

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 0222.06 and OMB Control No. 2060-0086 in any correspondence.

Dated: June 3, 2002.

Oscar Morales,

Director, Collection Strategies Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7232-9]

Proposed Effluent Guidelines Program Plan for 2002/2003

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed Effluent Guidelines Program Plan; request for comments.

SUMMARY: Today's notice presents and invites comment on EPA's proposed Effluent Guidelines Program Plan for 2002/2003. Under the Clean Water Act (CWA), EPA establishes national regulations, termed "effluent guidelines," to reduce pollutant discharges from industrial facilities to surface waters and publicly owned

treatment works (POTWs). The proposed Effluent Guidelines Program Plan describes the Agency's ongoing effluent guidelines development efforts.

DATES: EPA must receive comments on the proposed effluent guidelines plan by July 18, 2002.

ADDRESSES: Submit written comments to Ms. Patricia Harrigan at the following address: Office of Water, Engineering and Analysis Division (4303T), U.S. EPA, 1200 Pennsylvania Avenue, NW, Washington, DC 20460. Comments submitted via hand delivery or Federal Express may be sent to the following address: U.S. EPA, EPA West, Room 6221, 1301 Constitution Avenue, NW, Washington, DC 20004. For additional information on how to submit comments, see "How to Submit Comments" in the Supplementary Information section of this notice.

The public record for this proposed plan has been established under docket number W-01-12 and is located in EPA's Water Docket, East Tower Basement (Room EB 57), 401 M Street SW, Washington, DC 20460. The record is available for inspection from 9:00 a.m. to 4:00 p.m., Monday through Friday, excluding legal holidays. For access to docket materials, call (202) 260-3027 to schedule an appointment. You may have to pay a reasonable fee for copying.

FOR FURTHER INFORMATION CONTACT: Patricia Harrigan at (202) 566-1666 or

harrigan.patricia@epa.gov, or Jan Matuszko at (202) 566-1035 or *matuszko.jan@epa.gov*.

How To Submit Comments

EPA encourages submission of comments using e-mail. Please send comments via e-mail to *harrigan.patricia@epa.gov*. Electronic comments must specify docket number W-01-12 and must be submitted as an ASCII, Word or WordPerfect file avoiding the use of special characters or any form of encryption. No confidential business information (CBI) should be sent via e-mail.

If you elect to mail your comments, please send an original and 3 copies of your comments and enclosures (including references). Commenters who want EPA to acknowledge receipt of their comments should enclose a self-addressed, stamped envelope. No facsimilies (faxes) will be accepted.

I. Regulated Entities

Today's proposed Effluent Guidelines Program Plan for 2002/2003 does not contain regulatory requirements. It identifies industrial categories for which EPA expects to develop or revise effluent limitations guidelines and standards and sets forth the schedules for those rulemakings. Entities that could be affected by regulations developed under this Plan, as proposed, are shown in Table 1 below.

TABLE 1.—ENTITIES POTENTIALLY AFFECTED BY FORTHCOMING EFFLUENT GUIDELINES REGULATIONS

Category of entity	Examples of potentially affected entities
Industrial, Commercial, or Agricultural.	Metal Products and Machinery (including electroplating, metal finishing); builders and developers engaged in construction, development, and redevelopment; Feedlots (swine, poultry, dairy and beef cattle); Aquatic Animal Production (fish hatcheries and farms); and Meat Products (slaughtering, rendering, packing, processing of red meat and poultry); and Pulp and Paper (dissolving mills).
Federal Government	Metal Products and Machinery (including electroplating, metal finishing); builders and developers engaged in construction, development, and redevelopment.
State Government	Metal Products and Machinery (including electroplating, metal finishing); builders and developers engaged in construction, development, and redevelopment.
Local Government	Metal Products and Machinery (including electroplating, metal finishing); builders and developers engaged in construction, development, and redevelopment.

II. Legal Authority

Today's notice is published under the authority of section 304(m) of the CWA, 33 U.S.C. 1314(m).

III. Effluent Guidelines Program Background

The CWA directs EPA to promulgate effluent limitations guidelines and standards that, for most pollutants, reflect the level of pollutant control achievable by the best available technologies economically achievable for categories or subcategories of

industrial point sources. See CWA sections 301(b)(2), 304(b), 306, 307(b), and 307(c). For point sources that introduce pollutants directly into the Nation's waters (i.e., direct dischargers), the limitations and standards promulgated by EPA are implemented in National Pollutant Discharge Elimination System (NPDES) permits. See CWA sections 301(a), 301(b), and 402. For sources that discharge to POTWs (i.e., indirect dischargers), EPA promulgates pretreatment standards that apply directly to those sources and are

enforced by POTWs backed by State and Federal authorities. See CWA sections 307(b) and (c).

