a 3-year scientific research permit for annual takes of juvenile, threatened, MCR steelhead associated with a scientific research project proposed to occur in the Walla Walla River Subbasin in Washington and Oregon. The objective of the research is to assess the population densities and life-history characteristics of steelhead and bull trout (*Salvelinus confluentus*) in association with habitat quality and land use in the subbasin. Information collected from the research will be used in recovery planning and will provide a template for research, monitoring, and evaluation programs for steelhead and bull trout populations throughout the Walla Walla River Subbasin as well as other subbasins. Adult and juvenile, threatened, MCR steelhead are proposed to be observed/harassed during snorkel surveys. In addition, up to 10 MCR steelhead adults and up to 600 MCR steelhead juveniles are proposed to be captured, handled, and released using backpack electrofishing, seining, angling, and screw traps. Up to 3 percent of the ESA-listed juvenile steelhead handled may be indirectly killed.

Permit 1383

The U.S. Geological Survey in Cook, WA (USGS) requests a 3-year permit for annual takes of juvenile and adult, threatened, LCR chinook salmon; threatened, MCR steelhead; threatened, LCR steelhead; and threatened, CR chum salmon associated with research to be conducted in selected watersheds between Bonneville Dam and The Dalles Dam. The objectives of the study are to (1) determine abundance, distribution, and life history patterns of anadromous and resident fishes, (2) identify populations and determine the status of steelhead and cutthroat trout (*O. clarki*), (3) restore and recover salmonid habitat, and (4) assess sympatric relationships between listed species and cutthroat trout. The USGS proposes to observe/harass juvenile and adult chinook salmon and steelhead and capture (using electrofishing and angling
