#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

Under 35 U.S.C. 2 and 37 CFR 1.31–1.36 and 1.363, a patent applicant or assignee of record may grant power of attorney or authorization of agent to a person who is registered to practice before the United States Patent and Trademark Office (USPTO) to act for them in a representative capacity on a patent or application. A power of attorney or authorization of agent may also be revoked, and a registered representative may also withdraw as attorney or agent of record under 37 CFR 1.36. The rules of practice (37 CFR 1.33) also provide for the applicant, patentee, assignee, or representative of record to supply a correspondence address and daytime telephone number for receiving notices, official letters, and other communications from the USPTO. Further, the rules of practice (37 CFR 1.33(d) and 1.363) permit the applicant, patentee, assignee, or representative of record to specify a separate “fee address” for correspondence related to maintenance fees, which is covered under OMB Control Number 0651–0016 “Rules for Patent Maintenance Fees.” Maintaining a correct and updated correspondence address is necessary so that correspondence from the USPTO related to a patent or application will be properly received by the applicant, patentee, assignee, or authorized representative.

The USPTO's Customer Number practice permits applicants, patentees, assignees, and registered representatives to efficiently change the correspondence address or registered representatives for a number of patents or applications with one change request instead of filing separate change requests for each patent or application. Customers may request a customer number from the USPTO and associate this customer number with a correspondence address or a list of registered practitioners. Customers may then use this customer number to designate or change the correspondence address or to grant power of attorney to the list of registered practitioners for any number of patents or applications. Any changes to the address or practitioner information associated with a customer number will be applied to all patents and applications associated with that customer number.

The Customer Number practice is optional, in that changes of