Section 304(m) requires EPA to publish a Plan every two years that consists of three elements. First, under section 304(m)(1)(A), EPA is required to establish a schedule for the annual review and revision of existing effluent guidelines in accordance with section 304(b). Section 304(b) applies to effluent limitations guidelines for direct dischargers and requires EPA to revise such regulations as appropriate. Second,

under section 304(m)(1)(B), EPA must identify categories of sources discharging toxic or nonconventional pollutants for which EPA has not published effluent limitations guidelines under section 304(b)(2) or new source performance standards (NSPS) under section 306. Finally, under section 304(m)(1)(C), EPA must establish a schedule for the promulgation of effluent limitations guidelines under section 304(b)(2) and NSPS for the categories identified under subparagraph (B) not later than three years after being identified in the section 304(m) plan. Section 304(m) does not apply to pretreatment standards for indirect dischargers, which EPA promulgates pursuant to sections 307(b) and 307(c) of the CWA.

On October 30, 1989, Natural Resources Defense Council, Inc., and Public Citizen, Inc., filed an action against EPA in which they alleged,

among other things, that EPA had failed to comply with CWA section 304(m). Plaintiffs and EPA agreed to a settlement of that action in a Consent Decree entered on January 31, 1992. The consent decree, which has been modified several times, established a schedule by which EPA will propose and take final action for eleven point source categories identified by name in the decree, see Consent Decree, pars. 2(a) and 4(a), and for eight other point source categories identified only as new or revised rules, numbered 5 through 12, see Consent Decree par. 5(a). The Decree also established deadlines for EPA to complete studies of eight identified and three unidentified point source categories. See Consent Decree, par. 3(a).

The last date for EPA action under the Decree, as modified, is June 2004. The Decree provides that the foregoing requirements shall be set forth in EPA's

section 304(m) plans. See Consent Decree, pars. 3(a), 4(a), 5(a). The Consent Decree provides that section 304(m) plans issued subsequent to the decree that are consistent with its terms shall satisfy EPA's obligations under section 304(m) with respect to the publication of such plans. See Consent Decree, par. 7(b).

IV. Proposed Effluent Guidelines Program Plan for 2002/2003

Today's proposed Plan describes EPA's current effluent guidelines rulemaking activities. It is the last Effluent Guidelines Program Plan to be developed while EPA is operating under the 1992 Consent Decree described in Section III above.

Table 2 identifies the new or revised effluent guidelines currently under development and the schedules for proposal and final action.

TABLE 2.—EFFLUENT GUIDELINES CURRENTLY UNDER DEVELOPMENT

Category	Federal Register citation (date) or deadline for proposal	Final action date
Metal Products and Machinery	66 FR 424 (Jan. 3, 2001)	12/02
Concentrated Animal Feeding Operations (poultry, swine, beef, and dairy subcategories).	66 FR 2959 (Jan. 12, 2001)	12/15/02
Meat Products	67 FR 8581 (Feb. 25, 2002)	12/03
Construction and Development	05/15/02	03/04
Aquatic Animal Production	08/02	06/04
Pulp, Paper, and Paperboard (dissolving kraft (Subpart A) and dissolving sulfite (Subpart D)).	58 FR 44078 (Dec. 17, 1993)	09/04

In previous Effluent Guideline Plans, EPA had indicated its intention to take final action on its 1993 proposal to revise effluent guidelines for eight subcategories of the pulp, paper, and paperboard industry (Subparts C and F through L). At this time, however, EPA is not planning to revise effluent guidelines for these subcategories for a variety of reasons. For example, it appears that more stringent conventional pollutant limitations for these subcategories would not pass the Best Conventional Pollutant Control Technology "cost-reasonableness" test, which is explained at 51 FR 24974 (July 1986). In addition, EPA does not see the need at this time to promulgate national categorical best management practices to control spills and leaks of pulping liquors for these subcategories; permitting authorities can continue to impose best management practices on a case-by-case basis, as appropriate, under 40 CFR 122.44(k). As with all currently regulated industries, EPA will make the decision to move forward with data collection and analysis for all of these subparts (including possible guidelines

revisions) using a broader priority-setting process the Agency is developing for its future effluent guidelines planning evaluations.

