POLICY JUSTIFICATIONTaipei Economic and Cultural Representative Office in the United States – AN/MPN-14(SS) Radar Sets

The Taipei Economic and Cultural Representative Office in the United States has requested a possible sale of three (3) AN/MPN-14(SS) radar sets, spare and repair parts, support and test equipment, radar modification kits, publications and technical documents, U.S. Government and contractor technical assistance, and other related elements of logistics support. This sale is consistent with United States law and policy as expressed in Public Law 96-8.

The proposed sale of radar sets will provide the recipient air traffic control (specifically, radar approach control) capabilities in and around their military's airfields. The recipient will have no difficulty absorbing these radar sets into its armed forces.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be ITT Industries of Van Nuys, California. There are no offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to recipient.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Title: Reporting Requirements Under EPA's Climate Leaders—EPA ICR No. xx.

Abstract: In an effort to aid U.S. implementation of its commitments in the United Nations Framework Convention on Climate Change, the President announced a Climate Change Strategy on February 14, 2002, wherein he set a national U.S. GHG intensity goal of 18% by 2012. Part of that strategy challenges companies to set

GHG reduction goals by working with EPA through the voluntary Climate Leaders program. EPA has developed this ICR to ensure that the program is credible by obtaining authorization to collect information from Climate Leaders Partners to ensure the Partners are meeting their GHG goals.

EPA has developed this ICR to obtain authorization to collect information from companies participating in Climate Leaders. Companies that join Climate Leaders voluntarily agree to the following: designating a Climate Leaders liaison; negotiating a corporate GHG reduction goal; and reporting to EPA, on an annual basis, the company's progress toward their reduction goal via Climate Leaders inventory protocol reporting forms. The information contained in the inventories of the companies that join Climate Leaders may be considered confidential business information and is maintained as such. EPA uses the data obtained from the companies to assess the success of the program in achieving its GHG reduction goals.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control