V. Future of the Effluent Guidelines Program

For the past ten years, the 1992 Consent Decree has greatly influenced EPA's management of the effluent guidelines program and has required the Agency to develop or revise a specified number of effluent guidelines within specified schedules. June 2004 is the last Consent Decree deadline for taking final action on an effluent guideline started under the Decree. The 1992 Consent Decree will terminate when this obligation is satisfied.

The termination of the Consent Decree offers EPA, interested stakeholders, and the public the chance to evaluate the existing program and to consider how national industrial regulations can best meet the needs of the broader National Clean Water Program in the years ahead. EPA is drafting a strategy setting forth a planning process by which EPA will conduct the review of national effluent

guidelines and establish priorities to address the water quality challenges of the 21st century.

Integral to any planning process is the need to efficiently allocate scarce resources among competing priorities. This is particularly the case for a governmental agency such as EPA, which has the responsibility to assure that both public and private funds for regulatory compliance are spent to address the highest risks to human health and the environment. EPA also believes that its process for setting priorities must be completely transparent. In keeping with these goals, the draft strategy will describe how EPA will work with other interested parties to assess the risks posed by industrial discharges and to identify the best approach to address these risks (*i.e.*, through effluent guidelines or other tools).

EPA expects that development and implementation of this strategy will require a significant Agency investment in research, planning, and outreach. EPA plans to publish this draft strategy later this year, and will seek to engage a broad range of interested parties in a

discussion on the draft strategy. EPA intends to first use the process described in the strategy as the basis for its 2004/2005 Effluent Guidelines Program Plan.

VI. Request for Comment

EPA invites public comment on the proposed Effluent Guidelines Program Plan for 2002/2003 and on all other aspects of today's notice.

Dated: June 11, 2002.

G. Tracy Mehan, III,

Assistant Administrator for Water.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission

June 11, 2002.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; and ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before July 18, 2002. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Judith Boley Herman, Federal

Communications Commission, Room 1-C804, 445 12th Street, SW, DC 20554 or via the Internet to jboley@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judith Boley Herman at 202-418-0214 or via the Internet at jboley@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0795.

Title: Associate WTB Call Signs and Antenna Registration Numbers with Licensee's FRN.

Form No.: FCC Form 606.

Type of Review: Revision of a currently approved collection.

Respondents: Individuals or households, business or other for-profit, state, not-for-profit institutions, and state, local or tribal governments.

Number of Respondents: 429,000.

Estimated Time Per Response: 1 hour.

Frequency of Response: Third party disclosure requirement, on occasion reporting requirement.

Total Annual Burden: 429,000 hours.

Total Annual Cost: N/A.

Needs and Uses: The FCC Form 606 has been revised to make various changes to update the title of the form, mailing and web site addresses, removing the Taxpayer Identification Number (TIN) information and adding FCC Registration Number (FRN) information for licensees and antenna structure owners. The information will be used to populate the Universal Licensing System (ULS) with a unique identifying number (FRN) and require licensees to supply it when doing business with the Commission. This requirement is to facilitate compliance with the Debt Collection Improvement Act of 1996 and the Commission's internal CORES system.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

BILLING CODE 6712-01-P

FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA-1412-DR]

Missouri; Amendment No. 6 to Notice of a Major Disaster Declaration

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice.

SUMMARY: This notice amends the notice of a major disaster declaration for the State of Missouri, (FEMA-1412-DR), dated May 6, 2002, and related determinations.

EFFECTIVE DATE: June 10, 2002.

FOR FURTHER INFORMATION CONTACT:

Richard A. Robuck, Readiness, Response and Recovery and Directorate, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-2705 or Rich.Robuck@fema.gov.

SUPPLEMENTARY INFORMATION: The notice of a major disaster declaration for the State of Missouri is hereby amended to include the following areas among those areas determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of May 6, 2002:

Boone and Livingston Counties for Public Assistance.

Camden, Cape Girardeau, Douglas, Mississippi, Perry, Scott, and Stoddard Counties for Public Assistance (already designated for Individual Assistance).

(The following Catalog of Federal Domestic Assistance Numbers (CFDA) are to be used for reporting and drawing funds: 83.537, Community Disaster Loans; 83.538, Cora Brown Fund Program; 83.539, Crisis Counseling; 83.540, Disaster Legal Services Program; 83.541, Disaster Unemployment Assistance (DUA); 83.542, Fire Suppression Assistance; 83.543, Individual and Family Grant (IFG) Program; 83.544, Public Assistance Grants; 83.545, Disaster Housing Program; 83.548, Hazard Mitigation Grant Program.)

Joe M. Allbaugh,

Director.
